I am writing to object to the attached application. I appreciate the attempts made by the applicants to consult but the hours applied for are still inappropriate in this area, near to pockets of residents who are entitled to peace at night. For the reasons set out in my objection (copy attached) to the original application, I believe that to avoid public nuisance 11 pm is the latest acceptable terminal hour for licensed activities.

Dear Sir/Madam

### **Premises License Application: Lucky Voice – 111 Fleet Street EC4A 2AB**

I write to object to this application. If it is granted unmodified it will cause significant public nuisance given its proximity to several residential properties. The proposed terminal hour of 3.00 a.m. seven days a week in particular is completely inappropriate given the location, where residents who endure significant disturbance during the day have until now been used to relative peace during the night.

I have seen the objection lodged by my ward colleague Graham Packham, and agree with him that to prevent public nuisance the terminal hour should be set to be no later than 11pm, and the following of the Corporation's model conditions should be imposed:

- All doors and windows to be kept closed at all times save for entry or exit (MC13), and no loudspeakers to be located in the entrance lobby (MC14).
- No consumption of drinks to be permitted outside the premises (MC17).
- No promoted events allowed (MC02).

In addition, noise generated by amplified music should be controlled by a noise limiting device set at a level determined by a City Corporation Environmental Health Officer (EHO), and should not be adjusted without the consent of an EHO.

Please acknowledge receipt of this objection and let me know when the hearing will take place to consider the application.

Yours faithfully

Catherine McGuinness  
Deputy  
Castle Baynard Ward
