

## Financial Investment Board

**Date:** TUESDAY, 9 FEBRUARY 2021

**Time:** 1.45 pm

**Venue:** <https://youtu.be/Nh26BJ3ak2A>

**Members:** Nicholas Bensted-Smith (Chairman)  
Henry Colthurst (Deputy Chairman)  
Anne Fairweather  
Alderman Prem Goyal  
Deputy Tom Hoffman  
Alderman Robert Howard  
Alderman Robert Hughes-Penney  
Deputy Jamie Ingham Clark  
Deputy Clare James  
Tim Levene  
Deputy Andrien Meyers  
Deputy Henry Pollard  
James de Sausmarez  
Ian Seaton  
Deputy Philip Woodhouse

**Next Meetings:** 20 May 2021 30 June 2021 14 Sept 2021

**Enquiries:** Joseph Anstee  
tel. no.: 020 7332 1480

### Accessing the virtual public meeting

**Members of the public can observe this virtual public meeting at the below link:**

<https://youtu.be/Nh26BJ3ak2A>

This meeting will be a virtual meeting and therefore will not take place in a physical location following regulations made under Section 78 of the Coronavirus Act 2020. A recording of the public meeting will be available via the above link following the end of the public meeting for up to one municipal year. Please note: Online meeting recordings do not constitute the formal minutes of the meeting; minutes are written and are available on the City of London Corporation's website. Recordings may be edited, at the discretion of the proper officer, to remove any inappropriate material.

**John Barradell**  
Town Clerk

# **AGENDA**

## **Part 1 - Public Agenda**

**1. APOLOGIES**

**2. MEMBERS' DECLARATIONS UNDER THE CODE OF CONDUCT IN RESPECT OF ITEMS ON THE AGENDA**

**3. MINUTES OF THE PREVIOUS MEETING**

To agree the public minutes and non-public summary of the meeting held on 25 November 2020.

**For Decision**  
(Pages 1 - 6)

**4. OUTSTANDING ACTIONS**

Report of the Town Clerk

**For Information**  
(Pages 7 - 8)

**5. MONTHLY INVESTMENT ANALYSIS REVIEW**

Report of the Chamberlain

**For Information**  
(Pages 9 - 24)

**6. TREASURY MANAGEMENT STRATEGY 2021/22**

Report of the Chamberlain

**For Decision**  
(Pages 25 - 60)

**7. REPORT OF ACTION TAKEN**

Report of the Town Clerk

**For Information**  
(Pages 61 - 62)

**8. QUESTIONS ON MATTERS RELATING TO THE WORK OF THE COMMITTEE**

**9. ANY OTHER BUSINESS THAT THE CHAIRMAN CONSIDERS URGENT**

**10. EXCLUSION OF THE PUBLIC**

MOTION - That under Section 100(A) of the Local Government Act 1972, the public be excluded from the meeting for the following items on the grounds that they involve the likely disclosure of exempt information as defined in Part I of the Schedule 12A of the Local Government Act.

**For Decision**

## **Part 2 - Non-Public Agenda**

### **11. NON-PUBLIC MINUTES OF THE PREVIOUS MEETING**

To agree the non-public minutes of the meeting held on 25 November 2020.

**For Decision**  
(Pages 63 - 68)

### **12. NON-PUBLIC OUTSTANDING ACTIONS**

Report of the Town Clerk

**For Information**  
(Pages 69 - 70)

### **13. PROGRESS UPDATE ON MOBILISATION FOR THE CLIMATE ACTION STRATEGY**

Report of the Chamberlain

**For Decision**  
(Pages 71 - 80)

### **14. RESPONSIBLE INVESTMENT POLICY UPDATE**

Report of the Chamberlain

**For Decision**  
(Pages 81 - 86)

### **15. INVESTMENT PERFORMANCE MONITORING REPORTS**

- a) **Quarterly Monitoring Report to 31 December 2020**  
Report of Mercer

**For Information**  
(Pages 87 - 104)

- b) **Performance Monitoring to 31 December 2020: Pension Fund**  
Report of the Chamberlain

**For Information**  
(Pages 105 - 120)

- c) **Performance Monitoring to 31 December 2020: City's Cash and Bridge House Estates**  
Report of the Chamberlain

**For Information**  
(Pages 121 - 142)

### **16. NON-PUBLIC QUESTIONS ON MATTERS RELATING TO THE WORK OF THE COMMITTEE**

17. ANY OTHER BUSINESS THAT THE CHAIRMAN CONSIDERS URGENT AND WHICH THE COMMITTEE AGREE SHOULD BE CONSIDERED WHILST THE PUBLIC ARE EXCLUDED

## FINANCIAL INVESTMENT BOARD

Wednesday, 25 November 2020

Minutes of the virtual meeting of the Financial Investment Board held on  
Wednesday, 25 November 2020 at 1.45 pm

### Present

#### Members:

Nicholas Bensted-Smith (Chairman)  
Henry Colthurst (Deputy Chairman)  
Anne Fairweather  
Alderman Prem Goyal  
Deputy Tom Hoffman  
Alderman Robert Howard  
Deputy Jamie Ingham Clark  
Tim Levene  
Deputy Andrien Meyers  
Deputy Henry Pollard  
James de Sausmarez  
Deputy Philip Woodhouse

#### Officers:

Joseph Anstee	- Town Clerk's Department
Peter Kane	- Chamberlain
Kate Limna	- Chamberlain's Department
James Graham	- Chamberlain's Department
Sarah Phillips	- Town Clerk's Department

#### Also in attendance:

Deborah Cairney	- Mercer
-----------------	----------

#### 1. APOLOGIES

Apologies for absence were received from Alderman Robert Hughes-Penney, Deputy Clare James and Ian Seaton.

#### 2. MEMBERS' DECLARATIONS UNDER THE CODE OF CONDUCT IN RESPECT OF ITEMS ON THE AGENDA

There were no declarations.

#### 3. MINUTES OF THE PREVIOUS MEETING

**RESOLVED** - That the public minutes and non-public summary of the meeting held on 23 September 2020 be agreed as a correct record.

#### 4. OUTSTANDING ACTIONS

The Board received a list of outstanding actions. The Board noted that negative interest rates were addressed as part of the Mid-Year Treasury Management Review.

**RESOLVED** – That the outstanding actions list be noted.

5. **MONTHLY INVESTMENT ANALYSIS REVIEW**

The Board received a report of the Chamberlain concerning the monthly investment analysis review for September 2020. The Board noted the current investment list, total investment values and average rate of return set out in the report.

**RESOLVED** – That the report be noted.

6. **MID-YEAR TREASURY MANAGEMENT REVIEW**

The Board received a report of the Chamberlain, providing a mid-year report reviewing Treasury Management in 2020/21. The Chamberlain introduced the report and drew Members' attention to the key points, advising that recent economic events had been taken into account and the Treasury Management Strategy was still felt to be appropriate.

The Chamberlain advised that the possibility of negative interest rates had been considered as part of the review. Whilst this would impact the Corporation's interest income, it did not necessitate a change to the Corporation's Treasury Management Strategy, and officers were not recommending any changes to policy. The Chamberlain then advised the Board on local authority lending and controls that were in place such as a maximum lending limit, individual counterparty limits and due diligence against prospective borrowers.

In response to a question from a Member regarding the recent reduction of Public Works Loan Board rates by 1%, the Chamberlain advised that this would affect other local authorities more than the City of London Corporation, but officers would undertake to assess the possible impact and provide a response for Members. In response to a question on negative interest rates, the Chamberlain advised that officers had investigated the potential impact of zero or negative rates on day-to-day operations and concluded that there would not be a significant operational impact.

**RESOLVED** – That the report be noted.

7. **RISK REGISTER FOR FINANCIAL INVESTMENT BOARD**

The Board considered a report of the Chamberlain reviewing the Financial Investment Board's risk register. The Chamberlain introduced the report and advised the Board of two recommended amendments to the risk register.

A Member asked whether the recent announcement of a possible change from RPI to CPIH should be considered a risk in respect of the Pension Fund, although this wouldn't come into effect until 2030. The Chamberlain advised

that officers would take this away and consider it alongside the imminent speech by the Chancellor.

A Member noted the risk relating to Responsible Investment and commented that the risk also encompassed the material risk of the impact of discharging relevant obligations on long-term returns. The Chamberlain added that conversely, not taking sufficient action was a risk and there were two distinct aspects of this risk to be balanced. The Chamberlain suggested reviewing the wording of the risk to make this apparent.

**RESOLVED** – That the Financial Investment Board:

- a) Note the existing risks and actions present on the Financial Investment Board's Risk Register, and confirm that appropriate control measures are in place;
- b) Confirm that there are no further risks relating to the services overseen by the Financial Investment Board.

8. **PRI FRAMEWORK UPDATE**

The Board considered a report of the Chamberlain updating Members on the new PRI reporting framework, which would apply to the Board's next annual submission to the PRI in March 2021. The Chamberlain introduced the report and drew Members' attention to the key points. Reporting against the new framework would begin from Q1 2021 onwards and was expected to be more challenging for all signatories.

The Board considered the request for delegated authority to approve the new Senior Leadership Statement. The Chairman advised that if the Statement was prepared with sufficient time it could be circulated to the full Board for comment ahead of final approval.

**RESOLVED** – That the Financial Investment Board:

- a) Note the report; and
- b) Delegate authority to Town Clerk, in consultation with the Chairman and Deputy Chairman of the Financial Investment Board, to approve the Senior Leadership Statement as per paragraph 5(b).

9. **QUESTIONS ON MATTERS RELATING TO THE WORK OF THE COMMITTEE**

There were no questions.

10. **ANY OTHER BUSINESS THAT THE CHAIRMAN CONSIDERS URGENT**

There was no other business.

11. **EXCLUSION OF THE PUBLIC**

**RESOLVED** - That under Section 100(A) of the Local Government Act 1972, the public be excluded from the meeting for the following items on the grounds

that they involve the likely disclosure of exempt information as defined in Part I of the Schedule 12A of the Local Government Act.

Item No.	Paragraph(s) in Schedule 12A
12 - 17	3
18 - 19	-

12. **NON-PUBLIC MINUTES OF THE PREVIOUS MEETING**  
**RESOLVED** - That the non-public minutes of the meeting held on 23 September 2020 be agreed as a correct record.
13. **NON-PUBLIC OUTSTANDING ACTIONS**  
The Board received a list of non-public outstanding actions.
14. **INVESTMENT PERFORMANCE MONITORING REPORTS**
  - a) **Performance Monitoring to 30 September 2020: Pension Fund**  
The Board received a report of the Chamberlain.
  - b) **Performance Monitoring to 30 September 2020: City's Cash and Bridge House Estates**  
The Board received a report of the Chamberlain.
  - c) **Q3 Monitoring Report**  
The Board received a report of Mercer.
15. **SIR WILLIAM COXEN TRUST FUND: PERFORMANCE MONITORING REPORT TO 30 SEPTEMBER 2020**  
The Board considered a report of the Chamberlain.
16. **CMA ORDER 2019 - PART 7 COMPLIANCE STATEMENT: REQUEST FOR DELEGATED AUTHORITY**  
The Board considered a report of the Chamberlain.
17. **CHARITIES POOL/HAMPSTEAD HEATH: CHARGING FOR MANAGER FEES**  
The Board considered a report of the Chamberlain.
18. **NON-PUBLIC QUESTIONS ON MATTERS RELATING TO THE WORK OF THE COMMITTEE**  
There were no non-public questions.
19. **ANY OTHER BUSINESS THAT THE CHAIRMAN CONSIDERS URGENT AND WHICH THE COMMITTEE AGREE SHOULD BE CONSIDERED WHILST THE PUBLIC ARE EXCLUDED**  
There was other business.

**The meeting ended at 3:05pm.**

-----  
Chairman

**Contact Officer: Joseph Anstee**

# City of London Corporation

## Monthly Investment Analysis Review

December 2020

## Monthly Economic Summary

**General Economy**

The UK Flash (i.e. provisional) Manufacturing PMI rose to 57.3 in December from 55.6 in November, pointing to the strongest growth in the manufacturing sector since November 2017 as businesses brought forward orders to guard against potential disruption caused by the end of the Brexit transition period. The Flash Services PMI, meanwhile, rose to 49.9 in December from 47.6 in November but, by remaining below 50, still signalled a second consecutive month of decline in the sector. Ultimately, the manufacturing sector's growth enabled the Flash Composite PMI (which incorporates both sectors), to rise to 50.7 in December from 49.0 in November. Although the rise was less than market expectations of 51.3, it did suggest that private sector output rose during the month. The construction PMI, meanwhile, which is released one month behind, rose to 54.7 in November from 53.1 in October, supported by sharp increases in house building.

Monthly GDP data for October confirmed that the economy grew by 0.4% m/m, less than half the pace of that seen in September's 0.9% increase. The slower pace of growth reflected the gradual re-imposition of nationwide restrictions as COVID-19 cases began to climb once again. The reading suggested that growth was already slowing prior to the subsequent introduction of the second lockdown in November. However, quarterly GDP data confirmed that the economy expanded by a record 16% in the three months to September, compared to a preliminary estimate of 15.5%, largely reflecting the easing of lockdown restrictions earlier in the quarter. Nevertheless, this growth still left the UK economy 8.6% smaller than it was in last year's third quarter. Trade data, meanwhile, revealed that the UK's trade surplus fell from £0.61bn in September to a deficit of £1.74 billion in October, as exports declined by 3.6% on the month while imports rose by 1.2%.

The UK's unemployment rate rose to 4.9% in the three months to October, compared to 4.8% in the previous period and against market expectations of a rise to 5.1%. This represented the highest jobless rate since the three months to August 2016, as employers shed workers as the government's scheme shifted more of the support onus on firms for furloughed employees. Although the scheme was extended at month's end, redundancies still reaching a record 370,000, 56,000 higher than the previous record in the three months to September. More timely data showed that, after falling in each of the previous two months, the number of people claiming unemployment benefits in November rose by 64,300 to 2.7 million, 1.4 million higher than in March. Nevertheless, the continued return of staff from furlough for much of the period saw average weekly earnings (excluding bonuses) rise by 2.8% y/y in the three months to October - the largest rise since February.

UK inflation, as measured by the Consumer Price Index, dropped to 0.3% y/y in November from 0.7% y/y in October and lower than market expectations of a fall to 0.6% y/y. The greater than expected fall was largely attributable to increased discounting during Black Friday sales at month-end. This discounting also contributed to consumer prices falling by 0.1% m/m in November after a flat reading in October, compared to expectations of a 0.1% rise. Despite CPI inflation falling further away from the Bank of England's 2% target, the Monetary Policy Committee unanimously voted to maintain policy rates and its quantitative easing programme at its December meeting. The prospect of a subsequent "emergency" meeting in January to announce additional stimulus, which the market postulated might occur in the event of a "no-deal" Brexit, eventually dissipated once the UK signed a free trade agreement with the EU just prior to month end.

Retail sales, meanwhile, fell 3.8% m/m in November, falling short of market forecasts of a 2.8% contraction and October's 1.3% gain. This marked the first month of falling sales since April, reflecting the imposition of the second national lockdown which forced non-essential retail stores to close. Despite this, however, retail sales remain 2.4% y/y higher and above their pre-pandemic levels. Consumer confidence, meanwhile, rose to -26 in December from -33 in November, as the launch of the UK's COVID-19 vaccination programme boosted sentiment.

Reflecting the impact of public health measures and government policies to support the economy during the coronavirus pandemic, the UK reported a public sector budget deficit (excluding public sector banks) of £31.6 billion in November, £26.0 billion more than in November 2019 and the third-highest monthly deficit since records began in 1993. Borrowing in the first eight months of this financial year is estimated to have been £240.9 billion, a record in any April to November period. Borrowing looks set to remain elevated following the announcement of further support for the economy this month.

In the US, the imposition of COVID-19 restrictions saw the economy add 245,000 jobs in November, significantly below a downwardly revised 610,000 jobs in October and some way less than market forecasts of 469,000. Nevertheless, the gain was sufficient to nudge the US unemployment rate down to 6.7% in November from 6.9% in October, lower than forecasts of 6.8%. Prices (as measured by the Fed's preferred core Personal Consumption Expenditure deflator), rose just 1.1% y/y in November compared to expectations of 1.3% y/y and the Federal Reserve's 2% average target. Given the state of the economy, it was no surprise to see the Federal Reserve maintain their current ultra-accommodative monetary policy stance during December's meeting. Congress, meanwhile, finally approved an \$892bn aid package to support future growth.

The final estimate of Eurozone GDP revealed that the bloc's economy expanded by 12.5% q/q during Q3, rebounding from the record 11.8% q/q slump in Q2. However, the rise in December's Flash Composite PMI to just 49.8 from 45.3 in November – remaining below the expansion level of 50 – suggests that the bloc contracted again during Q4, as measures to counter rising coronavirus cases were reintroduced. With prices across the bloc falling by 0.3% y/y in November against this backdrop, the European Central Bank maintained interest rates at current levels. However, as expected, it increased the size and duration of its

## Housing

Both the Halifax and Nationwide house price indices continued to rise, the former by 1.2% m/m during November and the latter by 0.8% m/m during December – which were both up from the respective 0.3% m/m and 0.9% m/m rises witnessed during their prior months. On an annual basis, the indices have risen 7.6% y/y and 7.3% y/y respectively. Behavioural shifts as a result of COVID-19 may provide support for housing market activity, while the stamp duty holiday is expected to continue to provide a near term boost by bringing purchases forward.

## Currency

The commencement of distribution of COVID-19 vaccines in the UK (which dimmed the allure of the US Dollar as a safe haven), as well as the agreement of a post-Brexit UK-EU trade deal and further loosening of Eurozone monetary policy resulted in Sterling improving against both the Dollar and the Euro this month.

October	Start	End	High	Low

## Investment Risk and Rating Exposure

Investment Risk Vs. Rating Categories

Historic Risk of Default

Rating/Years	<1 year	1 to 2 yrs	2 to 3 yrs	3 to 4 yrs	4 to 5 yrs
AA	0.02%	0.04%	0.09%	0.16%	0.24%
A	0.05%	0.15%	0.27%	0.40%	0.55%
BBB	0.15%	0.40%	0.70%	1.05%	1.41%
Council	0.010%	0.000%	0.000%	0.000%	0.000%

Note: An historic risk of default is only provided if a counterparty has a counterparty credit rating and is not provided for an MMF or USDBF, for which the rating agencies provide a fund rating. The portfolio's historic risk of default therefore measures the historic risk of default attached only to those investments for which a counterparty has a counterparty credit rating and also does not include investments which are not rated.

Rating Exposure

### Historic Risk of Default

This is a proxy for the average % risk for each investment based on over 30 years of data provided by Fitch, Moody's and S&P. It simply provides a calculation of the possibility of average default against the historical default rates, adjusted for the time period within each year according to the maturity of the investment.

### Chart Relative Risk

This is the authority's risk weightings compared to the average % risk of default for "AA", "A" and "BBB" rated investments.

### Rating Exposures

This pie chart provides a clear view of your investment exposures to particular ratings.

<b>Subject:</b> Treasury Management Strategy Statement and Annual Investment Strategy 2021/22	<b>Public</b>
<b>Report of:</b> The Chamberlain	<b>For Decision</b>
<b>Report author:</b> James Graham – Chamberlain's Department	

## Summary

The attached document sets out the City's Treasury Management Strategy Statement and Annual Investment Strategy (TMSS) for 2021/22. The Treasury Management Strategy and Annual Investment Statement for 2021/22 has been updated taking account of the latest information concerning the organisation's capital plans and external factors, such as the prospects for interest rates.

The document includes various Treasury and Prudential Indicators required to be set for the City Fund to ensure that the City's capital investment plans are affordable, prudent and sustainable and to help the organisation identify and control the risks around its treasury management activity.

As has historically been the case, this report covers the treasury management activity carried out across the organisation, including in respect of City's Cash and Bridge House Estates. As City's Cash borrowing is not covered by the regulatory framework established for local authorities, the City has adopted its own formal policy in 2018/19 via the City's Cash Borrowing Policy Statement which is included in the TMSS at Appendix 8.

The main proposals within the document are incorporated within the separate report entitled "City Fund - 2021 Budget Report" being considered by the Finance Committee on 16 February 2021 and by the Court of Common Council on 4 March 2021.

Responsibility for approving the City's borrowing plans remains with the Court of Common Council, not the Financial Investment Board.

The key areas to highlight are:

### **Capital financing and borrowing**

- The Corporation's capital plans create a borrowing requirement across both the City Fund and City's Cash. City's Cash has addressed this borrowing requirement through the issuance of £450m market debt during 2018/19, £200m of which will be received in 2021/22.
- The City Fund borrowing requirement is expected to increase to £299.1m by 2023/24. For the City Fund, there is no immediate requirement to take on external borrowing in the upcoming year as in the near term, external borrowing would serve to increase cash balances. Furthermore, new borrowing would create additional revenue pressures through a "cost of carry", as the rate payable on external borrowing is higher than the interest receivable from treasury management investment activity. Therefore, the

proposed treasury management strategy recommends that the City Fund borrowing requirement is managed through the prudent use of internal resources during 2021/22.

- The benefits of this strategy (lower financing costs and reduced counterparty risk) need to be carefully evaluated against the risk of incurring higher borrowing costs in future. The interest rate environment is judged to be sufficiently benign in the near term to accommodate an internal borrowing approach. Interest rates are monitored daily and should circumstances change, the Chamberlain will maintain the flexibility to meet some or all of the City Fund borrowing requirement through external borrowing. As such the operational boundary and authorised limit for external debt (Appendix 2 of the TMSS) have been revised to enable the City to secure external debt to meet some or all of the borrowing requirement.
- In October 2019, the Government raised the interest rate payable by local authorities on new loans from the PWLB by 1% and commenced a consultation on the future of the PWLB's lending arrangements. The review concluded in November 2020 and the Government removed the previous 1% increase in rates for new loans. At the same time new controls were introduced (with immediate effect) with the aim of preventing the practice of "borrowing for yield". Local authorities will now need to submit a high-level description of capital spending for the next three years and the s151 officer will need to confirm that the authority has no intention of buying investment assets primarily for yield at any time in next three years. These conditions apply regardless of whether transactions would notionally be financed from a source other than the PWLB.
- Local authorities are legally required to set aside a prudent amount for the provision of the repayment of prudential borrowing from revenue each year. It should be noted that this requirement applies for all unfunded City Fund capital expenditure (i.e. spending that is not immediately financed through capital grants, capital receipts etc.) not just for actual external borrowing. The Minimum Revenue Provision (MRP) Policy Statement for 2021/22 sets out this policy for the forthcoming year and is included at Appendix 2 in the TMSS.

### **Investments**

- As at 31 December 2020, the Corporation has cash balances totalling £1,061.8m. Cash is expected to increase in 2021/22 when the Corporation takes receipt of second tranche of City's Cash loan proceeds. However, most of the treasury cash balances pertain to the City Fund and comprise of liabilities on City Fund's balance sheet (cash that needs to be paid out to third parties or used for a specific purpose at some point in the future) together with cash backed reserves.
- The Corporation's creditworthiness policy (as set out in section 8.2. of the main report) ensures that cash deposits are only placed with counterparties of suitable credit standing. Officers have reviewed the current limits and recommend changing the minimum threshold for banks from "A" to "A-". The rationale for this change is to ensure the Corporation can continue diversify credit risk sufficiently in the possible event of wide-ranging ratings actions

next year. However, to keep lending limits in line with Corporation's risk appetite, officers also recommend introducing a tiered approach to financial institutions as shown in Table 1, which will ensure that longer and larger deposits are restricted to only the highest quality counterparties. This information is excerpted from section 8.4. of the main report.

**Table 1: Proposed Time and Monetary Limits for Banks**

	<b>Minimum Creditworthiness Criteria</b>	<b>Money Limit</b>	<b>Time Limit</b>
<b>Banks 1 higher quality</b>	Fitch Rating Long Term: A+ Short Term: F1	£100m	3 years
<b>Banks 1 medium quality</b>	Fitch Long Term Rating Long Term: A Short Term: F1	£75m	1 year
<b>Banks 1 lower quality</b>	Fitch Long Term Rating Long Term: A- Short Term: F1	£50m	6 months

- Officers have also reviewed the country limits within the strategy (as set out in section 8.5.) and recommend that the minimum acceptable threshold is reduced from "AAA" to "AA+". As above, this will mean that the approved lending list will remain broad enough if any AAA sovereign ratings are downgraded by one notch.
- As agreed by the Board at its meeting on 23 September 2020, a formal overall limit of £250m will apply to outstanding loans to UK local authorities. This is in addition to the existing limit of £25m for each individual local authority borrower. This policy is set out in section 8.6. of the main report. The Chamberlain also conducts additional due diligence on an individual prospective local authority borrower prior to committing to any loans.
- The Corporation currently manages significant cash balances, the size of which is expected to reduce over the next few years in line with the Corporation's capital expenditure and financing plans. Notwithstanding this, officers anticipate that a layer of core cash will be consistently stable based on the current capital financing plans which may provide an opportunity to invest a proportion of the Corporation's cash balances on a longer term basis. Before embarking on any change in strategy the Board will need to conduct appropriate due diligence and consider various important issues, including the following:
  - a) Ensuring the Corporation continually maintains sufficient liquidity within its treasury management operations to meet its financial obligations as they fall due.
  - b) Understanding the level of volatility in investment returns that the Corporation can tolerate.

- c) Understanding the risk and return characteristics of any new investment category proposed for inclusion in the Treasury Management Strategy.
- d) Understanding the appropriate accounting treatment of investment returns from any proposed new investment category under the CIPFA Code of Practice on Local Authority Accounting in the United Kingdom.

Officers intend to investigate the issues and report back to the Board in 2021/22 with advice on the viability of investing some funds on a longer term basis.

The main changes to the document from last year's version are highlighted in yellow and underlined.

### **Recommendations**

It is recommended that the Financial Investment Board reviews and approves the attached Treasury Management Strategy Statement and Annual Investment Strategy for 2021/22, and submits it to the Finance Committee and the Court of Common Council as part of the City Fund – 2021 Budget Report for formal adoption.

# Treasury Management Strategy Statement and Annual Investment Strategy 2021/22

## 1. Introduction

### 1.1. Background

The City of London Corporation (the City) is required to operate a balanced budget, which broadly means that cash raised during the year will meet cash expenditure. Part of the treasury management operation is to ensure that this cash flow is adequately planned, with cash being available when it is needed. Surplus monies are invested in low risk counterparties or instruments commensurate with the City's low risk appetite, providing adequate liquidity initially before considering investment return.

The second main function of the treasury management service is the funding of capital expenditure plans. These capital plans provide a guide to the borrowing needs of the City, essentially the longer-term cash flow planning, to ensure that the organisation can meet its capital spending obligations. This management of longer-term cash may involve arranging long or short-term loans, or using longer-term cash flow surpluses. On occasion, when it is prudent and economic, any debt previously drawn may be restructured to meet risk or cost objectives.

Whilst any commercial initiatives or loans to third parties will impact on the treasury function, these activities are generally classed as non-treasury activities, (arising usually from capital expenditure), and are separate from the day to day treasury management activities.

### 1.2. The Treasury Management Policy Statement

The City defines its treasury management activities as:

*The management of the organisation's investments and cash flows, its banking, money market and capital market transaction; the effective control of the risks associated with those activities; and the pursuit of optimum performance consistent with those risks.*

The City regards the security of its financial investments through the successful identification, monitoring and control of risk to be the prime criteria by which the effectiveness of its treasury management activities will be measured. Accordingly, the analysis and reporting of treasury management activities will focus on their risk implications for the organisation, and any financial instruments entered into to manage these risks.

The City acknowledges that effective treasury management will provide support towards the achievement of its business and service objectives. It is therefore committed to the principles of achieving value for money in treasury management and to employing suitable comprehensive performance measurement techniques, within the context of effective risk management.

### **1.3. CIPFA Requirements**

The Chartered Institute of Public Finance and Accountancy's (CIPFA) Code of Practice on Treasury Management (revised November 2009) was adopted by the Court of Common Council (the Court) on 3 March 2010. The Code of Practice was revised in November 2017.

The primary requirements of the Code are as follows:

- (i) The City of London Corporation will create and maintain, as the cornerstones for effective treasury management:
  - A treasury management policy statement, stating the policies, objectives and approach to risk management of its treasury management activities
  - Suitable treasury management practices (TMPs), setting out the manner in which the organisation will seek to achieve those policies and objectives, and prescribing how it will manage and control those activities.
- (ii) This organisation (i.e. the Court of Common Council) will receive reports on its treasury management policies, practices and activities, including as a minimum an annual strategy and plan in advance of the year, a mid-year review and an annual report after its close.
- (iii) The Court of Common Council delegates responsibility for the implementation and regular monitoring of its treasury management policies to the Finance Committee and the Financial Investment Board; the execution and administration of treasury management decisions is delegated to the Chamberlain, who will act in accordance with the organisation's policy statement and TMPs and, if he/she is a CIPFA member, CIPFA's Standard of Professional Practice on Treasury Management.
- (iv) The Court of Common Council nominates the Audit and Risk Management Committee to be responsible for ensuring effective scrutiny of the treasury management strategy and policies.

The CIPFA 2017 Prudential and Treasury Management Codes require all local authorities to prepare a capital strategy. The capital strategy provides a high-level long-term overview of how capital expenditure, capital financing and treasury management activity contribute to the provision of services as well as an overview of how the associated risk is managed and the implications for future financial sustainability. The Treasury Management Strategy Statement is reported separately from the Capital Strategy. This ensures the separation of the core treasury function under security, liquidity and yield principles from the policy and commercial investments usually driven by expenditure on an asset.

### **1.4. Treasury Management Strategy for 2021/22**

The Local Government Act 2003 (the Act) and supporting regulations require the City to 'have regard to' the CIPFA Prudential Code and the CIPFA Treasury Management Code of Practice to set Prudential and Treasury Indicators for the next three years to ensure that the City's capital investment plans are affordable, prudent and sustainable. The City's Prudential Indicators are set in its annual Budget Report

and Medium-Term Financial Strategy, while Treasury Indicators are established in this report (Appendix 2).

The Act requires the Court of Common Council to set out its treasury strategy for borrowing (section 7 of this report) and to prepare an Annual Investment Strategy (section 8 of this report). The Investment Strategy sets out the City's policies for managing its investments and for giving priority to the security and liquidity of those investments.

The suggested strategy for 2021/22 in respect of the required aspects of the treasury management function is based upon the treasury officers' views on interest rates, supplemented with leading market forecasts provided by the City's treasury adviser, Link Asset Services, Treasury Solutions.

The strategy covers:

- the capital expenditure plans and the associated prudential indicators
- the minimum revenue provision (MRP) policy
- the current treasury position
- treasury indicators which limit the treasury risk and activities of the City
- prospects for interest rates
- the borrowing strategy
- policy on borrowing in advance of need
- debt rescheduling
- the investment strategy
- creditworthiness policy
- policy on use of external service providers.

These elements cover the requirements of the local Government Act 2003, the CIPFA Prudential Code, the MHCLG MRP Guidance, the CIPFA Treasury Management Code and the MHCLG Investment Guidance.

## **2. Capital Expenditure Plans and Prudential Indicators**

The City's capital expenditure plans are a key driver of treasury management activity. The output of the capital expenditure plans is reflected in the prudential indicators, which are designed to assist Members' overview and confirm capital expenditure plans.

The City's capital expenditure plans in respect of its local authority functions (the City Fund) are detailed in the 2021/22 Budget Report and Medium-Term Financial Strategy, which also contains the City's Prudential Indicators. The Prudential Indicators summarise the City Fund's annual capital expenditure and financing plans for the medium term.

## 2.1. Estimate of Capital Expenditure and Financing (City Fund)

Table 1	2019/20 Actual £m	2020/21 Estimate £m	2021/22 Estimate £m	2022/23 Estimate £m	2023/24 Estimate £m
<b>Capital Expenditure:</b>					
Non-HRA	41.9	93.0	180.0	201.3	232.5
HRA	10.8	30.9	65.1	32.4	-
<b>Total</b>	<b>52.7</b>	<b>123.9</b>	<b>245.1</b>	<b>233.7</b>	<b>232.5</b>
<b>Financed by:</b>					
Capital grants	17.0	48.6	75.1	52.9	38.5
Capital reserves	18.3	50.7	65.7	5.8	127.4
Revenue	17.4	24.6	43.5	35.4	27.6
<b>Total</b>	<b>52.7</b>	<b>123.9</b>	<b>184.3</b>	<b>94.1</b>	<b>193.5</b>
<b>Net financing need:</b>	<b>-</b>	<b>-</b>	<b>60.8</b>	<b>139.6</b>	<b>39.0</b>

The Prudential Indicators also establish the City Fund's Capital Financing Requirement (CFR). The CFR is simply the total historic outstanding capital expenditure which has not yet been paid for from either revenue or capital resources. It is essentially a measure of the City Fund's indebtedness and so its underlying borrowing need. Any capital expenditure above, which has not immediately been paid for through a revenue or capital resource (the net financing need in Table 1), will increase the CFR.

## 2.2. Estimate of the Capital Financing Requirement (City Fund)

Table 2	2019/20 Actual £m	2020/21 Estimate £m	2021/22 Estimate £m	2022/23 Estimate £m	2023/24 Estimate £m
Non-HRA	45.3	64.9	104.8	232.1	270.9
HRA	0	0	19.2	29.8	28.2
<b>Total</b>	<b>45.3</b>	<b>64.9</b>	<b>124.0</b>	<b>261.9</b>	<b>299.1</b>

## 2.3. Minimum Revenue Provision (City Fund)

The CFR does not increase indefinitely, as the minimum revenue provision (MRP) is a statutory annual revenue charge which broadly reduces the indebtedness in line with each asset's life, and so charges the economic consumption of capital assets as they are used. The City's MRP Policy is detailed in Appendix 2.

## 2.4. City's Cash

As with the City Fund, any capital expenditure incurred by City's Cash which has not immediately been paid for through a revenue or capital resource, will increase the

City's Cash borrowing requirement. Table 3 summarises the planned City's Cash borrowing over the next few years.

## 2.5. City's Cash Borrowing

<b>Table 3</b>	<b>2019/20 Actual £m</b>	<b>2020/21 Estimate £m</b>	<b>2021/22 Estimate £m</b>	<b>2022/23 Estimate £m</b>	<b>2023/24 Estimate £m</b>
Borrowing	£250m	£250m	£450m	£450m	£450m

As with the MRP for the City Fund, borrowing for City's Cash will be reduced gradually over time through the application of a debt financing reserve as set out in the City's Cash Borrowing Policy Statement (Appendix 8).

## 3. Current Portfolio Position

The City's treasury portfolio position at 31 December 2020 comprised:

<b>Treasury Portfolio</b>				
	<b>Actual</b>	<b>Actual</b>	<b>Current</b>	<b>Current</b>
	<b>31/03/20</b>	<b>31/03/20</b>	<b>31/12/20</b>	<b>31/12/20</b>
<b>Treasury investments</b>	<b>£m</b>	<b>%</b>	<b>£m</b>	<b>%</b>
Banks	£475.5	47%	£460.0	44%
Building societies (rated)	£28.4	3%	£25.0	2%
Local authorities	£111.0	11%	£75.0	7%
Liquidity funds	£184.8	18%	£266.8	25%
Ultra-short dated bond funds	£65.0	6%	£85.0	8%
Short dated bond funds	£150.0	15%	£150.0	14%
<b>Total treasury investments</b>	<b>£1,014.7</b>	<b>100%</b>	<b>£1,061.8</b>	<b>100%</b>
<b>Treasury external borrowing</b>				
Long term market debt (City's Cash)	£250.0	100%	£250.0	100%
<b>Total external borrowing</b>	<b>£250.0</b>	<b>100%</b>	<b>£250.0</b>	<b>100%</b>

The overall weighted average rate of return on investments was 0.83% as at 31 December 2020 compared to 0.63% as at 31 March 2020.

## 4. Treasury Indicators for 2021/22 – 2023/24

Treasury Indicators (as set out in Appendix 2) are relevant for the purposes of setting an integrated treasury management strategy.

## 5. Prospects for Interest Rates

The City of London has appointed Link Asset Services (Link) as its treasury advisor and part of their service is to assist the City to formulate a view on interest rates. Appendix 1 draws together a number of forecasts for both short term (Bank Rate – also known as “the Bank of England base rate”) and longer term interest rates. The following table and accompanying text below gives the Link central view.

	Bank Rate %	PWLB Borrowing Rates % (including certainty rate adjustment)			
		5 year	10 years	25 year	50 year
Mar 2021	0.10	0.80	1.10	1.50	1.30
Jun 2021	0.10	0.80	1.10	1.60	1.40
Sep 2021	0.10	0.80	1.10	1.60	1.40
Dec 2021	0.10	0.80	1.10	1.60	1.40
Mar 2022	0.10	0.90	1.20	1.60	1.40
Jun 2022	0.10	0.90	1.20	1.70	1.50
Sep 2022	0.10	0.90	1.20	1.70	1.50
Dec 2022	0.10	0.90	1.20	1.70	1.50
Mar 2023	0.10	0.90	1.20	1.70	1.50
Jun 2023	0.10	1.00	1.30	1.80	1.60
Sep 2023	0.10	1.00	1.30	1.80	1.60
Dec 2023	0.10	1.00	1.30	1.80	1.60
Mar 2024	0.10	1.00	1.30	1.80	1.60

The Coronavirus outbreak has had a highly significant impact on the UK economy and economies around the world. The Bank of England took emergency action in March 2020 to reduce Bank Rate to 0.25% and then to 0.10%; the Governor of the Bank of England has made it clear that negative rates will do more damage than good and quantitative easing is favoured instead. The forecasts above show that no increase in Bank Rate is expected as the economic recovery is expected to be gradual and therefore prolonged.

Gilt yields spiked during March and since have fallen sharply to unprecedented lows as investors moved into safe haven assets. However major western central banks took rapid action and started quantitative easing purchases of government bonds. This acted by putting downward pressure on government bond yields at a time when there has been a huge and quick expansion of government expenditure financed by issuing government bonds. Such unprecedented levels of issuance in “normal” times would have caused bond yields to rise sharply. Gilt yields and PWLB rates have been at remarkably low rates so far during 2020/21.

As shown above there is expected to be little upward movement in PWLB rates over the next two years as it will take economies a prolonged period to recover all the momentum they have lost in the sharp recession caused during the coronavirus shut down period. From time to time, gilt yields, and therefore PWLB rates, can be subject to exceptional levels of volatility due to geo-political, sovereign debt crisis, emerging market developments and sharp changes in investor sentiment, (as shown on 9<sup>th</sup> November when the first results of a successful COVID-19 vaccine trial were announced). Such volatility could occur at any time during the forecast period.

## Investment and borrowing rates

- Investment returns are likely to remain exceptionally low during 2021/22 with little increase in following two years.
- Borrowing interest rates fell to historically very low rates as a result of the COVID crisis and the quantitative easing operations of the Bank of England. Borrowing rates have also been impacted by changes in Government policy. In October 2019, the Government increased the margin above Gilts that is used to set PWLB lending rates by 1%. The Government consulted on the future lending arrangements of the PWLB in 2020 and following the conclusion of the consultation the margin above gilts applied to new loans was reduced by 1%, restoring the status quo ante. However, alongside this change, a new prohibition was introduced on using PWLB borrowing to fund commercial investments: any local authority whose capital programme for the following three years includes plans to purchase assets for yield is now unable to borrow from the PWLB, with effect from 26 November 2020.
- Because borrowing rates are expected to be higher than investment rates, any new borrowing undertaken by the City will have a “cost of carry” (the difference between higher borrowing costs and low investment returns) which will cause a temporary increase in cash balances and will most likely incur a revenue cost.

## 6. Interest Rate Exposure

The City is required to set out how it intends to manage interest rate exposure.

This organisation will manage its exposure to fluctuations in interest rates with a view to containing its interest costs, or securing its interest revenues, in accordance with the amounts provided in its budgetary arrangements and management information arrangements.

It will achieve this by the prudent use of its approved instruments, methods and techniques, primarily to create stability and certainty of costs and revenues, but at the same time retaining a sufficient degree of flexibility to take advantage of unexpected, potentially advantageous changes in the level or structure of interest rates.

## 7. Borrowing Strategy

The borrowing strategy is developed from the capital plans and prospect for interest rates outlined in sections 2 and 5 above, respectively.

For both the City Fund and City's Cash, the capital expenditure plans create borrowing requirements and the borrowing strategy aims to make sure that sufficient cash is available to ensure the delivery of the City's capital programme as planned.

The City can choose to manage the borrowing requirements through obtaining external debt from a variety of sources; through the temporary use of its own cash resources (“internal borrowing”); or via a combination of these methods.

## 7.1. City Fund

The City Fund has a positive Capital Financing Requirement, and this is expected to grow in the next few years (see table 2 above). As the City Fund currently has no external debt, it is therefore maintaining an under-borrowed position which is forecast to increase if the City Fund does not acquire external debt. This means that the capital borrowing need is being managed within internal resources, i.e. cash supporting the City Fund's reserves, balances and cash flow is being used as a temporary measure. This strategy is prudent because it helps the City Fund to minimise borrowing costs in the near term and because it leads to lower investment balances which reduces counterparty risk. Against these advantages the City is conscious of the increased exposure to interest rate risk that is inherent in internal borrowing (i.e. the risk that the City Fund will need to replace internal borrowing with external borrowing in the future when interest rates are high).

Therefore, against this background and the risks within the economic forecast, caution will be adopted with the 2020/21 treasury operations. The Chamberlain will monitor interest rates in financial markets and adopt a pragmatic approach to changing circumstances. For example,

- *if it was felt that there was a significant risk of a sharp FALL in long and short term rates, (e.g. due to a marked increase of risks around relapse into recession or of risks of deflation), then long term borrowing will be postponed.*
- *if it was felt that there was a significant risk of a much sharper RISE in long and short term rates than that currently forecast, perhaps arising from an acceleration in the rate of increase in central rates in the USA and UK, an increase in world economic activity, or a sudden increase in inflation risks, then the portfolio position will be re-appraised. Most likely, fixed rate funding will be drawn whilst interest rates are lower than they are projected to be in the next few years.*

Any decisions will be reported to the Finance Committee and the Court of Common Council at the next available opportunity.

The City must set two treasury indicators representing the upper limits for the total amount of external debt for City Fund. These limits are required under the Prudential Code in order to ensure borrowing is affordable and is consistent with the City Fund's capital expenditure requirements.

- The **operational boundary for external debt** should represent the most likely scenario for external borrowing. It is acceptable for actual borrowing to deviate from this estimate from time to time. The proposed limit is set to mirror the estimated CFR for the forthcoming year and the following two years.
- The **authorised limit for external debt** is the maximum threshold for external debt for over 2021/22, 2022/23 and 2023/24. This limit is required by the Local Government Act 2003 and is set above the operational boundary to ensure that the City is not restricted in the event of a debt restructuring opportunity.

The proposed limits for 2021/22 are set out in Appendix 2.

The City is also required to set a treasury indicator in respect of the maturity structure of external debt to ensure that the external debt portfolio remains appropriately balanced over the long term. Under the revised Treasury Management Code of Practice, the City is required to set limit for all borrowing (i.e. both fixed rate and variable debt), and the proposed limits are detailed in Appendix 2.

## 7.2. City's Cash

The capital expenditure plans for City's Cash also create a borrowing requirement. City's Cash has issued fixed rate market debt totalling £450m to fund its capital programme. Of this total, £250m was received in 2019/20 and the remaining £200m will be received in 2021/22. It is not anticipated that any new external borrowing will be acquired by City's Cash in 2021/22. However, the Chamberlain will keep this position under review and in doing so will have regard for liquidity requirements, interest rate risk and the implications for the revenue budget.

The regulatory framework established through the CIPFA professional codes and MHCLG guidance pertains to the City's local authority function, the City Fund. To facilitate effective management of the City's Cash borrowing requirement, this organisation has adopted the City's Cash Borrowing Policy Statement (Appendix 8), which sets out the principles for effectively managing the risks arising from borrowing on behalf of City's Cash. Under this framework, the City has resolved to establish two further treasury indicators, which will help the organisation to ensure its borrowing plans remain prudent, affordable and sustainable:

- **Estimates of financing costs to net revenue stream.** This indicator is given as a percentage and establishes the amount of the City's Cash net revenue that is used to service borrowing costs.
- **Overall borrowing limits.** This indicator represents an upper limit for external debt which officers cannot exceed.

The proposed indicators for 2021/22 are set out in Appendix 2 alongside the City Fund treasury indicators.

## 7.3. Policy on borrowing in advance of need

The City will not borrow more than or in advance of its needs purely in order to profit from the investment of the extra sums borrowed. Any decision to borrow in advance will be within forward approved Capital Financing Requirement estimates and will be considered carefully to ensure that value for money can be demonstrated and that the City can ensure the security of such funds.

## 7.4. Debt rescheduling

The City does not anticipate any debt rescheduling in the near term. However, should any opportunities for debt rescheduling arise (through a decrease in borrowing rates, for instance), such cases will need to be considered in the context of the current treasury position and the size of the cost of debt repayment (i.e. any penalties incurred).

The reasons for any rescheduling to take place will include:

- the generation of cash savings and / or discounted cash flow savings;

- helping to fulfil the treasury strategy;
- enhance the balance of the portfolio (amend the maturity profile and/or the balance of volatility).

All rescheduling will be reported to the Court of Common Council, at the earliest meeting following its action.

## **7.5. Sources of borrowing**

Historically, the main source of borrowing for UK local authorities has been the PWLB. Any new loans issued by the PWLB are subject to the PWLB's revised lending arrangements with effect from 26 November 2020. Currently the PWLB Certainty Rate is set at gilts + 80 basis points for new loans. Local authorities have recourse to other sources of external borrowing including financial institutions, other local authorities and the Municipal Bonds Agency.

## **8. Annual Investment Strategy**

### **8.1. Investment Policy**

The City of London's investment policy will have regard to the MHCLG's Guidance on Local Government Investments ("the Guidance"), the revised CIPFA Treasury Management in Public Services Code of Practice and Cross Sectorial Guidance Notes 2017 ("the CIPFA TM Code") and CIPFA Treasury Management Guidance Notes 2018.

The MHCLG and CIPFA have extended the meaning of 'investments' to include both financial and non-financial investments. This report deals solely with financial investments, (as managed by the treasury management team). Non-financial investments, (e.g. commercial property), are covered in the Capital Strategy, (a separate report).

The City's investment priorities are:

- (a) security; and
- (b) liquidity.

The City will also aim to achieve the optimum return on its investments commensurate with proper levels of security and liquidity. The risk appetite of the City is low in order to give priority to the security of its investments.

The borrowing of monies purely to invest or on-lend and make a return is unlawful and the City will not engage in such activity.

In accordance with the above guidance from the MHCLG and CIPFA, and in order to minimise the risk to investments, the City applies minimum acceptable credit criteria in order to generate a list of highly creditworthy counterparties which also enables diversification and thus avoidance of concentration risk. The key ratings used to monitor counterparties are the Short Term and Long Term ratings.

Ratings will not be the sole determinant of the quality of an institution; it is important to continually assess and monitor the financial sector on both a micro and macro basis and in relation to the economic and political environments in which institutions operate. The assessment will also take account of information that reflects the opinion of the markets. To achieve this consideration, the City will engage with its advisors to maintain a monitor on market pricing such as “credit default swaps” and overlay that information on top of the credit ratings.

Other information sources used will include the financial press, share price and other such information pertaining to the banking sector in order to establish the most robust scrutiny process on the suitability of potential investment counterparties. Investment instruments identified for use in the financial year are listed in Appendix 3 under the ‘specified’ and ‘non-specified’ investments categories.

- **Specified investments** are those with a high level of credit quality and subject to a maturity limit of one year.
- **Non-specified investments** are those with less high credit quality, may be for periods in excess of one year, and/or are more complex instruments which require greater consideration by members and officers before being authorised for use. Once an investment is classed as non-specified, it remains non-specified all the way through to maturity i.e. an 18-month deposit would still be non-specified even if it has only 11 months left until maturity.

The City will also set a limit for the amount of its investments which are invested for longer than 365 days (see Appendix 2).

## 8.2. Creditworthiness policy

The primary principle governing the City’s investment criteria is the security of its investments, although the yield or return on the investment is also a key consideration. After this main principle, the City will ensure that:

- It maintains a policy covering both the categories of investment types it will invest in, criteria for choosing investment counterparties with adequate security, and monitoring their security.
- It has sufficient liquidity in its investments. For this purpose it will set out procedures for determining the maximum periods for which funds may prudently be committed. These procedures also apply to the City’s prudential indicators covering the maximum principal sums invested.

The Chamberlain will maintain a counterparty list in compliance with the following criteria and will revise these criteria and submit them to the Financial Investment Board for approval as necessary. These criteria are separate to those which determine which types of investment instruments are classified as either specified or non-specified as it provides an overall pool of counterparties considered high quality which the City may use, rather than defining what types of investment instruments are to be used.

Regular meetings are held involving the Chamberlain, the Deputy Chamberlain, Corporate Treasurer and members of the Treasury team, where the suitability of prospective counterparties and the optimum duration for lending is discussed and agreed.

Credit rating information is supplied by Link Asset Services, our treasury advisors, on all active counterparties that comply with the criteria below. Any counterparty failing to meet the criteria would be omitted from the counterparty (dealing) list. Any rating changes, rating Watches (notification of a likely change), rating Outlooks (notification of a possible longer-term bias outside the central rating view) are provided to officers almost immediately after they occur and this information is considered before dealing. For instance, a negative rating Watch applying to a counterparty would result in a temporary suspension, which will be reviewed in light of market conditions.

All credit ratings will be monitored daily. The City is alerted to credit warnings and changes to ratings of all three agencies through its use of the Link creditworthiness service.

The criteria for providing a pool of high quality investment counterparties (both specified and non-specified investments) are:

- Banks 1 – good credit quality – the City will only use banks which:
  - (i) are UK banks; and/or
  - (ii) are non-UK and domiciled in a country which has a minimum sovereign long-term rating of **AA+** (Fitch rating)

and have, as a minimum the following Fitch, credit rating:

- (i) Short-term – F1
  - (ii) Long-term – **A-**
- Banks 2 – Part nationalised UK banks – Royal Bank of Scotland ring-fenced operations. This bank can be included if it continues to be part nationalised, or it meets the ratings in Banks 1 above.
- Banks 3 – The City's own banker (Lloyds Banking Group) for transactional purposes and if the bank falls below the above criteria, although in this case, balances will be minimised in both monetary size and duration.
- Bank subsidiary and treasury operation - The City will use these where the parent bank has provided an appropriate guarantee or has the necessary ratings outlined above. This criteria is particularly relevant to City Re Limited, the City's Captive insurance company, which deposits funds with bank subsidiaries in Guernsey.
- Building Societies – The City may use all societies which:
  - (i) have assets in excess of £10bn; or
  - (ii) meet the ratings for banks outlined above

- Money Market Funds (MMFs) Constant Net Asset Value (CNAV)\* – with minimum credit ratings of AAA/mmf
- Money Market Funds (MMFs) Low-Volatility Net Asset Value (LVNAV)\* – with minimum credit ratings of AAA/mmf
- Money Market Funds (MMFs) Variable Net Asset Value (VNAV)\* – with minimum credit ratings of AAA/mmf
- Ultra-Short Dated Bond Funds with a credit rating of at least AAA/f (previously referred to as Enhanced Cash Plus Funds)
- Short Dated Bond Fund – These funds typically do not obtain their own standalone credit rating. The funds will invest in a wide array of investment grade instruments, the City will undertake all necessary due diligence to ensure a minimum credit quality across the funds underlying composition is set out within initial Investment Manager Agreements and actively monitor the on-going credit quality of any fund invested.
- UK Government – including government gilts and the debt management agency deposit facility.
- Local authorities

A limit of £500m will be applied to the use of non-specified investments.

**\*European Money Market Reform.** Under EU money market reforms implemented in 2018/19, three new classifications of money market funds have been created:

- Constant Net Asset Value (“CNAV”) MMFs – must invest 99.5% of their assets into government debt instruments and are permitted to maintain a constant net asset value.
- Low Volatility Net Asset Value (“LVNAV”) MMFs – permitted to maintain a constant dealing net asset value provided that certain criteria are met, including that the market net asset value of the fund does not deviate from the dealing net asset value by more than 20 basis points.

Variable Net Asset Value (“VNAV”) MMFs – price assets using market pricing and therefore offer a fluctuating dealing net asset value

### **8.3. Use of additional information other than credit ratings.**

Additional requirements under the Code require the City to supplement credit rating information. Whilst the above criteria relies primarily on the application of credit ratings to provide a pool of appropriate counterparties for officers to use, additional operational market information will be applied before making any specific investment decision from the agreed pool of counterparties. This additional market information (for example Credit Default Swaps, negative rating Watches/Outlooks) will be applied to compare the relative security of differing investment counterparties

### **8.4. Time and monetary limits applying to investments.**

The time and monetary limits for institutions on the Council’s counterparty list are as follows (these will cover both specified and non-specified investments):

	<b>Minimum Creditworthiness Criteria</b>	<b>Money Limit</b>	<b>Time Limit</b>
<b>Banks 1 higher quality</b>	Fitch Rating Long Term: A+ Short Term: F1	£100m	3 years
<b>Banks 1 medium quality</b>	Fitch Long Term Rating Long Term: A Short Term: F1	£100m	1 year
<b>Banks 1 lower quality</b>	Fitch Long Term Rating Long Term: A- Short Term: F1	£50m	6 months
<b>Banks 2 – part nationalised</b>	N/A	£100m	3 years
<b>Banks 3 – City’s banker (transactions only, and if bank falls below above criteria)</b>	N/A	£150m	1 working day
<b>Building Societies higher quality</b>	Fitch Long Term Rating A or assets of £150bn	£100m	3 years
<b>Building Societies medium quality</b>	Fitch Long Term Rating A- or assets of £10bn	£20m	1 year
<b>UK Government (DMADF, Treasury Bills, Gilts)</b>	UK sovereign rating	unlimited	3 years
<b>Local authorities</b>	N/A	£25m	3 years
<b>External Funds*</b>	<b>Fund rating</b>	<b>Money and/or % Limit</b>	<b>Time Limit</b>
<b>Money Market Funds CNAV</b>	AAA	£100m	liquid
<b>Money Market Funds LVNAV</b>	AAA	£100m	liquid
<b>Money Market Funds VNAV</b>	AAA	£100m	liquid
<b>Ultra-Short Dated Bond Funds</b>	AAA	£100m	liquid
<b>Short Dated Bond Funds</b>	N/A	£100m	liquid

\*An overall limit of £100m for each fund manager will also apply.

A list of suitable counterparties conforming to this creditworthiness criteria is provided at Appendix 4. The Chamberlain will review eligible counterparties prior to

inclusion on the approved counterparty list and will monitor the continuing suitability of existing approved counterparties.

## 8.5. Country limits

The City has determined that it will only use approved counterparties from countries with a minimum sovereign credit rating of **AA+** (Fitch) or equivalent. The country limits list, as shown in Appendix 5, will be added to or deducted from by officers should individual country ratings change in accordance with this policy. The UK (which is currently rated as AA-) will be excluded from this stipulated minimum sovereign rating requirement.

## 8.6. Local authority limits

The City will place deposits up to a maximum of £25m with individual local authorities. In addition the City imposes an overall limit of £250m for outstanding lending to local authorities as a whole at any given time. Although the overall credit standing of the local authority sector is considered high, officers perform additional due diligence on individual prospective local authority borrowers prior to entering into any lending.

## 8.7. Investment Strategy

**In-house funds:** The City's in-house managed funds are both cash-flow derived and also represented by core balances which can be made available for investment over a longer period. Investments will accordingly be made with reference to the core balance and cash flow requirements and the outlook for short-term interest rates (i.e. rates for investments up to 12 months). Where cash sums can be identified that could be invested for longer periods, the value to be obtained from longer term investments will be carefully assessed.

**Investment returns expectations:** Bank Rate is unlikely to rise from 0.10% for a considerable period given underlying economic expectations. In these circumstances it is likely that investment earnings from money market-related instruments will be below 0.50% for the foreseeable future. Bank Rate forecasts for financial year ends (March) are:

- 2020/21 0.10%
- 2021/22 0.10%
- 2022/23 0.10%
- 2023/24 0.10%
- 2024/25 0.25%

The Bank of England has effectively ruled out the use of negative interest rates in the near term and increases in Bank Rate are likely to be some years away given the underlying economic expectations.

## 8.8. Investment Treasury Indicator and Limit

Total principal funds invested for greater than 365 days are subject to a limit, set with regard to the City's liquidity requirements and to reduce the need for an early sale of an investment, and are based on the availability of funds after each year end. The Board is asked to approve the treasury indicator and limit:

Maximum principal sums invested for more than 365 days (up to three years)			
	2020/21 £M	2021/22 £M	2022/23 £M
Principal sums invested >365 days	500	500	500

## 8.9. Investment performance benchmarking

The City will monitor investment performance against Bank Rate and 3- and 6-month London Interbank Bid Rate (LIBID). The City is appreciative that the provision of LIBOR and associated LIBID rates is expected to cease at the end of 2021. It will work with its advisors in determining suitable replacement investment benchmark(s) ahead of this cessation and will report back to Members accordingly.

## 8.10. End of year investment report

At the end of the financial year, the City will report on its investment activity as part of its Annual Treasury Report.

## 8.11. External fund managers

A proportion of the City's funds, amounting to £501.8m as at 31 December 2020, are externally managed on a discretionary basis by the following fund managers:

- Aberdeen Standard Investments
- CCLA Investment Management Limited
- Deutsche Asset Management (UK) Limited
- Federated Investors (UK) LLP
- Invesco Global Asset Management Limited
- Legal and General Investment Management
- Payden & Rygel Global Limited
- Royal London Asset Management

The City's external fund managers will comply with the Annual Investment Strategy, and the agreements between the City and the fund managers additionally stipulate guidelines and duration and other limits in order to contain and control risk.

The credit criteria to be used for the selection of the Money Market fund manager(s) is based on Fitch Ratings and is AAA/mmf. The Ultra-Short Dated Bond Fund managers (including the Payden & Rygel Sterling Reserve Fund, Federated Sterling Cash Plus Fund and Aberdeen Standard Liquidity Fund (Lux) Short Duration Sterling Fund) are all rated by Standard and Poor's as AAA.

The City also uses two Short Dated Bond Funds managed by Legal and General Investment Management and Royal London Asset Management. Both funds are unrated (as is typical of these instruments). The funds offer significant diversification by being invested in a wide range of investment grade instruments, rated BBB and above and limiting exposure to any one debt issuer or issuance.

## **9. Policy on the use of external service providers**

The City uses Link Asset Services, Treasury Solutions as its external treasury management advisers.

The City recognises that responsibility for treasury management decisions remains with the organisation at all times and will ensure that undue reliance is not placed upon its external service providers.

It also recognises that there is value in employing external providers of treasury management services in order to acquire access to specialist skills and resources. The City will ensure that the terms of their appointment and the methods by which their value will be assessed are properly agreed and documented and subjected to regular review.

## **10. Scheme of Delegation**

Please see Appendix 6.

## **11. Role of the Section 151 officer**

Please see Appendix 7.

## **12. Training**

The CIPFA Code requires the responsible officer to ensure that Members with responsibility for treasury management receive adequate training in treasury management. The training needs of members and treasury management officers are periodically reviewed. Training was most recently undertaken by Members in February 2019.

## MINIMUM REVENUE PROVISION (MRP) POLICY STATEMENT 2021/22

To ensure that capital expenditure funded by borrowing is ultimately financed, the City Fund is required to make a Minimum Revenue Provision (MRP) when the Capital Financing Requirement (CFR) is positive. A positive CFR is indicative of an underlying need to borrow and will arise when capital expenditure is funded by 'borrowing', either external (loans from third parties) or internal (use of cash balances held by the City Fund).

MHCLG regulations have been issued which require the Court of Common Council to approve **an MRP Statement** in advance of each year. The regulatory guidance recommends four options for local authorities. Options 1 and 2 relate to government supported borrowing prior to 2008. As the City Fund does not have any outstanding borrowing from this period, these options are not relevant. For any prudential borrowing undertaken after 2008, options 3 and 4 apply:

- **Option 3: Asset life method** – MRP will be based on the estimated life of the assets, in accordance with the regulations (this option must be applied for any expenditure capitalised under a Capitalisation Direction);
- **Option 4: Depreciation method** – MRP will follow standard depreciation accounting procedures;

For any new borrowing under the prudential financing system, the City Fund will apply the asset life method over the useful economic life of the relevant assets. However, as loan repayments will commence in advance of the assets becoming operational, additional provision will be made in the early years so that MRP is at least equal to the amount of the loan principal repaid. This option provides for a reduction in the borrowing need over the approximate life of the assets.

As in previous years, the City will continue to apply a separate MRP policy for that portion of the CFR which has arisen through the funding of capital expenditure from cash received from long lease premiums which are deferred in accordance with accounting standards. This deferred income is released to revenue over the life of the leases to which it relates, typically between 125 and 250 years.

The City's MRP policy in respect of this form of internal borrowing is based on a mechanism to ensure that the deferred income used to finance capital expenditure is not then 'used again' when it is released to revenue. The amount of the annual MRP is therefore to be equal to the amount of the deferred income released, resulting in an overall neutral impact on the bottom line.

MRP will fall due in the year following the one in which the expenditure is incurred, or the year after the asset becomes operational.

The MRP liability for 2020/21 is **£1.1m** and is estimated at **£1.1m** for 2021/22.

**TREASURY MANAGEMENT PRACTICES (TMP 1) – Credit and Counterparty Risk Management**

**SPECIFIED INVESTMENTS:** All such investments will be sterling denominated, with **maturities up to maximum of 1 year**, meeting the minimum ‘high’ quality criteria where appropriate.

	<b>Minimum ‘High’ Credit Criteria</b>	<b>Use</b>
Debt Management Agency Deposit Facility	--	In-house
Term deposits – local authorities	--	In-house
Term deposits – banks and building societies, including part nationalised banks	Short-term F1, Long-term <b>A-</b>	In-house via Fund Managers
Money Market Funds CNAV	AAA/mmf (or equivalent)	In-house via Fund Managers
Money Market Funds LVNAV	AAA/mmf (or equivalent)	In-house via Fund Managers
Money Market Funds VNAV	AAA/mmf (or equivalent)	In-house via Fund Managers
Ultra-Short Dated Bond Fund	AAA/f (or equivalent)	In-house via Fund Managers
UK Government Gilts	UK Sovereign Rating	In-house & Fund Managers
Treasury Bills	UK Sovereign Rating	In-house & Fund Managers
Sovereign Bond issues (other than the UK government)	<b>AA+</b>	Fund Managers

**NON-SPECIFIED INVESTMENTS:** These are any investments which do not meet the Specified Investment criteria. A maximum of £500m will be held in aggregate in non-specified investment.

A variety of investment instruments will be used, subject to the credit quality of the institution, and depending on the type of investment made it will fall into one of the categories set out below.

	<b>Minimum Credit Criteria</b>	<b>Use</b>	<b>Maximum</b>	<b>Maximum Maturity Period</b>
Term deposits – other LAs (with maturities in excess of one year)	-	In-house	£25m per LA	Three years
Term deposits, including callable deposits – banks and building societies (with maturities in excess of one year)	Long-term <b>A+</b> , Short-term F1,	In-house and Fund Managers	£300m overall	Three years
Certificates of deposits issued by banks and building societies with maturities in excess of one year	Long-term <b>A+</b> , Short-term F1,	In-house on a buy-and-hold basis and fund managers	£50m overall	Three years
UK Government Gilts with maturities in excess of one year	AA-	In-house on a buy-and-hold basis and fund managers	£50m overall	Three years
UK Index Linked Gilts	AA-	In-house on a buy-and-hold basis and fund managers	£50m Overall	Three years
Short Dated Bond Funds	--	In-house via Fund Managers	£100m per Fund	n/a*

\*Short Dated Bonds Funds are buy and hold investments with no pre-determined maturity at time of funding, liquidity access is typically T + 3 or 4.

**APPROVED COUNTERPARTIES AS AT 31 DECEMBER 2020**

**UK BANKS AND THEIR WHOLLY OWNED SUBSIDIARIES**

FITCH RATINGS		BANK*	LIMIT PER GROUP	DURATION
A+	F1	Barclays Bank PLC (NRFB)	£100M	Up to 3 years

## LOCAL AUTHORITIES

<b>LIMIT OF £25M PER AUTHORITY <u>AND £250M</u> <u>OVERALL</u></b>
Any UK local authority

**APPROVED COUNTRIES FOR INVESTMENT**

This list is based on those countries which have sovereign ratings of AAA **and AA+** as at 11 January 2021.

**AAA**

- Australia
- Denmark
- Germany
- Netherlands
- Singapore
- Sweden
- Switzerland
- United States

**AA+**

- Canada
- Finland

**AA-**

- United Kingdom

**TREASURY MANAGEMENT SCHEME OF DELEGATION**

The roles of the various bodies of the City of London Corporation with regard to treasury management are:

**(i) Court of Common Council**

- Receiving and reviewing reports on treasury management policies, practices and activities
- Approval of annual strategy.

**(ii) Financial Investment Board and Finance Committee**

- Approval of/amendments to the organisation's adopted clauses, treasury management policy statement and treasury management practices
- Budget consideration and approval
- Approval of the division of responsibilities
- Receiving and reviewing regular monitoring reports and acting on recommendations
- Approving the selection of external service providers and agreeing terms of appointment.

**(iii) Audit & Risk Management Committee**

- Reviewing the treasury management policy and procedures and making recommendations to the responsible body.

**THE TREASURY MANAGEMENT ROLE OF THE SECTION 151 OFFICER**

**The Chamberlain**

- Recommending clauses, treasury management policy/practices for approval, reviewing the same regularly, and monitoring compliance
- Submitting regular treasury management policy reports
- Submitting budgets and budget variations
- Receiving and reviewing management information reports
- Reviewing the performance of the treasury management function
- Ensuring the adequacy of treasury management resources and skills, and the effective division of responsibilities within the treasury management function
- Ensuring the adequacy of internal audit, and liaising with external audit
- Recommending the appointment of external service providers.

**CITY'S CASH BORROWING POLICY STATEMENT**

1. The City Corporation shall ensure that all of its City's Cash capital expenditure, investments and borrowing decisions are prudent and sustainable. In doing so, it will take into account its arrangements for the repayment of debt and consideration of risk and the impact, and potential impact, on the overall fiscal sustainability of City's Cash.
2. Borrowing shall be undertaken on an affordable basis and total capital investment must remain within sustainable limits. When assessing the affordability of its City's Cash investment plans, the City Corporation will consider both the City's Cash resources currently available and its estimated future resources, together with the totality of its City's Cash capital plans, income and expenditure forecasts.
3. To ensure that the benefits of capital expenditure are matched against the costs, a debt financing reserve will be established.
4. To the greatest extent possible, expected finance costs arising from borrowing are matched against appropriate revenue income streams.
5. The City Corporation will organise its borrowing on behalf of City's Cash in such a way as to ensure that financing is available when required to manage liquidity risk (i.e. to make sure that funds are in place to meet payments for capital expenditure on a timely basis). The City Corporation will only borrow in advance of need on behalf of City's Cash on the basis of a sound financial case (for instance, to mitigate exposure to rising interest rates).
6. The City Corporation will ensure debt is appropriately profiled to mitigate refinancing risk.
7. The City Corporation will monitor the sensitivity of liabilities to inflation and will manage inflation risks in the context of the inflation exposures across City's Cash (e.g. the City Corporation will be mindful of the potential impact of index-linked borrowing on the financial position of City's Cash).
8. The City Corporation will seek to obtain value for money in identifying appropriate borrowing for City's Cash. Where internal borrowing (i.e. from City Fund or Bridge House Estates) is used as a source of funding, the City Corporation will keep under review the elevated risk of refinancing.
9. All borrowing is expected to be drawn in Sterling. Where debt is raised in foreign currencies, the City Corporation will consider suitable measures for mitigating the risks presented by fluctuation in exchange rates.
10. Interest rate movement exposure will be managed prudently, balancing cost against likely financial impact.
11. The City Corporation will maintain the following indicators which relate to City's Cash borrowing only:
  - Estimates of financing costs to net revenue stream
  - Overall borrowing limits

<b>Committee(s):</b> Financial Investment Board	<b>Dated:</b> 9 <sup>th</sup> February 2021
<b>Subject:</b> Report of Action Taken	<b>Public</b>
<b>Which outcomes in the City Corporation's Corporate Plan does this proposal aim to impact directly?</b>	As set out in the full report presented for delegated decision
<b>Does this proposal require extra revenue and/or capital spending?</b>	
<b>If so, how much?</b>	
<b>What is the source of Funding?</b>	
<b>Has this Funding Source been agreed with the Chamberlain's Department?</b>	
<b>Report of:</b> Town Clerk	<b>For Information</b>
<b>Report author:</b> Joseph Anstee	

## Summary

This report advises Members of an action taken by the Town Clerk since the last meeting of the Committee, in consultation with the Chairman and Deputy Chair, in accordance with Standing Order Nos. 41(b). These actions related to:

CMA ORDER 2019 – PART 7 COMPLIANCE STATEMENT: INVESTMENT  
CONSULTANT STRATEGIC OBJECTIVES (LGPS ONLY)

## Recommendation

Members are asked to note the report.

## Main report

### 21 December 2020

1. The Financial Investment Board is required to review the performance of its investment consultancy provider against their objectives at least annually. At the 25 November 2020 Financial Investment Board meeting, Members agreed to delegate authority to the Town Clerk in consultation with the Chairman and Deputy Chairman of the Financial Investment Board to confirm the outcome of the review and for the Chairman to sign the compliance statement so that it can be submitted to the Competition and Markets Authority (CMA) before 7 January 2021.
2. Subsequently, the Chamberlain submitted a report updating on the performance of the Investment Consultant (Mercer Ltd) against the aims and objectives set and approved by the Financial Investment Board at their meeting on 29 November 2019. Officers concluded that the Investment Consultant has achieved a Green rating for six of the seven objectives, and an Amber rating for one objective. The full review of performance against each objective was included as an appendix to the report.

**Action Taken**

The Town Clerk, in consultation with the Chairman and Deputy Chairman, agreed to note the outcome of the review, and that the Chairman of the Financial Investment Board should sign the Compliance Statement.
