### Recommendations

Members are asked to approve the release of £63,000 from the Central Risk element of the Education Board budget to be received by City of London academies at the proportional rate proposed in *Table 1* below.

### Main Report

- At the meetings on 23 May and 18 July 2019, the Education Board approved the release of £1,666,110 in City Premium Grant funding allocated to City of London sponsored and co-sponsored academies. There was £63,890 remaining in the Central Risk Budget to allocate in grants to academies based on the school improvement needs identified through the Standards Scrutiny Meetings in October 2019.
- The Strategic Director and the Lead Policy Officer consulted with the Chief Executive Officer of City of London Academies Trust (CoLAT) to apportion the remaining funding to academies aligned specifically to school improvement needs. Not every academy will receive a further grant noting that the finite remaining funds have been apportioned to areas of greatest need.
- Table 1* shows a proportional amount to be received by academies and the related areas of school improvement:

<b>Total:</b>	63K*	*£890 retained for any additional support required over the early Spring Term. This will be fully allocated by the end of the Financial Year.

4. Additionally, the Education Unit will allocate £10K earmarked for middle leadership development in the Education Strategy strand of the Local Risk Budget to enable CoLAT to centrally commission a middle leadership development programme for all academies. The programme will be coordinated by a delivery partner who will run a combination of cross-academy training sessions and smaller 'cluster sessions' for schools concentrated in geographical areas. This initiative responds to a systemic school improvement need to develop middle leaders across all academies.
