

**Medium Term Financial Strategy/Budget Policy**

**City Fund**

The main constituents of the City Fund medium term financial strategy/budget policy are as follows:-

- (i) to aim to achieve as a minimum over the medium-term planning period the 'golden rule' of matching on-going revenue expenditures and incomes;
- (ii) to implement budget adjustments and measures that are sustainable, on-going and focused on improving efficiencies;
- (iii) in line with (ii), as far as possible to protect existing repairs and maintenance budgets from any efficiency squeezes or budget adjustments and to ring-fence all other non-staffing budgets (to prevent any amounts from these budgets being transferred into staffing budgets);
- (iv) within the overall context of securing savings and budget reductions, to provide Chief Officers with stable financial frameworks that enable them to plan and budget with some certainty;
- (v) for the Police service, ordinarily to set an annual cash limit determined from the national settlement allocation to the City Police together with the allocation from the Business Rates Premium;
- (vi) to identify and achieve targeted/selective budget reductions and savings programmes;
- (vii) to continue to review critically all financing arrangements, criteria and provisions relating to existing and proposed capital and supplementary revenue project expenditures;
- (viii) to reduce the City Fund's budget exposure to future interest rate changes by adopting a very prudent, constant annual earnings assumption in financial forecasts. If higher earnings are actually achieved, consideration to be given to only making the additional income available for non-recurring items of expenditure;
- (ix) to accept that in some years of the financial planning period it may be necessary to make contributions from revenue balances to balance the revenue budget;
- (x) to finance capital projects first from disposal proceeds rather than revenue resources and supplementary revenue projects from provisions set aside within the financial forecast followed by external borrowing (if required) in an affordable, prudent and sustainable way; and
- (xi) to minimise the impact of rate/tax increases on City businesses and residents.
