Subject: RE: New Premises Application Licensing Act 2003 - Tokyo Hit, Ground Floor & Basement 165 Fleet Street EC4A 2AE

Hi Rob

In the absence of adequate information as to how noise at, or associated with, the premises will be controlled I wish to make a representation in respect of this application on the basis of public nuisance.

I have particular concerns as to how amplified music spill, noise associated with the bowling, noise from patrons outside (for smoking, etc.) and dispersal noise will be controlled as there is a significant risk that if not managed robustly there will be a detrimental impact to those in the environs of the premises, in particular residents and other noise sensitive receptors.

I also believe that there is risk that public nuisance could be caused by noise associated with the offering of food at a late terminal hour, i.e. the noise associated with bins being emptied and other food-service related noise. Furthermore, there is a potential risk of public nuisance caused by odour and fumes from the premises given that I have no information to inform me to the contrary.

Due to all of the above, may I make a representation on behalf of the Pollution Control Team please?

Best wishes

Claire
