1. Introduction

Every young person deserves a good education which enables them to flourish and to achieve the best academic results that they can. The City of London Corporation (City Corporation) is committed to supporting the delivery of world-class education. This education is based on a broad and balanced approach aimed at developing the whole child, with an emphasis on creating a lifelong love of learning.

The Education Strategy 2019-2023 establishes the City Corporation's vision for education. It encompasses the City's schools, and the City's cultural, heritage and environmental assets, and has a strong focus on employability and skills. The Education Strategy 2019-2023 is overseen by the Education Board. The Education Board has an ambitious vision for the future of education in London. The City Corporation and its schools should be thought leaders and influencers, sharing knowledge and experience locally, nationally and internationally.

The City of London Corporation is a major provider of education. As a Local Authority, the City Corporation has one voluntary aided school, Sir John Cass's Foundation Primary School (Est. 1748). Sir John Cass's Foundation Primary School is the one state-maintained school within the City. The City Corporation is the co-sponsor of two secondary school academies - City of London Academy Hackney (CoLAH, co-sponsored with KPMG, Est. 2008) and City of London Academy Islington (CoLAI, co-sponsored with City University, Est. 2008). The City of London Academy Trust (CoLAT) is a multi-academy trust and it has eight academies - four secondary schools, three primary schools and one Sixth Form College. The three primary schools in CoLAT are Galleywall (Est. 2016), Redriff Primary (Est. 2014) and Primary Academy Islington (CoLPAl, Est. 2017). The Secondary schools in CoLAT are City of London Academy Southwark (CoLAS, Est. 2003), Shoreditch Park (Est. 2017), Highbury Grove (Est. 2017) and Highgate Hill (Est. 2017). The Sixth Form College in CoLAT is Newham Collegiate Sixth Form (NCS, Est. 2018). The City Corporation is the proprietor of the following independent schools: City of London School (Est. 1442); City of London School for Girls (Est. 1894); City of London Freeman's School (Est. 1854). The City Corporation is responsible for academic performance, premises management and personnel in these three schools. In its entirety, all this group of schools is called the City's Family of Schools, and they work in close partnership with each other, enabling staff to share best practice and expertise, and provide new opportunities for pupils. Each school is a unique entity yet together share a common purpose and aims.

The City Corporation provides bursary support to pupils at its independent schools and to pupils at King Edward's School, Witley (Est. 1553); and Christ's Hospital School (Est. 1552). Additionally, it has the right to nominate governors to several other schools and educational bodies, including Emanuel School (part of the United Westminster Schools Foundation group of schools) and Central Foundation Boys School. In addition to this Family of City Schools, the City Corporation maintains connections with several other educational institutions, generally ones with which it has had historic links, for example, St Paul's Cathedral School, Prior Western School, Emanuel School in Wandsworth Local Authority, Treloars (Special Education School) in Alton and Central Foundation Boys' School in Islington. For example, Emanuel School has an old association with the City and falls within the remit of the Court of Aldermen. Treloars was established by the Lord Mayor in 1907 and it still has strong links with the City of London which bring the school tremendous benefits in terms of profile and fundraising. Each Lord Mayor of the City of London automatically becomes a trustee of Treloar Trust. There is also a rich tradition of the Livery Companies in the City supporting education and operating schools. The

Livery Movement is justifiably proud of its many and varied contributions to all forms and levels of education. Its bursaries are generous, and its support for schools and academies in time and donations is well publicised. The main connection to this broader group of schools is through governors and events. Throughout the year, the Education Unit offers a series of events and training opportunities for pupils, school leaders, teachers, bursars and governors. All these events are offered to participants across the broader group of schools and they are all free of charge to the attendees.

The Guildhall School of Music & Drama (GSMD) is jointly funded by the Higher Education Funding Council for England (HEFCE) and City's Cash and reports to its Board (including the Education Board).

There are clear benefits of having a mixed family of schools containing both independent and state schools, and specialist and general provisions at all levels of education. The City schools are committed to: developing partnerships; sharing best practice; learning from each other; and exploring opportunities to become more efficient through greater collaboration. There is a wealth of experience and practice across our schools. There is great potential in further developing partnership working between schools to establish mutually beneficial relationships and to share learning. Therefore, Education Strategy 2019-2023 promotes working with colleagues, both within the City Corporation and outside, to ensure alignment of objectives and mutual benefits for all schools.

The City Corporation also offers educational programmes through its cultural institutions and its open spaces programmes such as at Epping Forest and Hampstead Heath. The Department for Community and Children's Services (DCCS) uses Early Years' funding to provide grants to improve outcomes at early years and foundation stage and to support all the City's Early Years provision. This is overseen by the Community and Children's Services Committee. The Education Board has supported the establishment of Culture Mile, which is a partnership between the City Corporation and four leading art, culture and learning institutions - Barbican, the Museum of London, GSMD, and the London Symphony Orchestra. Culture Mile Learning aims to ensure that the pupils of London schools all gain the opportunity to participate in high quality arts and cultural experiences and learning. Culture Mile Learning capitalises on Culture Mile's profile, visitor experiences, and collaboration so that the area is recognised as a world-leading learning destination, specialising in the fusion of creative, technical, educational and emotional skills needed for 21st Century success. There are three key programmes that realise the learning destination vision:

- a) Partnership infrastructure
- b) Collaborative Learning
- c) Culture Mile Challenge Prize

Young people deserve high quality and reliable careers advice and information to ensure that their future working lives are not determined by chance and personal circumstances. The City Corporation is committed to providing opportunities for young people in the City, in neighbouring boroughs and across London to develop the skills that will help them into employment in the City and elsewhere and to achieve their goals. The City Family of Schools have a strong career focus and challenge conventional ideas about the world of work. From Reception through to post school age, City schools provide the pupils with sustained vocational education

throughout the school day, building core behaviours and fusion skills that businesses want. The City Corporation supports a range of skills and employability programmes for young people in schools linking them to City businesses and through having link governors for enterprise. When the Apprenticeship Levy was introduced in April 2017, the City Corporation made a commitment to establish 100 apprenticeships and to support young Londoners into the work force. There are also successful programmes and activities in place to support transition from education to employment, including working with businesses and livery companies.

2. Corporate mission

The commitment to education is rightly at the centre of the City Corporation's vision. The City Corporation is dedicated to creating a vibrant and thriving City, supporting a diverse and sustainable London, within a globally-successful United Kingdom. Specifically, the Education Strategy 2019-2023 contributes to a flourishing society and supports a thriving economy, and meets the outcomes in the Corporate Plan that:

- People have equal opportunities to enrich their lives and reach their full potential
- We have access to the skills and talent we need
- We inspire enterprise, excellence, creativity and collaboration

The impact of the Education Strategy 2019-2023 will particularly:

- Ensure that people are safe and feel safe
- Promote and champion diversity, inclusion and the removal of institutional barriers and structural inequalities
- Provide access to world-class heritage, culture and learning to people of all ages, abilities and backgrounds
- Promote effective progression through fulfilling education and employment
- Cultivate excellence in academia, sport and creative and performing arts
- Cultivate excellence in achievement
- Strengthen local, regional, national and international collaboration and innovation

² Schools, especially those in disadvantaged areas and the outer boroughs, face financial barriers to visiting the cultural venues supported by the City Corporation, including the cost of transport, staff cover and admission/session fees. Established in November 2015, the school visits fund (www.cityschoolvisitsfund.org.uk) offers schools with at least 30% of pupils in receipt of Pupil Premium, who have not visited their chosen venue in the last three years, with grants of up to £300 to help with the cost of visiting any of our venues. The fund is managed by the Museum of London.

4. Target learners

The City Corporation’s Family of Schools have a positive impact on issues of social disadvantage and skills development. The Education Strategy 2019-2023 targets all the children and young people in our schools and focuses on social mobility and engendering a sense of community. The Education Strategy 2019-2023 supports initiatives that encourage London schools, especially in disadvantaged areas, to engage with the full economic and cultural life of the City. We recognise and embrace the diversity within the City’s schools and champion the excellence and innovation that this brings. The Education Strategy 2019-2023 will focus on inclusive and equitable practice to encourage individual and community empowerment. Schools are required to track the progress and attainment of different groups of pupils who may be at educational disadvantage. Formally this includes pupils who may identify with one or more of the following groups:

- Ethnic groups
- Gender groups
- Pupils with Special Education needs and/or Disabilities (SEND)
- Pupils with English as an Additional Language (EAL)
- Looked After Children (LAC)
- Pupil Premium pupils (PP)
- Children of Service personnel
- ‘Summer born’ pupils
- Young carers

Disadvantaged groups within schools may also be children and young people who experience a higher risk of poverty, social exclusion, discrimination and violence than the general population. The City Family of Schools have a good historical record of making exceptional progress for disadvantaged pupils. Many of the practices which benefit all pupils also have a benefit for disadvantaged learners, including:

- Exciting and engaging teaching and learning to encourage curiosity and wonder
- Challenging targets which encourage diligence and persistency

- A learning climate which encourages risk taking and sees failure as an essential part of the learning process
- Effective scaffolding that ensures that new knowledge fits with what the learner already knows
- An openness to questioning as good learners are never satisfied with how much they know about anything
- Opportunities to share and perform learning - to write about it, talk about it, translate it, paraphrase it, and find examples

5. Teacher recruitment and retention

There are serious shortages of teachers nationally and in London. The capacity to attract and retain high quality teachers is crucial for the ongoing success of the City's schools. There are difficulties recruiting to initial teacher education and poor retention rates within the teaching profession. There are low levels of job satisfaction in the profession³.

Teacher development in all areas is vital. A key aspect of teacher retention is the provision of training. The Family of Schools could work more closely and collaboratively to provide opportunities for teachers, including developing Continuing Professional Development across the City Family of Schools. Some initiatives currently being developed include:

- A combined Teaching School initiative with Islington to include initial teacher education and preparation for newly qualified teachers
- An investigation of the potential for teachers' housing plans
- Subject Leader conferencing across the Independent and Academy schools
- Master's in Teaching and Learning Programme with Kings College

6. Working with others

The City Corporation will be responsive to, and influence, the changing education landscape, welcoming appropriate opportunities to work in partnership with neighbouring boroughs, businesses, Livery Companies and interested parties to realise excellent educational opportunities. The Education Strategy 2019-2023 supports open and collaborative working and provides a space for joined-up thinking and sharing with both internal and external stakeholders. There are a range of partnerships including in:

- Leadership development
- Building a strong shared vision and aligned action plans
- Resource sharing
- Sharing practice
- Peer support, including 'critical friends', forum and peer mentors

³ Menter et al. 2010; Zgaga 2013

- Developing skills and sharing opportunities for action research and professional development

Comprehensive training for governors is generally provided by Local Authorities. In addition, *Governors for Schools* and the *National Association for School Governors* provide excellent resource for Chairmen. There are also several other providers in this field. The Education Unit does not wish to duplicate the comprehensive services provided elsewhere and encourages schools to buy into the local offer. However, the Education Unit will provide training sessions on critical issues as required by the schools. Chairmen of governing bodies have been asked to identify areas most in need and to advise the strengths of their governing body. An audit of City Schools' Governors will identify training needs as the basis of the central training programme. The following topics are examples of areas that are critical for Governors that could be centrally offered - for example, safeguarding, school finance, and school standards.

Through the Headteachers' Forum and a Chairmen of Governors' Forum, the City Corporation has increased information sharing and accountability. In addition, the work of the Education Unit has enabled the City schools to increase the exchange of best practice, partnership working, and school-to-school support. Activities include a programme of A-Level subject workshops, governor training, and termly Directors of Sixth Form meetings.

Many of the actions to achieve this vision will be delivered in close working with, or through, our partners. The Education Strategy 2019-2023 will be owned by all stakeholders and we will work across agencies to learn from each other, maximise our resources and create a joined-up system that can be easily navigated. As far as possible, rather than the Education Unit delivering events and activities, it will partner with schools or other providers to deliver these activities. An audit has begun to determine the lead schools and participants from across the schools. It is the intention that better use can be made of social and mobile media and digital tools to spread messages and connect with schools and the broader stakeholder community.

The Education Strategy 2019 – 2023 is supported by an overarching plan that provides a summary of intentions and the strategic framework to guide thinking and decision-making for all services affecting children and young people over the next three years. We have kept this plan simple and focused, concentrating on five priorities and setting out manageable actions and objectives for each one. This plan will be supported by a detailed delivery plan with clear and measurable actions and indicators for each priority.

The detailed action plan (in the form of a Gantt chart) will identify each of the individual projects that achieve these larger goals and how these projects will be completed. Each project will have a champion and a lead. A detailed budget will be aligned to the strategic plan. The following section provides an overview of the financial projections in terms of general funding sources to deliver the strategy.

7. Financial Projections

The City Corporation is a major funder of education. It provides both money and in-kind support directly and through a range of partnership initiatives, research, pilot projects, events, and training and learning opportunities. Money is provided directly to educational institutions while in-kind support is available to all the Family of Schools and often to schools and education providers across London, nationally and even internationally. Finance and budgets should serve the Education, Culture and Skills strategies, enabling the vision of the City Corporation to be enacted. At the heart of the City Corporation's mission in education is the commitment to disadvantaged children and young people. Funds have historically been used, and are still being used, to boost social mobility, equality and inclusivity.

All the City Family of Schools promote a culture of perfectionism. To that end, additional educational grant making is designed to provide an exceptional provision, based on the needs of the children. This includes enrichment to enable a broad and balanced curriculum, including culture and education in and through the arts for all pupils. Additional funding is also made available to ensure careers and enterprise education occurs at all levels of the school from early years to post-school age. This includes the development of 'fusion' skills - the so-called higher order 'soft' skills needed for future world of work and society more generally. Moreover, the City Corporation acknowledges that to be innovative and inspiring, schools need to be research informed, to take risks and to pilot new and original approaches. Funding is provided to stimulate more innovative ways of working and to encourage good partnership working, which is at the heart of being part of the City Family of Schools.

Schools in London are currently experiencing considerable financial pressure. Funding for education is an ongoing concern for school management, parents and the general community. In 2019, the 'Fairer Funding Formula' is likely to be fully implemented. This impacts on the per pupil funding which is available to schools. While there have been slight increases in the per pupil funding to schools, the rate of increase has not kept pace with several areas of raising expenditure, including: Pension contributions; the apprenticeship levy; salary creep; and inflation. This means that many schools are experiencing a real terms reduction in school funding. Concurrently, there has been a general move to reallocate a higher percentage increase in funds to outer London boroughs and to more regional, 'challenge' areas. The City Corporation academies have not been immune to the more general pressures on school finance. This will mean that the implementation of the Education Strategy 2019-2023 will need to occur largely within the current financial projections for the City schools.

8. Evaluation and Impact measurement

The impact of Education Board initiatives, programmes and events must be measured. In delivering the objectives of the Education Strategy 2019-2023 the focus will be on the impact of what is achieved. Assessment data, evaluation, performance management and evidence are presented to the Education Board on a regular basis throughout the year to enable board members to monitor activity and to increase the likelihood that the actions achieve the desired outcome and that the positive impact of activities is experienced by all. A framework has developed for overseeing the City's education offering⁴. The role of the Education Board is to scrutinise the

⁴ See Accountability Framework in Appendix Two.

performance of the City academies and to influence the City Corporation – and its partners – more widely to support the strategic objectives. The Education Board, along with officers, staff, governors and school leaders, ensure that there is the capacity to sustain excellence, with the correct accountability procedures in place to support excellent educational standards, high levels of probity, and the development of schools and colleges that reflect the interests and values of the City Corporation.

Appendix Four: Glossary of terms

Fusion: Fusion is a person-centric approach, equipping future and current workers with technical expertise that is necessary for success. Fusion brings together different industries and technologies to spark innovation and create economic growth. Fusions skills use interdisciplinary work as a driver for creativity and innovation. Fusion skills are about the so-called 'soft skills' as well as the technical skills. Fusion is not just a set of qualities or outcomes but is importantly process led. It relies on close cooperation between schools (education), businesses, the creative and cultural sectors, and further and higher education.

Looked After Children (LAC): A child who is being looked after by their local authority is known as a child in care. They might be living: with foster parents, at home with their parents under the supervision of social services, or in residential children's homes. Under Department for Education definitions, this also includes children who have ever been in care for example, children who have been adopted or those who are no longer in care.

Not in Education, Employment or Training (NEET): A young person who is no longer in the education system and who is not working or being trained for work.

Pupils with English as an Additional Language (EAL): A pupil whose first language is other than English.

Pupil Premium (PP): The pupil premium is additional funding for publicly funded schools in England to raise the attainment of disadvantaged pupils of all abilities and to close the gaps between them and their peers. Pupil premium funding is available to:

- schools maintained by the local authority, including, special schools, for children with special educational needs or disabilities, pupil referral units (PRUs), and for children who can't go to a mainstream school
- academies and free schools, including special academies, for children with special educational needs or disabilities and alternative provision (AP) academies, for children who can't go to a mainstream school
- voluntary-sector AP, with local authority agreement
- non-maintained special schools (NMSS), for children with special educational needs as approved by the Secretary of State for Education under section 342 of the Education Act 1992

Special Educational Needs and Disability (SEND): A child or young person with special or additional educational needs and/or any health and social care needs.
