# INTEGRITY DASHBOARD 2019/20 Quarter 2

Version 1.0

#### **Rationale for Integrity Dashboard**

The Integrity Dashboard will report on indicators designed to monitor how the Force is delivering the Police Code of Ethics and highlight behaviour of staff that may not meet the standards set out within the code. The code of ethics is detailed below for reference within this document.

#### **Police Code of Ethics:**

#### 1. Honesty and integrity

I will be honest and act with integrity at all times, and will not compromise or abuse my position.

#### 2. Authority, respect and courtesy

I will act with self-control and tolerance, treating members of the public and colleagues with respect and courtesy.

I will use my powers and authority lawfully and proportionately, and will respect the rights of all individuals.

#### 3. Equality and diversity

I will act with fairness and impartiality. I will not discriminate unlawfully or unfairly.

#### 4. Use of force

I will only use force as part of my role and responsibilities, and only to the extent that it is necessary, proportionate and reasonable in all the circumstances.

#### 5. Orders and instructions

I will, as a police officer, give and carry out lawful orders only, and will abide by Police Regulations.

I will give reasonable instructions only, and will follow all reasonable instructions.

#### 6. Duties and responsibilities

I will be diligent in the exercise of my duties and responsibilities.

#### 7. Confidentiality

I will treat information with respect, and access or disclose it only in the proper course of my duties.

#### 8. Fitness for work

I will ensure, when on duty or at work, that I am fit to carry out my responsibilities.

#### 9. Conduct

I will behave in a manner, whether on or off duty, which does not bring discredit on the police service or undermine public confidence in policing.

### 10. Challenging and reporting improper behaviour

I will report, challenge or take action against the conduct of colleagues which has fallen below the standards of professional behaviour.

	Rationale: L&D provides input on an ad-hoc bass to supplement training courses to implement national guidance or learning best practice from within Force. Where additional input has been made on Code of Ethics with courses within a quarter a text response will provide oversight into what has occurred and why so that ISB received an update on the wider Code of Ethics training and input made by Learning and Development within quarter.
