

Efficiency & Sustainability Plan

CORE MESSAGES ON THE CITY OF LONDON CORPORATION'S FINANCES – January 2017

Our aim:

Our funds are there to help the City of London Corporation promote financial, professional and business services, provide excellent public services and support the City, capital and country as a whole.

They must be used economically, efficiently and effectively to maintain the City's underlying infrastructure and services and so we can prioritise paying for initiatives which meet our long-term ambitions.

How we do this:

The City has four funds.

Two of these are paid for by ratepayers and taxpayers:

- City Fund - money used to cover local authority activities in the square mile and beyond.
- Police Fund – the money used to pay for the City of London Police Force

Two are provided at no cost to the taxpayer:

- City's Cash - an endowment fund built up over 800 years and passed from generation to generation used to fund services that benefit London and the nation as a whole.
- Bridge House Estates - the money used to look after five bridges over the Thames with any surpluses being used for charitable purposes and awarded through the City Bridge Trust.

It is a duty on us to make the best use of the resources we have. This can only be done through continually reviewing the economy, efficiency and effectiveness of our services, the outcomes that are achieved and how they meet our long-term ambitions.

Everyone has a role to play in constantly challenging what we do and thinking about how we could do things better.

Are there further cuts being made?

Yes, but only 2% and only to ensure continuous improvement. In 2014, we estimated that due to cuts in government funding City Fund would be facing deficits approaching £11m by 2017/18 so we had to deal with this by scrutinising all our activities in what we called the Service Based Review.

We could, of course, have just made efficiencies in those areas paid out of public funds. But we decided it was not fair or equitable to ask some parts of our organisation to be more efficient and not others.

Proposals totalling £20m in efficiencies/extra income were identified and are well underway to being implemented. Following the completion of the Service Based Review programme, a continuous 2% per annum budget reduction target will be introduced across all our services. Departments will be expected to meet this through efficiency and performance improvements.

Why are we continuing to make budget reductions?

Firstly, we have a duty to ensure the most effective and efficient use of our resources.

Secondly, we continue to have big cost pressures. We live in an historic and ageing City. Many of our properties are deteriorating which requires an increased level of investment, and our IT infrastructure and service needs investment. In addition the City of London Police needs to address the changing nature of policing and the increasing demands placed on the service in the context of increased security threats from terrorism, growing cybercrime and online economic crime and intelligence requirements.

Thirdly, by being economic, efficient and making savings and focusing our efforts where we are most effective we can enhance existing services and pursue new priorities and increasingly ambitious outcomes for the benefit of the City, London and the nation.

Why not utilise the City's Cash fund endowment?

This is money which has been passed down to us over the years, produces income for us and is not to be used lightly as we want to pass it on to future generations to sustain services in the medium to longer term. Its income comes mainly from property and investments and is used to finance activities for the benefit of the City, London and the nation as a whole. Any sale of the underlying investments reduces the ability of the fund to generate income in future years.

The City's Cash budget will be running a deficit over the next three years to allow us to carry out essential investment before returning to a small surplus in 2020/21.

So what does the future look like for these funds?

The financial forward look for two of our funds is relatively healthy but uncertainties remain.

- City Fund: we have been planning for a continuing reduction in government grant and the underlying budget position is robust. We will be using the headroom to invest in essential repairs and maintenance and to fund the building of the new Museum of London to the benefit of all Londoners and the country as a whole.
- City's Cash: The forecast deficit over the next three years reflects our commitment to carry out essential investment and to support cultural development before returning to a small surplus in 2020/21.
- Bridge House Estates: the rising surplus will increase the resources available to the City Bridge Trust for charitable giving across London.
- The Police Fund: The underlying financial position remains very challenging with the recent Police core grant settlement marginally lower than anticipated. Additional cost pressures have meant the fund has moved into deficit, utilising the remaining ring fenced reserves in 2016/17 and 2017/18. An interim strategy has been developed and proposed for dealing with the deficit to the end of 2017/18. The Town Clerk, the Chamberlain and the Commissioner, have commissioned a review of the Police operating model, focusing on future demand modelling and how best to secure VFM, to identify options to address the, as yet unfunded, projected deficits of £5.6m in 2018/19 and £3.8m in 2019/20.

What are your total assets?

The City of London Corporation has assets of around £4bn. Income from these assets fund our services and any sale of assets to fund on-going services in the short term would harm our ability to protect services in the medium to longer term. Sale of many of our local authority assets to fund day to day services is also effectively prohibited by Local Government accounting rules.
