

FLAT [REDACTED]

TEMPLE HOUSE

TEMPLE AVENUE

LONDON

28 December 2014,

Dear Sirs,

I am writing to strongly object to the application for a new premises licence by Corinne Holloway for 6 Carmelite Street.

I am a resident at Temple House and our front entrance is 11 metres along from the above premises. We live in a quiet residential area and the increase in late night noise from revellers will directly affect the peace and quiet enjoyment of our property at times when we are likely to be trying to sleep.

In addition there are several bars in the block whose bedline is likely to be around 7pm.

There will be additional environmental pollution from taxis, delivery lorries and refuse collection lorries which are already a noise pollutant in the area.

Extra street rubbish is inevitable - there are no waste bins on the roads for security reasons. Extra cigarette butts thrown outside our property, incidences of undigested vomit, the list goes on.

(PJO)

There are more than sufficient restaurants, bars & other eateries a few minutes walk away in the commercial area of Fleet St. and therefore this proposal is superfluous to requirements with residents needing more than catered for.

In addition there are several vacant restaurant / bar premises in the nearby area which give testament to this and could also be used by new business ventures.

Please could you acknowledge receipt of my comments and let me know of any intended hearing into the licensing application.

Yours faithfully

PHILIP M. Lobb
