1 INTRODUCTION

This document illustrates and describes the profile of the workforce which informs the City Corporation's Public Sector Equality Duty; our equality and inclusion action plan; and HR policy review and development.

2 SCOPE

The analysis provides information on all employees both full time and part time and directly employed temporary employees. The departments covered are:

Chamberlain's, City Surveyor's, Community & Children's Services, Comptroller & City Solicitor's, Mansion House & Central Criminal Court, Markets & Consumer Protection, Open Spaces, Remembrancer's, the Built Environment and Town Clerk's.

This report also includes, unless where stated, the following institutions:

The Barbican Centre, Guildhall School of Music & Drama, the City's three schools - City of London Freemen's School; City of London School; and City of London School for Girls.

Excluded are the City of London Police Officers and support employees whose data is reported separately to the Police Committee. Also excluded are casual and agency workers, contractors and consultants.

The employee profile data reflects the workforce recorded as at the 31 March 2023 unless otherwise stated.

Information is drawn from basic payroll and HR information system data. Additional sensitive information is added on a voluntary basis by employees through the employee self-service facility on the HR information system. Because employees are not required to provide all personal and sensitive information, this means that not all the categories include 100% data capture. This is indicated under each heading. In other cases, the employee has specifically recorded 'not stated' or 'declined to specify' on employee self-service and this is indicated accordingly. In accordance with the General Data Protection Regulations and the Data Protection Act 2018, all employees have been sent a privacy notice describing how the City Corporation as a data controller collects and uses personal information during and after employment with the City Corporation.

We have published our Gender Pay Gap in accordance with the Gender Pay Gap Regulations 2017. In addition, we voluntarily publish our Ethnicity and Disability pay gaps. These are included in this report.

Employee Profile - Protected Characteristics: The data analysis looks at 6 protected characteristics in the Equality Act 2010. These are: Sex, Age, Ethnicity, Disability, Religion and Belief and Sexual Orientation.

Where numbers in relation to protected characteristics are very small these have been grouped together, where it is appropriate to do so, to maintain the integrity of the data, but also to ensure that no individual/s are easily identifiable.

Categories of analysis: This report covers an analysis of the overall employee profile; salary and grades; top 5% of earners and Gender, Ethnicity and Disability Pay Gaps; turnover and recruitment; starters and leavers.

3 OVERVIEW OF THE WORKFORCE

As at 31 March 2023, there were a total of 4019 employees across the departments and functions in scope, covering a wide range of service areas. There have been 782 starters including fixed term workers and 633 leavers including fixed term workers during the reporting period. Fixed term work may be for a number of reasons such as cover for maternity leave, fixed term/grant funding, finite project work, secondments and traineeships etc. 483 (11.93%) of staff are part time (defined as employees working less than 85% of a full time equivalent (FTE) post).

3.1 Sex

Data is held on 100% of the workforce.

As shown below, 50.31% of the workforce is female and 49.69% are male. This is comparable to the split for 2021/2022 (50.3% female) and 49.97% male). The average for all London Councils is 62.1% female and 37.9% male respectively. It should be noted that whilst some comparison can be useful, the City Corporation's local authority function is smaller than London Boroughs and other Local Authorities which makes a direct comparison with them difficult.

The proportion of part-time employees who are female is 74.12% and 25.88% are male.

3.2 Age

Age data is held on 100% of the workforce.

The age distribution is essentially unchanged from the previous year.

3.3 Ethnicity

Ethnicity data is held on 82.2% of the workforce.

For the purpose of this analysis employees are classified as belonging to the following ethnic groups. These are the standard classifications on the HR Information System and allow for comparison with other London Councils:

- **White:** White - British, White - EU, White - other European, White - Any other White background, Irish
- **Asian or Asian British:** Asian - Bangladeshi, Asian - British, Asian - Indian, Asian - Pakistani, Asian - Any other Asian background
- **Black or Black British:** Black – African, Black – British, Black – Caribbean, Black - Any other Black background
- **Mixed:** Mixed - Asian & White, Mixed - Black & White, Mixed - Any other Mixed background
- **Other Ethnic Groups:** Chinese, Any other background, Any other ethnic group

The ethnicity profile has broadly remained the same since last year compared to white.

	2021/22 Headcount	2021/22	2022/23 Headcount	2022/23
Asian or Asian British	246	6.35%	268	6.67%

Grand Total	3876	100.00%	4019	100.00%

3.4 Disability

Disability data is held on 75% of the workforce.

4.68% of the total workforce have declared themselves as having a disability. Employees are asked to state whether they “self-certify” as having a disability on the HR information system and similarly job applicants are asked to indicate Yes or No to the statement of “I consider myself to have a disability”. Therefore, it should be noted this indicator does not necessarily accurately measure whether an employee meets the definition of “disability” under the Equality Act 2010.

Totals	3876	100.00%	4019	100.00%

3.5 Religion and Belief

Religion and belief information is held on 73.6% of the workforce.

Of the overall workforce 29.8% is Christian. 34.6% stated that they have None/No religion or belief which has increased slightly since last year. Total other religions and beliefs is 9.64% and not known 26.4%

Spiritual	37	0.95%	37	0.92%
Total	3876	100.00%	4019	100.00%

3.6 Sexual Orientation

Sexual orientation information is held on 64.3% of the workforce.

According to the 2021 Census, it is estimated that 3.2% of the UK population identified as LGBT. This is consistent with Office for National Statistics bulletin on sexual orientation in 2020, where the figure was estimated at 3.1%. It should be noted that of the 36.95% employees whose sexual orientation is unknown, this includes 6.12% who have positively declined to specify. This protected characteristic is therefore still slightly lower than other self-reported protected characteristic information.

In the table below, LGBT are grouped together as they are individually small in numbers:

	Headcount 2021/22	2021/22%	Headcount 2022/23	2022/23%
Declined to specify	252	6.50%	246	6.12%

5 TOP 5% OF EARNERS AND GENDER, ETHNICITY AND DISABILITY PAY GAPS

The following section examines the profile of the top 5% of earners. This includes basic pay, London Weighting and Market Forces Supplements. There are currently 183 employees in the top 5% of earners in the City of London Corporation as of 31 March 2022. The ranking used to establish the top 5% of earners is based on the top 5% of gross salaries. Section 5.7 sets out the Gender, Ethnicity and Disability Pay Gaps at the snapshot date of 31 March 2022. As with our gender pay gap, in relation to ethnicity and disability, the difference is in the main attributable to the lower numbers of ethnic minorities staff and staff with disabilities in more senior roles. This is addressed in our Equality, Diversity and Inclusion Action Plan.
