<b>Report of:</b> Chief Officer, CCG	<b>For Information</b>

### Summary

The attached presentation provides an overview of the City and Hackney Clinical Commissioning Group's (CCG) commissioning intentions for 2015/16.

The CCG's five key ambitions are:

- Increase life expectancy
- Quality of life
- Quick recovery
- Good experience of care
- Patient safety

The CCG commission services in line with the following key objectives:

- Keep our health economy productive and efficient
- Maintaining referral rates, eliminating steps in the pathway which don't deliver patient benefit
- Reducing unnecessary emergency hospital activity
- Empower and support our patients to be in control of their health and decisions about their health
- Address concerns and feedback from our patients, members and stakeholders
- Align our work with Public Health commissioned services
- Prevention and wellbeing can impact on premature mortality and outcomes as much as what the CCG commissions
- Ensure parity of esteem between mental and physical health and focus on the mental health needs of our patients
- Ensure that primary care has the skills and capacity to remain the first point of contact and handle the work arising from our plans
- Align services across providers to deliver improved clinical quality and outcomes and joined up clinical behaviours
- Ensure safe and effective 7 day services which deliver patient satisfaction
- Improve our performance against CCG outcomes and NHS Constitution rights
- Decide what to do about non recurrently funded schemes which end in 2016
- Pass the "Think like a taxpayer, act like a patient" test – is it a good use of public money and how will it benefit our patients?
