City of London: London Performance Dashboard: 2013-14 - Q1 Final version

Guidance notes

- a. The diamond represents performance for your chosen borough. To the right of the black bar represents better than average performance, to the left represents lower than average performance. b. Lower than average performance does not necessarily imply poor performance, and vice versa.
- c. ** This denotes there are fewer than 16 returns for that indicator.
- d. Please note that the national comparator measure does not necessarily relate to the same time period as borough data.
- e. (a) this denotes that for data presourced by London Councils, the borough submitted their own data instead.

 f. Blue font indicates a presourced data item from an existing data publication.
