| Total | 200,109 | 387,515 | $\mathbf{1 8 7 , 4 0 6}$ |  |

1. The variance is largely attributed to:
a) inflation (baxters index over fours years $=£ 50,000$ )
b) utilities works $=£ 73,000$, not included in orginal estimate
c) extra contingency $=£ 36,000$ (from $£ 16,000$ to $£ 52,000$ )

## S.278(2) Footway Works: Inclusion of Additional Works (2011)

|  |  | Budget with |  |  |
| :--- | ---: | ---: | :---: | :---: |
|  | Adjusted Estimate (£) | Additional Works (£) | Variance ( $£$ ) | Notes |
| Works | 363,502 | 391,030 | 27,528 | 2 |
| Staff Costs | 24,013 | 30,281 | 6,268 |  |
| Total | 387,515 | 421,311 | 33,796 |  |

2. Additional works were required to solve a problem with the trees and the construction around their base that would have resulted in the trees dying.
S.278(2) Footway Works: Expected Final Spend

|  | Latest Approved | Expected Final |  |  |  |
| :--- | ---: | ---: | :---: | :---: | :---: |
|  | Budget (£) | Spend (£) | Variance (£) | Notes |  |
| Works | 391,030 | 341,096 | - | 49,934 | 3 |
