

City of London Corporation

10 Steps Maturity Assessment

01 March 2019

10 Steps to Cyber Security: Dashboard

City of London Corporation - Report of: Gary Brailsford-Hart, Director of Information & CISO - Assessment Date: 01 March 2019

	% Complete	Target Score	Actual Score		% Complete	Target Score	Actual Score		% Complete	Target Score	Actual Score
nformation Risk Management	86%	4	4	Network Security	69%	4	3	Malware Prevention	68%	4	3
Establish a governance framework	100%	4	4	Police the network perimeter	75%	4	3	Develop and implement anti-malware policies	75%	4	3
Determine the organisation's risk appetite	25%	4	2	Install firewalls	100%	4	4	Manage all data import and export	75%	4	3
Maintain the Board's engagement with information risk	100%	4	4	Prevent malicious content	75%	4	3	Blacklist malicious web sites	100%	4	4
Produce supporting policies	100%	4	4	Protect the internal network	80%	4	3	Provide detailed media scanning machines	25%	4	1
Adopt a lifecycle approach to information risk management	100%	4	4	Segregate network as sets	25%	4	1	Establish malware defences	75%	4	3
Apply recognised standards	100%	4	4	Secure wireless devices	100%	4	4	End user device protection	50%	4	2
Make use of endorsed assurance schemes	100%	4	4	Protect internal IP addresses	25%	4	1	User education and awareness	75%	4	3
Educate users and maintain their awareness	75%	4	3	Enable secure administration	25%	4	2		7570	7	3
Promote a risk management culture	75%	4	3	Configure the exception handling process	100%	4	4				
Tomor a tox management canale	7370	4	3	Monitor the network	50%	4	2				
				Assurance process	100%	4	4				
Monitoring	72%	4	3	Incident Management	90%	4	4	Managing User Privileges	75%	4	3
Establish a monitoring strategy and supporting policies	50%	4	2	Obtain senior management approval	100%	4	4	Establish effective account management processes	100%	4	4
Monitor all ICT systems	75%	4	3	Provide specialist training	100%	4	4	Establish policy and standards for user identification and access control	75%	4	3
Monitor network traffic		4	3	Define the required roles and responsibilities		4	4	Limit user privileges		4	3
Monitor all user activity	75%			Establish a data recovery capability	100%		•	Limit the number and use of privileged accounts	75%		
Fine-tune monitoring systems	75%	4	3	Test the incident management plan	100%	4	4	Monitor	75%	4	3
Establish a centralised collection and analysis capability	50%	4	2	Decide what information will be shared and with	100%	4	4		75%	4	3
Establish a centralised collection and analysis capability	75%	4	3	becide what information will be shared and with whom	50%	4	2	Limit access to the audit system and the system activity logs	50%	4	2
Provide resilient and synchronised timing	100%	4	4	Collect and analyse post-incident evidence	75%	4	3	Educate users and maintain their awareness	75%	4	3
Align the incident management policies	75%	4	3	Conduct a lessons learned review	100%	4	4		, 5, 0	•	,
Conduct a lessons learned review	75%	4	3	Educate users and maintain their awareness	75%	4	3				
222. 2336110 1041104	/3/0	4	3	Report criminal incidents to law enforcement	100%	4	4				
lowership Madin Cantrols	909/	4	4	Contraction	959/	4	2	Home and Mahile Working	649/		2
Removable Media Controls Produce comorate policies	89%	4	4	Secure Configuration Use supported software	86%	4	3	Home and Mobile Working Asses the risks and create a mobile working security policy	64%	4	3
Removable Media Controls Produce corporate policies	89% 50%	4 4	4 2	Secure Configuration Use supported software	86% 80%	4 4	3	Home and Mobile Working Asses the risks and create a mobile working security policy	64% 50%	4 4	3 2
Produce corporate policies Limit the use of removable media		•	•	Use supported software Develop and implement corporate policies to update and patch systems		-		Asses the risks and create a mobile working security policy Educate users and maintain their awareness		•	_
Produce corporate policies Limit the use of removable media Scan all media for malware	50%	4	2	Use supported software Develop and implement corporate policies to update and patch systems Create and maintain hardware and software inventories	80%	4	3	Asses the risks and create a mobile working security policy Educate users and maintain their awareness Apply the security baseline	50%	4	2
Produce corporate policies Limit the use of removable media	50% 100%	4	2	Use supported software Develop and implement corporate policies to update and patch systems Create and maintain hardware and software	80% 100%	4	3	Asses the risks and create a mobile working security policy Educate users and maintain their awareness	50% 50%	4	2
