Emerging implications for the public realm design and spatial strategies

New/improved links

Opportunity to enhance access between the Eastern Cluster and the wider context by creating new links.

Pedestrian crossing

Opportunity to embed the Eastern Cluster with the wider context in all directions by connecting existing links with pedestrian crossings.

New/improved links

Opportunity to enhance access to the Eastern Cluster from its adjacent areas by realigning streets and providing crossings.

New/improved links

Opportunity to enhance access between the Eastern Cluster and the wider context by creating new links.

New/improved links

Opportunity to enhance access between the Eastern Cluster and the existing transport nodes (i.e. Fenchurch Street and Tower Hill stations).

Further enhancement opportunity
Existing and emerging desire lines
Existing crossing facilities
Lack of crossing facilities
City of London Boundary
