No.	Agenda item and minute
1.	<p>Welcome, Introductions and Apologies for Absence</p> <p>The Chair of the Local Outbreak Control Board (LOCB), Chris Kennedy (CK), opened the meeting, welcoming those present and noting apologies as listed above.</p>
2.	<p>Declarations of Interests</p> <p>The City Integrated Commissioning Board NOTED the Register of Interests.</p> <p>The Hackney Integrated Commissioning Board NOTED the Register of Interests.</p> <p>CK flagged that the new Disclose online declarations of interest system was now online and easy to access, encouraging all members to register with the system.</p>
3.	<p>Minutes of the Previous Meeting & Action Log</p> <p>The City Integrated Care Partnership Board APPROVED the minutes of the previous meeting.</p> <p>The Hackney Integrated Care Partnership Board APPROVED the minutes of the previous meeting.</p>

4.	<p>Questions from the Public</p> <p>Dr Sandra Husbands (SH) fielded a set of questions submitted in advance of the meeting. The First question was regarding HEPA air filters in schools, and asked which schools had been affected in city and Hackney was the question.</p> <p>And a follow up on that, given that secondary school pupils have to wear face coverings but may not yet be vaccinated, or just have a first vaccine, so far, what further steps were City and Hackney taking to protect adults and children in school and to secure against transmission in the community?</p> <p>The second question posed was about masks and whether the public should be upgrading their face coverings to FFP2 or FFP3?</p> <p>Dr Sandra Husbands (SH) stated that, in response to the second part of question one, the first defence remained to concentrate on delivering vaccinations to children. Efforts have been focused as a as a local partnership mainly led by the NHS, with enormous cooperation from our education department, as well as the public health team here in the Council and have been vaccinating 12 to 15 year old's for several months, including those who are in the clinical, extremely vulnerable to COVID category. We've got rates of uptake for all of that is first doses for 16- and 17-year old's 32% at the moment for healthy, not extremely if clinically vulnerable.</p> <p>SH continued to update the LOCB that work was concentrated on those 12 to 15-year old's who are in that clinically extremely vulnerable category, and that efforts continued to improve the uptake of vaccines in those groups and the national rollout of the initial first dose. 15-year old's through the school's programme were now being followed by a mixed delivery model for the second dose. SH highlighted that it became policy very recently, that young children would be offered that second dose of vaccine, and so the team were planning follow up visits to schools to do school-based clinics in schools that want them, and supplementing that with family-based clinics to be held on school sites after hours and that will vaccinate.</p> <p>The clinically extremely vulnerable were continuing to be called into the local vaccination sites to be vaccinated and also a vaccination offer was being delivered at special schools directly, but all of our mainstream to clinic and schools had jabs on site in the first round.</p> <p>The majority of vaccinations for 12 to 15-year-old had been carried out outside of school because the feedback we had been getting was that many parents wanted to be present while their children were being vaccinated and that's what's driving the team to look to a more family-based model which will be delivered.</p> <p>SH noted that vaccinating 5 to 11-year-old has started in in some other countries. The team had been working very closely with schools and providing advice.</p> <p>SH moved to respond to the questions around indoor gatherings, ventilation and how to improve air flow.</p> <p>SH stated that the team do know that some schools across the country are being offered HEPA air filters if they meet certain criteria, but this is actually a very small number of filters compared to the number of schools and the number of spaces they each have within them, and the team were not aware locally of exactly how many schools have qualified for those HEPA filters from the Department for Education so far.</p>
----	--

	<p>SH added that it was possible that some local schools may have purchased them for themselves, but they have all been given advice from the Health and Safety Executive (HSE), which goes into a lot more technical detail about what ventilation is required, including advice on HEPA filters and the Department of Education has launched online marketplace for schools to buy purifiers.</p> <p>SH stated that local advice remained to not to recommend air filters in each classroom where you could ensure adequate ventilation by opening windows, and their use should only be considered where an internal space is present that doesn't have any access to outside air.</p> <p>Masks</p> <p>SH stated that cloth masks, particularly if they only had one layer, had the lowest filtration capacity, generally followed by FFP2 masks, where they are a much higher sort of professional grade which are used for filtering particles, often used in health care, but in industries where they need to filter out particles to protect the workers and then FFP3 masks filter out the smallest particles.</p> <p>SH highlighted that the more people that wear a mask, the more population level protection we have and the more effective the masks are. SH added that despite this, using a mask will still protect the individual even if fewer people are wearing them. SH recognised that there had been advice at the beginning of the pandemic, when there was a real crunch on availability of medical grade PPE to not to buy surgical mask in order to ensure supply for those who needed them. SH stated that these surgical masks are more effective than cloth masks however not quite as effective as the FFP two or three at filtering out the virus.</p> <p>SH added that a good quality cloth mask could be identified by having at two at least two layers, and you can't see through it.</p>
--	--

5.	<p>Vaccination Programme Update</p> <p>Ben Greenbury, (BG) presented a document with slides and gave an update on the vaccination uptake and the outreach work that is taking place in City and Hackney.</p> <p>BG set out that 63% of the 12 plus population in City and Hackney have received their first dose and nearly 58% have received their second dose, with 62% of those eligible for their booster based on when they had their second dose, have had their booster or third days vaccination and in terms of comparisons with the rest of now that booster percentage uptake is actually quite positive. We are ahead of Tower Hamlets, Barking and Dagenham and in line in terms of how we are performing versus the rest of North East London.</p> <p>BG shared a slide indicating vaccination uptake by cohort, noting that once you get past the clinically extremely vulnerable population and the over 65 vaccination rates, uptake reduces with each age bracket as we go down. There are lower levels of uptake in the lower age ranges, which we are working on. BG noted that for clinically extremely vulnerable populations, there is a continued focus on call and recall, with practices currently calling all of the over 70s who have not received the booster vaccination and may not be able to access the government text messages that the younger population have greater access to.</p> <p>BG highlighted that week commencing the 19th of December 2021, saw a huge increase in demand where 26,000 residents in City and Hackney vaccinated since the program started in local vaccination sites, linked to the national push on booster uptake in December 2021. BG added that community pharmacies and the St Leonards teams stood up significant additional capacity and really worked overtime so a huge thanks to them. GB noted that all community pharmacies were commissioned to do additional hours, with three additional hours in the evenings on Monday to Saturday where they were able to accommodate and up to 12 hours on Sundays and bank holidays. There was also significant capacity made available over the Christmas and bank holiday period.</p> <p>GB continued that since the holidays, there had clearly been a slowdown in demand, which is being seen across the whole of London. However, please be assured that this is not due to lack of capacity of vaccination capacity within the system, there's still plenty of capacity. What we are seeing is high rates of DNA's and a lot of people are those who have COVID and therefore can't have a vaccine for 28 days.</p> <p>BG confirmed that over the last six weeks, an average of approximately 900 first doses and 90 2nd doses had been carried out per day, a reflection of the huge amount of work taking place on the ground. BG added that the message here is that the focus is not just on the booster and 3rd doses, but that 1st and 2nd doses are continuing to be pushed as well.</p> <p>BG set out the outreach work that's taking place in quarter three, and the focus going forward in quarter four. In terms of quarter 3 highlights, October to December, we've seen improved uptake and a number of Lower Layer Super Output Areas (LSOAs) where first dose uptake was below the City and Hackney average of 65% for this 16 plus population. 5 of the 13 LSOAs is with uptake below 50% and the beginning of October reached the 50% incremental target and we're likely to see another six reach 50% over the next couple of weeks and more information can be shared on this in separate documents. 14 of the 25 LSOAs that were between 50 and 60% in</p>
----	---

	<p>October reached the incremental target of 60% with the largest increase in Portsoken ward in the City, which raised by 8%.</p> <p>Where LSOAs didn't reach the target, we did see really good improvements or 6% average for these areas, progress is being made and will continue to focus in Q4.</p> <p>Now looking ahead to Q4, there remained huge amounts of work to do.</p> <p>SH mentioned a focus on children and young people highlighting that the team were looking at popups within 6 forms and colleges, and potentially one within the apprenticeship network, which are being worked through hopefully in January.</p> <p>SH added that the team had secured funding for three additional community-based organisations to support with this work.</p> <p>BG continued that the team have intensified its focus on areas with low uptake, working closely with community organisations and ward members. This builds on the work that was discussed in quarter three and we're currently working on Deep Dive reviews in each of these areas and will be reaching out toward numbers in the next week or so to see how we can shape plans in quarter four, what we're trying to do is get kind of place based high level snapshots of work done to date and plan for the future.</p> <p>BG recognised that there are certain areas that may need further engagement and we want to involve the LOCB and local Councillors in that as we realize the value they can bring up. Then we move on to outreach clinics, there is a pop up at Liverpool Street this Friday as Boots Liverpool Street have agreed to do weekly walk-in vaccination clinics as well. The team were working with TFL and Network Rail on this to promote within the stations and seeing whether we can get any Tannoy announcements, the Spring Hill clinics will continue throughout January, and they've been proven to be a huge success.</p> <p>BG noted that one clinic had already taking place with Spring Hill by the synagogue in the Orthodox Jewish community for the NEL community, and we have one more upcoming for the female community. And then finally two to three clinics in Portsoken Ward, with discussions underway for the end of January within the Guinness Trust Estate.</p> <p>BG continued that a further two vaccination clinics at the Apex bridging hotel will take place, so all residents, including those 12 to 15-year olds without a vaccination, will be contacted and booked into either pharmacy, local vaccination sites or to an outreach clinic.</p>
--	---

6.	<p>Data Intelligence</p> <p>Diana Divajeva (DD) set out the picture in City and Hackney in terms of new cases of COVID, noting that the general situation was looking better than what had been seen before Christmas. We've seen really steep hikes, then the new cases peaking at around the week of around Christmas and then after the New Years. Since then, a reduction has been seen in the number of cases, with Hackney going down week on starting the week ending 29th of December, while in the City of London in the most recent week, we've seen a slight increase in the new cases, but the situation is relatively stable in in the past two weeks.</p> <p>DD raised that changes may be seen in the coming weeks depending on people's behaviour testing, but overall, data suggests a slowing down in the rate of transmission of COVID-19 in in these last couple weeks. DD noted that in the rest of London rates were still increasing, if slowly, in a lot of the boroughs whilst we in in city and Hackney seem to have reached the peak in this week.</p> <p>DD set out that there were differences in incidence rates across ages, with the highest incidence rates we've seen amongst 20 to 39-year old's, the young working age population, even though it's really high right now, it has reduced significantly from even higher rates back in the mid December and the week around Christmas time.</p> <p>DD raised that the one trend which is not as positive was the incidence rate among the older population groups which had been low when the rates were high among the younger populations, but now seemed to have increased in the last couple of weeks. The rate in this population was not going down as much as we've seen for the younger population groups. This is worrying because older residents have a higher risk of being admitted to hospital with serious COVID and also higher mortality rates from COVID-19.</p> <p>DD set out how Hackney compares to other London boroughs, with the area placed 27th, so towards the bottom of the distribution versus another London boroughs.</p> <p>DD moved on to brief the LOCB about local testing rates, noting that we saw really high testing rates in the week just before Christmas, and since then testing rates have been going down and we've seen really large reduction in the most recent week ending 31st of December, just before the New Years. It could be a number of things that that are causing this, perhaps limited shortages of tests, or changes in behaviour, like people spending time with family and friends just running up to Christmas and New Year's.</p> <p>DD confirmed that the LOCB would be kept updated on the trends in the coming weeks. DD added that the guidance around testing had changed in the New Year, so you no longer need confirmatory PCR if you have a positive LFT test. That said, the proportion of tests coming back positive is really high right now, so around 36% in Hackney of all the tests that that's been done, 36% come back positive in comparison at the height of the wave of delta.</p> <p>DD noted that there had been a week on increase in people who are in Homerton hospital with COVID-19 since around the end of November. They might be that people were admitted for other causes, not necessarily COVID and since tested positive however. However, the good news is that we are not seeing an increase in serious conditions.</p>
----	---

	<p>Activity in Intensive Care Unit's (ICUs) has remained relatively stable and even has gone down in the most recent week.</p> <p>In terms of deaths have got from COVID we have not seen any in the most recent week however been seeing a number of deaths in in the weeks running up to Christmas, so we might see really high numbers of COVID-19 cases and increase in admissions and deaths in the coming weeks. That has always been the case with every single wave of COVID.</p>
7.	<p>Local Outbreak Control Plan Update</p> <p>Dr Sandra Husbands (SH) did not need to say anything specific about the LOMP but was happy to take questions.</p> <p>Matthew Knell (MK) will forward these on to the right people.</p>
8.	<p>Any Other Business and Reflections</p> <p>No further business was discussed.</p>
	<p>Next meeting: Thursday 10 February 2022</p>

FINANCE update for LOCB, 10 Feb 22

The total projected spend for the Test and Trace programme is currently standing at £5.007m. The committed spend for LBH and CoL currently stands at £4.780m and £0.227m respectively. The £3.247m Test and Trace allocation is fully utilised, the remaining £1.760m spend is to be funded via the Contained Outbreak Management Fund. A detailed breakdown of the projected spend for each organisation, including details of outbreaks plans agreed to date is shown in Appendix 1 below.

Appendix 1A - Finance Summary for Hackney

Item	Expenditure Type	Description	2020/21 LBH Cost	2021/22 LBH Cost	Total Cost	Comments
1	Staffing Resources	Programme Manager - assignment commenced in July 2020)	74,656	25,238	99,894	Assumed will be in post till the end of the FY. Cost should be split 80:20 with the CoL.

81	Staffing Resources	Funding from PH towards Civil Protection P Service Admin staff cost		13,000	13,000	Agreed in principal by Sandra Husbands, to be taken to Covid Ops, and HPB for official sign-off
82	Staffing Resources	Hackney Local Contact Tracing - Capacity and resourcing contingency plan for Oct 2021 to end Mar 2022		112,716	112,716	Agreed at HPB on 07/12/21
84	Staffing Resources	Cost of retainer for Covid-19 self-isolation accommodation		4,145	4,145	Agreed at HPB on 07/12/21
85	Staffing Resources	Funding Ongoing COVID LTS/MTU (Hackney Marshes) & Bus Depot		63,412	63,412	Agreed at HPB on 21/12/21
86	Staffing Resources	Funding the Health Protection Team Outreach Vehicles		88,575	88,575	Agreed at HPB on 21/12/21
			£1,426,150	£3,354,164	£4,780,314	

Appendix 1B - Finance Summary for City of London Corporation

Item	Expenditure Type	Description	20/21 CoL Cost	2021/22 CoL Cost	Total Cost	Comments
1	Staffing Resources	Programme Manager - assignment commenced in July 2020)	18,664	6,310	24,974	Assumed will be in post till the end of the FY. Cost should be split 80:20 with the CoL.
2	Staffing Resources	PH Consultant - CURRENTLY VACANT (1 year fixed term contract)	7,403	9,118	16,520	80:20 allocation (Chief Officer 3) - commences on 1st July 20 to 30th June 21.
28	Counselling/Training	Suicide in safeguarding training	-	200	200	Agreed at HPB 14 Dec 2020 split 80:20% Col
29	Communication Costs	City Matters for Covid 19 Wrap Around	16,000		16,000	First wraparound (Nov 20, Dec 20)
30	Communication Costs	City Matters for Covid 19 Second Wrap Around	16,000		16,000	This was agreed at HPB on 07th Dec 20 (Jan 21, Feb 21)
36	Communication Costs	City Matters for Covid 19 third Wrap Around	8,000	8,000	16,000	Agreed at HPB 11-Jan-2021 (Mar 21, Apr 21)
45	Behavioural Insights	Behavioural Insights to drive up local contact tracing success rates in City & Hackney	-	1,000	1,000	Agreed at HPB 15-Feb-2021. Split 80:20
46	Communication Costs	Additional communications funding to support vaccine take up	-		-	Agreed to fund £38k on 22nd Feb 21. Content to be approved by the Vaccination Steering Group. 80:20 allocation between LBH:CoL

47	Contact Tracing	Surge testing. To ensure routine genetic sequencing with subsample to monitor and suppress the spread of coronavirus and better understand new variants		10,012	10,012	Agreed at HPB 1 Mar 2021. One-off activity over 5 days (12 hour shifts). Only activated if there are cases of Variants of Concern (VOC). Should a VOC be found within Hackney and not the City, LB Hackney will fund the surge testing operation, and vice versa if a VOC is found in the City and not Hackney. Should a VOC be linked to postcodes across the City and Hackney boundaries, then the cost of surge testing will fall to both the City and LB Hackney, who then share the financial responsibility to fund all aspects of surge testing.
49	Staffing Resources	City and Hackney Public Health Intelligence Team (PHIT)		16,820	16,820	Agreed at HPB 8 Mar 2021. 80:20 split. In the absence of Sandra and Chris the paper will be tabled at Covid-19 Operational Working Group on Thursday instead for approval
52	Communication Costs	City Matters for Covid 19 fourth Wrap Around		16,000	16,000	Agreed at HPB 22-Mar-2021 (May 21, Jun 21)
55	Prevention and Promotion Project	Prevention and Promotion Fund for Better Mental Health 2021/22		9,531	9,531	Agreed at HPB 8th June 2021; Additional £4,142 agreed by Sandra on 27th September 21 via email.
56	Staffing Resources	Community Champions/Covid-19 Information Grants Communications Officer funding. The costs for a 1 FTE PO3 Communications Officer, for 6 months (July-December 2021)		5,685	5,685	Agreed at HPB 8th June 2021
57	Communication Costs	Continuation of City Matters wraparounds		16,000	16,000	Agreed at HPB 8th June 2021
69	Prevention and Promotion Project	Prevention and Promotion Project		30,000	30,000	Agreed at HPB 28th September, https://docs.google.com/document/d/1a5vcAsc95QPGWGI1y1MzzVjaGUUiZHiACjRBb84aQ2s/edit?usp=sharing
70	Communication Costs	Continuation of City Matters wraparounds		16,000	16,000	Agreed at HPB 28th September 2021
83	Communication Costs	Continuation of City Matters wraparounds		16,000	16,000	Agreed at HPB 18th January 2022
Total:			£66,066	£160,676	£226,742	

COVID-19 Local Outbreak Management Plan – Update to Local Outbreak Control Board

10 Feb 2022

Summary

This report provides an update against the Local Outbreak Management Plan and an overview of activities in following key areas:

- Testing
- Local contact tracing
- Outbreak management, including Outbreak Identification and Rapid Response (OIRR), incident management teams, outbreaks & exposures in settings
- Support for self-isolation
- Community engagement, including community champions
- Communications
- Finance - Test & trace and Contain Outbreak Management Fund (COMF) budgets
- Vaccinations will be updated separately

Testing: Symptomatic (PCR) Testing

- Since returning from the holiday period there was an initial decrease in demand for PCR testing as we started to see a downward trend in case numbers (as depicted by the graph below, with the red line being the positive rate of PCR tests, and the blue bar showing the number of PCR tests returned). However, in the week to 6 January '22, it should be noted that there was a slight increase in testing rates. We saw similar trends in the City, with an initial decrease in demand and then a slight increase in the latest week compared to the previous one. Positivity rates in the City of London have also decreased.
- We are continuing to operate 6 PCR testing sites throughout Hackney, and have 1 operating in the City of London.
- In the week ending 16 January, site utilisation for PCR sites in Hackney stood at 14.4% which was an 84% decrease from the previous week.

Testing: Asymptomatic (LFT or rapid) testing

- There has been a policy change as of 17 January in guidance for self-isolation. It is now possible to end self-isolation after 5 full days if you have 2 negative LFD tests taken on consecutive days. The self-isolation period remains 10 full days for those without negative results from 2 LFD tests taken a day apart.
- Despite this change, demand has continued to go down in the number of tests taken in both the City of London and Hackney. Previously, changes to guidance to self-isolation caused a spike in demand that put a strain on stock levels for all testing channels. However, more stock is now available as testing rates have declined. We are also starting to see a decrease in the number of positive cases. Similar to PCR testing rates, there was a slight increase in the number of tests taken in the latest week in Hackney. In the City, even in the latest week, testing rates have seen a slight decrease.
- In Hackney, there were some delays with the delivery of stock for LFD test kits from DHSC that negatively impacted our outreach commitments. DHSC advised that this was a problem for all boroughs. All outreach distribution to targeted areas were paused, temporarily, in order to preserve our stock, until the delivery was received. Normal service has been resumed.
- In an effort to ensure access to testing, we continue to offer assisted tests through the MTUs that are placed around the borough in different outreach locations. We have also developed new flyers advising on best alternative routes to testing eg. using tests at home, sourcing online or via pharmacies, in the event that outreach teams run out of stock.
- Overall, the levels of footfall have decreased at Hackney Asymptomatic Test Sites in addition to collections of test kits since the festive holiday period.
- In the City of London the footfall at the ATS has also dropped, with only 60 people getting tested in the latest week and 1300 test kits being collected. In the City, DHSC fulfilled their stock supply, meaning outreach commitments could continue as usual.

Testing over time:

Hackney & City residents and rate of tests returning a positive result

- Light blue = no. of PCR tests returned (week ending 6 January 26,094)
- Dark blue = no. of LFT tests returned (week ending 6 January 19,157)
- Red line = positive rate of tests for LFT and PCRs combined (week ending 6 January 14.3%, a 15.8% decrease from the previous week)

In the latest week, 14.3% of tests returned positive results: ▼15.8% from last week.

	Week's test rate	Week's tests	Change from previous week
City of London	26,674	2,593	▲11.6%
Hackney	15,173	42,657	▲21.4%

Local contact tracing (LCT) - UKHSA LA Trace Performance

Unprecedented COVID case levels (driven by Omicron) have caused major stress to the whole system, seeing trace performance decline across London Local Authorities and nationally.

City and Hackney Trace performance data for 16 Dec 2021 to 12 Jan 2022 (4 weeks data)

		CITY OF LONDON [^]			HACKNEY			LONDON
		Latest	11 Nov - 15 Dec	Baseline 2 Sep - 6 Oct	Latest	11 Nov - 15 Dec	Baseline 2 Sep - 6 Oct	Average
Total number of cases passed to local weekly		38	12	5	433	317	141	871
Overall completion rate (National & local)		80% ▼	84%	76%	73% ▼	85%	82%	74% ▼
% completed locally		42% ▲	39%	11%	51% ■	52%	33%	35% ▼
% completed within 24 hours		27% ▼	37%	33%	12% ▼	15%	11%	14% ▼
Median hours case completion (in the reporting periods)	- Lower	32 ▲	45	43	51 ▼	36	48	64 ▼
	- Higher	72 ■	71	57	71 ▼	49	58	85 ▼

Comparing 4 weeks reporting period ▲ Improvement ▼ Seeking improvement ■ No major change

[^] Results fluctuate significantly from one week to the next due to low number of cases for City of London

Local contact tracing (LCT)

- Now with a team of 5 dedicated call agents, LCT continues to balance demand and capacity with the following measures:
 - Prioritising Hackney cases from lower vaccination coverage areas
 - City cases is on the basis of last-in-first-out if exceeding LCT capacity at any point
 - Fewer call attempts - 2 in the same day; one in the next day as the last resort before flowing back cases to national team
- The reductions in self isolation period for fully vaccinated cases and the likely about-to-expire self isolation regulations on 24 Mar, requiring a strategic replanning of LCT in the coming weeks to ensure it's future proofed in the medium term. Considerations:
 - Allowing cases to pass to LA early from 24 hours with National to 8 or 4 hours
 - Team size and team supervision by dedicated CS resources
 - Use of LCT community outreach resources or not
 - Page 46 of 56
 - Part of Quality Assurance Framework nationally and to operationalise call quality monitoring

Weekly trend for Covid-19 cases

Hover over the bars to see numbers by week

It excludes the most recent 4 days of data which are subject to reporting delays

Total cases

Registered to 18 January 2022

63,008

61,046 in Hackney, 1,962 in the City

Weekly Trend

Week ending 18 January 2022

	Cases last week	Incidence last week per 100,000	Change from previous week
Hackney	1,985	706	▼29%
The City	63	648	▼51%

Note: R value for London temporarily removed following suspension of data by UKHSA.

Source: <https://hackney.gov.uk/coronavirus-data> dated 25 Jan 2022

Outbreak identification and rapid response 'OIRR'

- Continued efforts on high risk and complex settings - Homeless hostels/accommodations, and bridging hotels for asylum seekers to provide them with enhanced testing, tracing, infection prevention control and isolation support.
- Outbreaks in education settings still took up much of the Public Health Test&Trace Inbox efforts. Plan B work-from-home directive helped release some pressure on C&H Covid Response in general.
- iCERT was suspended from 24 Dec following an unprecedented rise in the number of common exposures. Feedback from London LA incl. C&H will hopefully get ICert reinstated soon.
- City EH Team has been more on routine environmental work and food inspection, as has Hackney's. Hence less attention to and fewer interventions, aside from high risk settings.

Support for self-isolation

Self-isolation support is integrated and offered through:

- The Covid-19 Helpline (Care Packs, advice, welfare calls, food referrals, grant support, incidental support)
- The LCT call team (can refer to Helpline and offer support when Helpline is closed)
- The Health Protection, Testing and Logistics team (Care Packs assembly and distribution, promotion of isolation support during mobile testing/outreach)
- The Food Consortia (deliver emergency food referrals during self-isolation, Care Packs)
- Community Champions (can request Care Packs and make referrals for isolation support)

Accommodation for e.g. rough sleepers who test positive for Covid-19, hospital/prison discharge, DV. Exceptional cases, often higher needs. On incidental basis only. Collaboration with rough sleepers team, Housing, Turning Point and other partners/teams.

January 2022: strong increase in food referrals for the Orthodox Jewish community in North East and North West Hackney. Possibly due to delayed impact of Omicron linked with word-of-mouth sharing of information about the support available.

Support for self-isolation

Isolation support in numbers:

Food support during self-isolation

- December: 60 food referrals, of which 3 Kosher. Total supporting 206 people in households
- January 2022 (till 21/01/2022): **155** referrals of which 103 Kosher referrals. Total supporting 713 people in households

Care Packages (to households)

- December: 17 referrals, 40 delivered
- January 2022 (to date, 21/1/2022): 15 referrals, 40 delivered

Care Packages can also be distributed alongside food deliveries via the food consortia

Community engagement: The Community Champions and COVID-19 Information Grants Programme

Community Champions Programme

In January we held a Peer Support session for Community Champions. The focus of this session has been on features, benefits and functionality of the 'Better Conversations Tool'. The session builds on the Making Every Contact Count (MECC) training which Champions have received and includes a guided tour and demonstration of how you can use the tool to source and signpost to credible local support services. Another Peer Support session is planned for 3rd February.

Community Champions from three VCS organisations have been recruited to take part in a MECC train the trainer session. They will be taught the content of the MECC training course and given an introduction on how to deliver MECC training to their own volunteers or staff members. The Community Champions Programme Manager, based at Volunteer Centre Hackney is also taking part in the train the trainer session. This will increase our capacity locally to deliver MECC training.

Local Councillors are being encouraged to sign-up as a Community Champions. A briefing has been shared among Councillors promoting the opportunity.

Community engagement: The Community Champions and COVID-19 Information Grants Programme

COVID-19 Information Grants

All COVID-19 Information Grant activity* will finish on 31st January 2022. The grant funded organisations will be completing their final reporting by 31st March 2022.

Hackney has been selected by the Department for Levelling Up Housing and Communities to become part of the Community Vaccine Champions programme. An additional £185,000 has been allocated on top of previous Ministry of Housing, Communities and Local Government funding that was secured to enhance our Community Champions/COVID-19 Information Grants programme this time last year. This funding will build on the success of the programme, with a focus on addressing vaccine uptake inequity.

A Co-design session is planned for 31st January to explore ideas around how this funding should be used to address vaccine uptake inequity. All VCS organisations who were funded over the last year as part of the COVID-19 Information Grants Programme/Vaccine grants have been invited to participate.

*This doesn't include the vaccine outreach grants which run until March 31st 2022.

Communications: City of London

A summary of the output focus and ongoing regular communications is included in [Appendix 1 - City of London Communications update for LOCB, 10 Feb 22](#)

Targeted communications: News Releases

1. New [Covid-19 recovery grant scheme](#) for Square Mile SMEs opens to applications
2. Covid pop-up vaccination centre returns to [Liverpool Street Station](#)
3. City Corporation responds to Prime Minister's easing of [lockdown restrictions](#)
4. City Corporation to launch new [Covid-19 recovery grant scheme](#) for Square Mile SMEs.
5. [Covid pop-up vaccination centre](#) comes to Liverpool Street Station
6. Call for City residents and workers to [get jabbed](#)
7. City park could host memorial for [Covid heroes](#)

Two four-page [City Matters wraparound](#) targeted at City residents and workers

Three articles by Policy Chair Catherine McGuinness published in City AM and City Matters

- [Catherine McGuinness: We must all get boosted to help pass Omicron peak](#)
- [Getting boosted is a small contribution to protect our dearest Square Mile](#)
- [London has bounced back before and it will do again as Covid-19 rules are dropped](#)

Communications: City of London cont.

The [joint letters](#) from the Lord Mayor and Policy Chair highlighted:

- The COVID vaccination campaign and booster campaign
- Latest guidance on face coverings in crowded places, self-isolation rules
- Getting tested
- Support available for City residents

Targeted Internal Communications

We organised internal updates for Members that went out in the form of an email from the Director of Communications on:

- 5 January: Vaccination and testing provision
- 17 January: COVID grant scheme announcement
- 24 January: COVID grant scheme update and end of Plan B restrictions
- The intranet has a dedicated COVID sections on the homepage of the intranet COVID information and guidance including information on vaccinations and testing
- Two articles promoting the vaccine pop-up centre at Liverpool Street and a weekly all-staff email from the Town Clerk regarding the changing COVID guidance which are repeated on the intranet site in the eLeader – a fortnightly all staff news bulletin
- Screensavers continue to be updated with the latest Government guidance

Communications: London Borough of Hackney

A summary of the output focus and ongoing regular communications is included in [Appendix 2 - London Borough of Hackney Communications update for LOCB, 10 Feb 22](#)

Omicron comms

- Daily social media comms continues across Facebook, Instagram and Twitter promoting vaccination sites, benefits of vaccination, testing and latest government regulations. Visits to our Covid-19 vaccination webpage went from 11,318 visits in November to 43,574 in December. Our webpage visits to Covid-19 support pages also increased from 11,562 in November to 35,543 in December.
- 4 steps for Covid-19 wellbeing leaflets and new leaflets on LFT and PCR testing created for distribution by testing team.
- Promotion of self-isolation support available in City and Hackney.

Jewish community and population in north of the borough

- January dates for Spring Hill pop-up promoted in Heimishe newsheet.
- 4 steps for Covid-19 wellbeing, promoting safe behaviours, promote in 6 consecutive editions of Hemishe from late December.

Young people

- Promotion of John Scott Health Centre sessions on Saturday 15 and 22 January for 12-15 year olds promoted on social media, Young Hackney website and social media, in Hackney Council newsletter and in Schools Bulletin. Requests were made for GP Practices to share via text.

Pregnant women

- ^{Page 54 of 56} London-wide comms campaign continues development with initial campaign set for testing with Focus groups in mid February.

Communications: London Borough of Hackney cont.

Targeted communications

Health inclusion groups - homeless, sex workers and refugees

- Weekly email sent to cohort stakeholder and organisations to share January pop-up dates with target audiences.

Hackney Cllrs

- Communications and Engagement toolkit signed off and shared on 25 January. Cllrs will receive update emails every two weeks to support their localised resident engagement activities.

City of London members

- Hackney Communications and Engagement toolkit shared with CoL colleagues to see if they can support similar offer with their members, outcome will be updated in next report.

Liverpool Street Station vaccination pop-ups

- Trailer pop-up and Boots Thursday vaccination clinic pop-up promoted on Hackney website and through social media, targeting Hackney residents who work in the area.

Grant-funded community group support

- 5,000 vaccination and 2,500 4 steps for Covid-19 wellbeing leaflets printed and sent to groups for distribution in their
 Page 55 of 56
 Outreach work Comms assets in Google drive for groups continues to be updated.

Finance Update:

- The total projected spend for the Test and Trace Programme currently stands at **£5.007m**, which is being funded via both the Test & Trace and COMF grants received from DHSC
- The committed spend for LBH and CoL currently stands at **£4.780m** and **£0.227m** respectively
- The Test and Trace grant allocation is being fully utilised, funding **£3.247m** of the spend
- The Contain Outbreak Management Fund is funding the additional **£1.760m** of spend
- The COMF is funding further spend on Health protection, communications, engagement insights and research, supporting local communities and Health improvements.
- A further detailed breakdown of the projected spend for each organization, including details of outbreaks plans agreed to date is included in appendix 3 - [LOCP update for LOCB February 10 - Finance](#)
