Subject: Butchers Hall licence variation objection

Hello

I would like to object to the licence variation which I understand proposes a mobile bar outside Butchers Hall. This sounds very odd and very undesirable in what is overwhelmingly a residential area.

I also object to the application for tables, chairs and a mobile bar outside the Butchers' Hall. There is a considerable risk of noise pollution and consequently public nuisance. I don't think it's normal for a livery hall to take over a public highway for the purposes of serving alcohol. The Hall is both adjacent to and opposite large residential blocks of flats and it seems a little underhand that this licence is being sought in advance of residents moving in to those blocks.

It is also worth noting that Helical Bar will not be permitting any tables or chairs outside the restaurant proposed to occupy the site of the old Queen Elizabeth wing of the hospital.

Yours faithfully
