Subject: Licensing Act 2003 – Objection to Application for a variation of a premises licence

Hello, I wish to object to the application by Stem & Glory to supply alcohol to pavement tables at their premises in Bartholomew Close. As you know residents are extremely upset about the introduction of numerous drinking venues and the attendant disruption, noise and public nuisance that is being introduced to our quiet, historic neighbourhood - even though the City of London authorities assured that there would only be a single restaurant business in the whole of the new development in our community.

No doubt the licensing authority will continue to be unsympathetic to the quality of life of local residents as it has been before, but I feel that it is important to remind you of your responsibilities to the ratepayers and electors who fund your employment.

Thank you,

Peter Bowen
