

Committee(s): Police Performance and Resource Management Sub Committee	Date(s): 30 th June 2015
Subject: City of London Police: Risk Register	Public
Report of: Commissioner of Police	For Information
<p style="text-align: center;"><u>Summary</u></p> <p>The Force Strategic Risk Register has been reviewed as part of the quarterly assurance process maintained within the Force with notable amendments to the register as follows:</p> <ul style="list-style-type: none"> • <i>SR 04: Underperforming as Lead Force for Economic Crime:</i> This risk remains scored as Amber. However, there is downward movement in many of the control scores which show the maturity of the Force control measures is increasing. This trend should see an increased improvement in score in time for this risk and it is on the path to being scored as Green. • <i>SR 05: Reduction in staff Morale/well-being:</i> Following a review of this risk at the February Risk Assurance Group, the likelihood of this risk occurring has been reduced to Medium. Overall, this has resulted in this risk now being scored as Green. • <i>SR 09: Delivery of new Force Estate:</i> This risk remains Green reflecting the successful delivery of Guildhall Yard East. As the final decisions on the Force estate is made and plans put in place to carry out the works this risk will be reviewed to reflect the circumstances of the Force. It remains Green at this stage to reflect the success so far and that plans for the completion of the new estate model are now being finalised. • <i>SR 17: Continued pressure on funding streams reducing overall Force budget:</i> The Risk Assurance Group determined that the likelihood of this risk should be raised further to High reflecting the increased certainty that austerity measures would continue and there would be continued pressure for the Force to make savings from its budget. • <i>SR 19: Failure in Provision of custody Services:</i> This risk has been re-assessed over the course of the quarter and reflects the amount of work undertaken to complete identified 	

improvements to the Force's custody suites. The likelihood and control scores for this risk have now been reduced and the risk is now scored as Green overall. This reflects the significant work undertaken by the Force to upgrade existing facilities for use until the new custody suite is delivered as part of the new estate programme.

- *SR 20: Policy approval and management process leaves Force open to potential litigation:* Strategic Development have been working with Directors to ensure the policy database is up to date and that only policies in date are published externally. A great deal of work has been done by Directors to update documents and close policy gaps. Although there are still some outstanding areas of work to be completed and updates are ongoing this risk has been assessed as Green due to decreasing the Likelihood to Medium and assessing our controls as more mature.

RECOMMENDATION

It is recommended that Members note the content of this report.

Main Report

BACKGROUND

1. The Force Strategic Risk Register remains monitored on a quarterly basis by the Force Risk Assurance Group currently chaired by the Assistant Commissioner. This report sets out the position of the Force Strategic Risk Register following the Risk Assurance Group held on 20th February 2015 and the meeting held with the Police Committee Risk Lead on the 16th April 2015. The risk register has been amended and updated following these meetings and the position from 15th May 2015 is reflected within this report for members' information.

CURRENT POSITION

2. In accordance with the City of London Corporation's responsibilities as a police authority, it is appropriate that your Committee is made aware of critical risks, which may impact on service delivery or performance, together with any plans to eliminate or mitigate critical risks, and the changing risk profile of the Force.
3. The Force has initiated a risk assurance process to provide oversight to the risk register cascade and to provide a forum for the Assistant Commissioner to actively question all risk registers within the Force and allow Directors

to collectively assess their risks and control measures. This aims to provide a top-down and bottom-up approach to the management of risk.

4. The assurance meetings have taken place on a quarterly basis since the 3rd May 2011. The last meeting to be held was chaired by the Commander on the 20th February 2015, where the Force risk profile for 2014/15 was reviewed for the final time within the financial year.
5. The Strategic Risk Register continues to be supported by a cascade of Directorate risk registers that are maintained and reviewed by Directors in support of the delivery of their portfolio business plans. Significant risks from Directors areas that they define as unmanageable by them alone are also discussed at the Risk Assurance Group to add information, where appropriate, to the Force risk profile. The position of the Force risks as at 8th June 2015 is detailed below:

6. The Force Risk Assurance Group discussed the risk profile in detail at their last meeting and the register reflects these discussions and updates since this meeting took place in February. All risks were discussed in detail and this is summarised for members information below:
7. *SR 01-SR 03*: these were considered by the group to ascertain if they remained relevant and the scoring was accurate. Following considerations it was determined these risks remain relevant and the scoring currently reflected the current position. SR 01 was amended to reflect work undertaken within Force to safeguard its staff from a terrorist attack and this text is part of the main register.
8. *SR 04: Underperforming as Lead Force for Economic Crime*: This risk remains scored as Amber. However, there is downward movement in many of the control scores which show the maturity of the Force control measures is increasing. This trend should see an increased improvement in score in time for this risk and it is on the path to being scored as Green.
9. *SR 05: Reduction in staff Morale/well-being*: Following a review of this risk at the February Risk Assurance Group, the likelihood of this risk occurring has been reduced to Medium. Overall, this has resulted in this risk now being scored as Green.
10. *SR 09: Delivery of new Force Estate*: This risk remains Green reflecting the successful delivery of Guildhall Yard East. As the final decisions on the Force estate is made and plans put in place to carry out the works this risk will be reviewed to reflect the circumstances of the Force. It remains Green at this stage to reflect the success so far and that plans for the completion of the new estate model are now being finalised.

11. *SR 11: Delivery of Policing Plan Priorities and Measures*: This risk was considered by the Risk Assurance Group and noted that it was still Green. No amendments to the risk were raised and the group was content the scoring remained accurate. The new measures for 2015/16 have been aligned to this risk and should significant underperformance be noted then information will be presented to allow for a full reassessment of this risk.
12. *SR 12: Loss of ECD external funding streams*: At the time of the risk meeting ECD acknowledged that this risk needed to be updated to reflect loss of OACU and other movements in ECD funding picture. An updated risk assessment will be submitted to the Risk Assurance Group in June. At the time this report was compiled for Committee this assessment had not been completed and ratified by ECD SMT.
13. *SR 14: IT Business Continuity*: This risk remained Amber. The Group accepted that IT were working on a number of programmes to increase resilience within the Force and that once these were delivered our control scores could be reassessed. At this time there was no new information presented that would influence the scoring of this risk.
14. *SR 16: Impact of continued savings on Force capability*: The Risk Assurance Group confirmed that this risk should still be scored as Amber. There was certainty of continued savings pressure but the full impact of these would not be known until the long term budgets were set. This risk will continue to be reviewed in line with the performance of the Policing Plan to determine the impact implementing the savings challenges is having on the performance delivered by the Force.
15. *SR 17: Continued pressure on funding streams reducing overall Force budget*: The Risk Assurance Group determined that the likelihood of this risk should be raised further to High reflecting the increased certainty that austerity measures would continue and there would be continued pressure for the Force to make savings from its budget.
16. *SR 18: Vulnerability of Force IT network security being compromised*: This risk was reviewed and assessed to remain as Amber. The last control measure from the risk was removed as considered as business as usual (Due diligence process being undertaken before signing of Agilysis contract). This risk will remain within the register for review at the next Risk Assurance Group.
17. *SR 19: Failure in Provision of custody Services*: This risk has been reassessed over the course of the quarter and reflects the amount of work undertaken to complete identified improvements to the Force's custody

suites. The likelihood and control scores for this risk have now been reduced and the risk is now scored as Green overall. This reflects the significant work undertaken by the Force to upgrade existing facilities for use until the new custody suite is delivered as part of the new estate programme.

18. *SR 20: Policy approval and management process leaves Force open to potential litigation:* Strategic Development have been working with Directors to ensure the policy database is up to date and that only policies in date are published externally. A great deal of work has been done by Directors to update documents and close policy gaps. Although there are still some outstanding areas of work to be completed and updates are on-going this risk has been assessed as Green due to decreasing the Likelihood to Medium and assessing our controls as more mature.
19. The next risk assurance Group Meeting will be held in Force on 11th June and this paper does not reflect any amendments as a result of discussions held there due to the timescales of submitting the report for Committee attention.

OTHER SIGNIFICANT IMPLICATIONS

20. Robust implementation of risk management ensures the Force can address the barriers and opportunities it faces so that it continues to comply with all of its obligations, statutory and non-statutory.

CONCLUSION

21. The risk profile of the Force is continually reviewed and updated quarterly by the Force Risk Assurance Group. The Police Committee are kept informed of the Force Risk Profile to ensure they are briefed of new and emerging risks and any significant change in existing risk scores as part of the Force's assessment of its own risk profile.

Control Assurance within the Risk Register

The Strategic Risk Register is contains the Corporate risks identified for the Force. Each risk has a suite of identified controls that have been scored individually following the criteria below:

Control levels

- 4) **None:** Although controls are being worked on there are none in place to mitigate the risk at this time.
- 3) **In Place:** Control measures have been introduced for the risk but there is no assurance as to their effectiveness, they remain untested.
- 2) **In Place & Tested:** Control measures have been introduced for the risk and they have undergone assurance testing. Additional measures or improvements have been identified but not implemented.
- 1) **Comprehensive & Tested:** Control measures have been introduced for the risk and they have undergone assurance testing, where appropriate improvements and additional controls have been implemented. There are currently no additional measures identified to mitigate the risk more effectively.

This score is reflected within the document next to each control assessed.
