<b>Subject:</b> Draft Alcohol Strategy 2019–23	<b>Public</b>
<b>Report of:</b> Andrew Carter, Director of Community and Children’s Services	<b>For Information</b>
<b>Report author:</b> Farrah Hart, Consultant in Public Health, Department of Community and Children’s Services	

### Summary

This report presents the City of London Corporation’s draft Alcohol Strategy 2019–23 for information and comments.

The Alcohol Strategy aims to bring together the work that the City of London Corporation and its partners undertake to reduce alcohol-related harm and to provide a framework for future work. This report outlines the main points of the Alcohol Strategy and summarises how it will be delivered and governed.

### Recommendations

Members are asked to:

- Note the Draft Alcohol Strategy 2019–23 set out in Appendix 1
- Note the plan for consultation.

### Main Report

#### Background

1. The Alcohol Strategy aims to bring together the work that the City of London Corporation and its partners undertake to reduce alcohol-related harm and to provide a framework for future work.
2. A key priority of the City of London’s Joint Health and Wellbeing Strategy is promoting healthy behaviour amongst City residents and workers, particularly

reducing the harm caused by alcohol. Alcohol traditionally plays an important role in the working culture of the City and the City has a thriving night-time economy.

3. Different parts of the City of London of London Corporation and the City Police focus on different aspects of alcohol harm, such as: education and awareness raising; provision of health services for those with conditions linked to alcohol misuse; treatment for dependent drinkers; licensing of premises that sell alcohol; community safety; and alcohol-related crime and disorder. However, to date, there has never been a single strategy that draws together these different aspects and sets out a clear framework for creating a culture of safe, responsible drinking in the City.
4. It is intended that the Corporate Alcohol Strategy consolidate and build on an approach that encourages City workers, residents and visitors to safely and responsibly enjoy alcohol, without causing harm to their own health or compromising the safety of others. A great deal of valuable work is already taking place across the City to minimise the health risks associated with alcohol, and to ensure a safe environment in which people can socialise. However, these efforts are not always as co-ordinated as they should be. It is envisaged that the strategy will create a framework for these activities, so that partners can work together effectively to a set of shared aims and objectives.

### **Current Position**

5. To develop this draft strategy, we engaged with internal and external stakeholders. These included:
  - City of London Corporation departments, including Community and Children's Services (Public Health, Business Healthy, Social Care, Housing, Homelessness), Community Safety, Licensing, Built Environment (Road Danger Reduction), Cleansing, Culture and Heritage, and Corporate HR
  - City of London Police
  - City and Hackney Clinical Commissioning Group
  - Square Mile Health (alcohol treatment and education service provider).
6. The Corporate Strategy and Performance Team were also consulted throughout the drafting process.

### **Alcohol Strategy 2019–23**

7. The strategy commits to informing and educating residents, learners, workers and visitors in the Square Mile about the risks of alcohol misuse, so that they experience alcohol use safely and receive the support they need, when required.
8. The three outcomes that the strategy will deliver on are:

- a. People are informed about the risks of alcohol misuse.
- b. People are safe, and feel safe, in the night-time economy.
- c. People have the support they need to access services.

## **Delivery**

9. This strategy will be supported by a detailed delivery plan with clear and measurable actions and indicators for each outcome.

## **Next Steps**

10. Once approved by the Health and Wellbeing Board, the draft strategy will be subject to a formal period of consultation with City residents, workers and businesses. Two consultation events are currently being planned: one with the resident community and one with employers.
11. An online survey will be developed to allow those who cannot attend events to provide feedback and comments on the strategy.
12. The strategy will go to the following committees for consultation:
  - Safer City Partnership
  - Police Committee
  - Licensing Committee
  - Port Health & Environmental Services Committee
  - Community and Children's Services Committee
  - Policy and Resources Committee.
13. The development of the action plan will be overseen by the Department of Community and Children's Services. The Health and Wellbeing Board and the Safer City Partnership will receive regular update reports to monitor progress and assess impact.

## **Corporate Implications**

14. The Alcohol Strategy will directly support the achievement of the following outcomes set out in the City Corporation's Corporate Plan 2018–23:
  1. People are safe and feel safe
  2. People enjoy good health and wellbeing.
15. This strategy also links to the following City Corporation strategies and policies that support the Corporate Plan:
  - Joint Health and Wellbeing Strategy 2017–20
  - Safer City Partnership Plan 2019–21
  - Responsible Business Strategy 2018–23
  - Anti-Social Behaviour Strategy 2019–23

- Statement of Licensing Policy 2017–22.

16. A public sector equality duty test of relevance has been carried out: this strategy has only positive or neutral impacts.

17. This strategy has been signed off as having no security, resourcing, or financial implications for the City of London.

## **Conclusion**

18. The new Draft Alcohol Strategy will, for the first time, provide a framework for partners in the City of London to co-ordinate efforts to allow City workers, residents and visitors to safely and responsibly enjoy alcohol, without causing harm to their own health or compromising the safety of others.
