Premises Insurance

Most properties are re-valued for insurance purposes every few years as part of an overall exercise in respect of premises insurance. In the interim years between re-valuations, a percentage increase in accordance with relevant published indices and forecasts is applied to the declared values at renewal on 25 December.

Miscellaneous Insurance

Primarily public liability, employers liability, professional indemnity.

IS Recharges

The Information Services budget falls into three categories. First, a "core" element is retained by the IS Division for activities such as the support and operation of central and corporate systems. This part of the budget is recharged to individual committees on the basis of their usage of the systems and is shown as an IS recharge within Central Recharges.

The second element relates primarily to "desktop" and network support services. This traded budget has been devolved to departments who may choose to purchase these services from the IS Division or from alternative suppliers, or who may choose to use these resources for other purposes. The charge for such services is shown within the local risk expenditure of services and is not treated as a "recharge".

Finally, provisions relating to small IS development projects are currently held within Finance Committee. This resource is the subject of bids from individual services.

Capital Charges

The capital charges within this Committee total £1,991,000 in 2012/13. The charges are notional interest at 3.5% of value plus depreciation charges where appropriate over the anticipated lives of assets. All capital charges have a corresponding contra entry in the Finance Committee's Accounts.

Consequently, the charges have no overall impact on City Fund net expenditure.

	Asset Value 01/04/2011 £000
Landlord	34,196
Car Parks	3,693
Stores	3,955
Trade Centre	13,170
Other Non-Housing	345

Support Services

Central support service costs have been attributed in accordance with the Service Expenditure Code of Practice produced by the Chartered Institute of Public Finance and Accountancy.

The main support services provided by the central departments are:

Chamberlain (Finance) Accounting services, insurance, revenue

collection, payments, financial systems

and internal audit.

Comptroller and City Solicitor Property, litigation, contracts, public law,

administration of commercial rents.

Town Clerk Committee administration, human

resources, public relations, printing and

stationery, emergency planning.

City Surveyor The bulk of the City Surveyor's

Department is charged directly to the Property Investment Board or to other

committees for works or services

provided. However, corporate property advice, advice on historic buildings, on energy conservation and on repairs, maintenance and improvement programmes are recharged through

support support.

Miscellaneous Various services including central

training, corporate printing, occupational health, union costs, environmental and

sustainability section.

Finance Committee

The costs of time spent by officers providing advice and support to Members and Committees are charged to the cost centre for "corporate and democratic core" within Finance Committee.

Community & Children's Services Committee – Technical Services

The Technical Services Division within the Community and Children's Services Department is responsible for repairs, maintenance and improvements. The costs of the Division are recharged to services on a time basis.

Community & Children's Services Committee - Housing Services

Certain functions are accounted for centrally and recharged to each section of the Community and Children's Services Department based mainly on time allocations.
