- Strong agreement on all themes and priorities identified
- Affirmation of the importance of relation and sex education in schools
- Lack of knowledge of and access to services named as key barriers
- Stigma and shame attached to sex and STIs, and HIV, persist
- Services remain fragmented across the wider sexual and -especially- reproductive health pathway, often due to fragmented commissioning responsibilities

Action Plan

Theme	Outcome	Action	Strategic Lead (name)	Delivery Lead	Partners	Milestones (aim for a date)	Indicators	Priority
1) Healthy and fulfilling sexual relationships	A) Young people (YP) in City and Hackney have equitable access to good quality, comprehensive and inclusive relationship and sex education (RSE) in schools and settings of alternative provision	<p>Promote and increase uptake of Young Hackney's free Personal Social and Health Education in secondary schools and settings of alternative provision, while respectful dialogue is continually maintained with schools and other educational institutions where RSE is not deemed appropriate and acceptable for religious or cultural reasons</p> <p>Foster collaboration with and between different entities doing SRH-related school outreach, such as Homerton Sexual Health Services, in order to enhance reach and coverage</p>						
	B) Young people have access to appropriate and specialist sexual health services	<p>HSHS clinics are welcoming to young people and offer booked and walk up appointments with evening/weekend clinics.</p> <p>Dedicated young people's services such as youth hubs and/or the 'super youth hub' offer safe spaces for SRH advice</p> <p>Pharmacies provide a low barrier range of SRH services including condoms, EHC, Chlamydia screening/treatment and Gonorrhoea screening, as well as routine oral contraception (under development) and are trained to make safeguarding referrals</p>
