

Port Health & Environmental Services Committee – Outstanding Actions

Item	Date	Action	Officer(s) responsible	To be completed / progressed to next stage	Progress Update
1.	19 September 2017	Electric Vehicle Charging	Director of Transportation and Public Realm	March 2019	<p>The installation of a charging point in Noble Street was originally programmed for June 2018, however, there were severe delays with some legal questions and programming with TfL. The charging point went live on 2 May 2019</p> <p>A hub of eight to ten charging points is planned for installation at Baynard House, TfL and CoL are still working to deliver this during 2019.</p> <p>A report on the strategy for electric vehicle charging will come to committee September/November 2019.</p>
2.	16 July 2018	Water Refill Points	Director of Transportation and Public Realm	29 Jan 2019	<p>The Bow Churchyard drinking water refill point has temporarily been turned off for essential maintenance following a technical issue with the supply.</p> <p>We are working with Thames Water to ensure we can secure a more reliable supply to the drinking water fountain at Bow Churchyard. Arrangements have been made with Cheapside Business Alliance to direct members of the public to the next nearest drinking water refill point at Cheapside junction with Foster Lane. We await information from Thames Water on when they expect to complete their element of the work involved.</p>

					<p>The installation of the remaining refill points is regrettably behind schedule owing to a change in Thames Water Utilities practice of approving and processing applications and associated street works. We are working with them to prioritise our requirements. It is expected that a revised schedule of installations will be agreed in early August and anticipate that installations will be undertaken in September.</p> <p>Usage of the existing refill points in June was 8.1 cubic meters, equivalent to 16,000 half-litre bottles. We are conducting a small trial to explore ways to increase awareness and usage. We have installed some temporary Plastic Free City covers to raise the profile on a number of the refill points and will be monitoring their impact on usage.</p>
3.	27 November 2018	Garden Waste Recycling	Director of the Built Environment	May 2019	The Chairman requested a report on Garden Waste Recycling at a future meeting following progress with the new cleansing contract.
4.	15 January 2019	Measurement and mitigation options for operational rail noise from London Underground affecting the Barbican Estate	Director of Markets and Consumer Protection	July 2019	<p>A meeting between Cole Jarman and TfL engineers was held on 11/3/19. The meeting discussed the comments within the Cole Jarman report on groundborne rail noise, the TfL response and any additional information following the track walk on the 26 February.</p> <p>Full update in agenda item 12 – ‘Update on the issue of operational rail noise from London Underground affecting the Barbican Estate’</p>
