

CLS Parental Questionnaire – Initial Findings

422 replies were received and duly processed. Where a pupil's parents are separated they were both sent a questionnaire.

The table below shows the number of responses received from parents of pupils in each year group together with the total number in that year group is shown below. It was good to see an even response across year groups.

<i>OG – 25/41</i>	<i>First Form – 67/97</i>
<i>Second Form – 55/94</i>	<i>Third Form – 64/141</i>
<i>Fourth Form – 67/142</i>	<i>Fifth Form – 52/126</i>
<i>Junior Sixth – 50/133</i>	<i>Senior Sixth – 42/127</i>

The responses to the question “To what extent is City of London School meeting your original requirements of an independent Secondary School?” are shown below:

- Completely – 56%
- Largely -37%
- Only partially – 4%
- Not at all – 1 person – 0%
- 9 not stated – 3%

- 96% agreed or strongly agreed that they were happy with their child's experience at CLS
- 96% agreed or strongly agreed that their child enjoys CLS
- 97% agreed or strongly agreed that CLS keeps their child safe
- 95% agreed or strongly agreed that CLS is led and managed effectively

Industry expert analysis suggests that the results compare very favourably with those of similar surveys undertaken by other independent schools.

The questionnaire included various specific questions about teaching/pastoral/staff/trips etc and invited parents to make any detailed comments which they wished. The School is currently analysing the responses to specific questions and detailed comments made and agreeing appropriate responses.
