### **Main Report**

### **Background**

1. The SLT has been working on the actions and key performance indicators in our "Strategic Intent: a five year improvement plan" which has been developed from the Strategic Intent document, which was agreed by Governors in April 2016.

The improvement plan (business plan) is a live document and is the keystone for the School's departmental development plans, risk register, appraisals and, of course, the financial plan.

### **Current Position**

2. Actions and progress have been updated in the final column of the attached appendix, the column titled "Update May 2018". Where this is blank the "Completion Date", penultimate column has not yet been reached.

Progress on all agreed actions is on track.

## **Options**

3. There are no options related to this action plan.

## **Proposals**

4. That Governors request any additional clarification or actions required.

## **Corporate & Strategic Implications**

5. The Strategic Intent is aligned with the Corporation's plans regarding education and with the Governor's approvals (Strategic Intent {April 2016}, Masterplan 2016; {July 2016})

## **Implications**

6. Progress is tracked through this action plan and the School's Risk Register, also on this agenda. There are no further implications to achieving the agreed strategies at this time.

## **Conclusion**

7. The Strategic Intent framework (appendix 1) forms the School's Business plan and tracks actions required to achieve our aims and objectives. Actions are on track. Governors will receive regular updates throughout the year.

## **Appendices**

- Appendix 1 – Strategic Intent – a five year improvement plan. May 2018 update. Please note A3 colour copies will be sent to Governor's by post.
