### **1. APOLOGIES**

Apologies were received from the Deputy Chairman Andrew Lentin, Alderman Tim Hailes and Helen Fentimen.

### **2. MEMBERS' DECLARATIONS UNDER THE CODE OF CONDUCT IN RESPECT OF ITEMS ON THE AGENDA**

There were no declarations received.

### **3. MINUTES**

The Committee considered the draft public minutes and non-public summary of the previous meeting of the Strategic Planning and Performance Committee held on the 5<sup>th</sup> of May 2022.

**RESOLVED-** The public minutes of the previous meeting of the Strategic Planning and Performance Committee held on the 5<sup>th</sup> of May 2022 be approved as an accurate record.

4. **PUBLIC OUTSTANDING REFERENCES**

The Committee received a joint report of the Town Clerk and Commissioner on the public actions from the previous meeting of the Committee.

**RESOLVED-** That the report be noted.

5. **HMICFRS UPDATE**

The Committee received a report of the Commissioner which provided the HMICFRS Inspections Update.

The Police Authority Board Chair requested further information on when the Force would be reporting on issues relating to vetting to the Professional Standards and Integrity Committee. Officers highlighted that the issues regarding the vetting of prospective staff was a national issue which had not been highlighted in the City of London Police but that a report would be prepared for the Professional Standards and Integrity Committee in November. It was added that, whilst the report had not been finalised, early indications from the Serious and Organised Crime Inspection were positive.

Replying to a Member's query Officers provided an update on the actions arising from the HMICFRS's recommendations noting that the direction of travel on most actions was positive. In addition, the Committee were informed of continuing issues regarding the provision of Appropriate Adult services.

Officers confirmed, in response to the Committee's discussion, that a continuing assessment process was in place to ensure ongoing improvement.

Following a request from the Chair it was confirmed that the deep dive on child protection services would be presented to Members in 2023.

**RESOLVED-** That the report be noted.

6. **CITY OF LONDON POLICE - POLICING PLAN 2022-25- ANNUAL REFRESH 2023-24**

The Committee received a report of the Commissioner on the City of London Policing Plan 2022-25 Annual Refresh 2023-24.

The Chair highlighted the Policing Plan workshop for Members which was due to be held before the Police Authority Board meeting on the 12<sup>th</sup> of December and requested that community feedback be incorporated into the plan for this session. In addition, the chair requested that a senior member of the Community and Children's Services Department attend the next meeting of the Committee to report on the cooperation

between the Corporation and Force, adding that the proper constitution of the Crime and disorder Scrutiny Committee was vital for Member oversight of this work.

In response to a Member's query the engagement plan for the policing plan was outlined.

Replying to a comment from the Chair it was agreed that a rationalisation of the performance measures and better articulation of the proactive engagement on trust and confidence in the Force was required in the Policing Plan.

The Town Clerk confirmed that an invitation to the Policing Plan Workshop would be forwarded to those Members of the Police Authority Board's Committees that did not also serve on the Board.

**RESOLVED-** That the report be noted.

**7. Q2 POLICING PLAN PERFORMANCE 22-23 PLUS APPENDED PERFORMANCE FRAMEWORK**

The Committee received a report of the Commissioner on the Q2 Policing Plan Performance 22-23 and an appended Performance Framework. The Chair commended Officers for the response to the incident at Bishopsgate and commented on the importance of the public seeing that crimes are responded to appropriately.

The Chair requested that grading criteria and analysis be added to this report where 'no grading' was shown when it is next presented to committee.

In response to a Member's query Officers explained the established processes for ensuring appropriate reaction to the reported data but noted that the relatively low numbers in the City meant that percentage changes were not always illustrative of wider trends.

A Member expressed concern that the Force's diversity statistics were not trending in a positive direction.

**RESOLVED-** That the report be noted.

**8. QUARTERLY COMMUNITY ENGAGEMENT UPDATE**

The Committee received a report of the Commissioner which provided the Quarterly Community Engagement Update.

The Chair commented that it was vital to ensure there was the required collaboration between the City of London Corporation and Police adding that he would be writing to the Town Clerk requesting the urgent work on the Crime and Disorder Scrutiny Committee and the Safer City Partnership Board. Officers confirmed that work was being undertaken to agree an updated terms of reference for the Crime and Disorder Scrutiny Committee to facilitate correct Member oversight of the Safer City Partnership Board which, it was added, would be meeting on at least a quarterly basis, with the next meeting due on the 30<sup>th</sup> November.

Replying to a Member's question Officers explained the methodology used to achieve the appropriate balance between daytime and night policing concerns.

The anti-social behaviour data was highlighted by the Chair of the Police Authority Board and requested further information on the specifics of policing in the Barbican. It was confirmed that Officers would report back to a future meeting of the Committee to provide this detail. It was noted that the Barbican Estate had introduced its own reporting system which may not align with formal reporting of incidents to the police.

Following a Member's enquiry it was confirmed that the Force was engaged with the Business Improvement Districts in the City of London.

**RESOLVED-** That the report be noted.

9. **VICTIM SERVICES UPDATE (DEEP DIVE)**

The Committee received a report of the Commissioner which provided the Deep Dive on Victim Services Update.

In response a question from the Chair Officers undertook to explore how best to record victim services relating to Action Fraud noting the importance of maintaining a distinction between the local and national policing work. It was noted this was reported to the Economic and Cyber Crime Committee.

Following a Member's comment Officers confirmed that, given the relatively low levels within the City of London, the highest level of service should be provided to victims of domestic abuse.

The Chair requested that short update be provided to the next meeting of the Committee on the progress against the Policing Plan measures with regard to victim services.

**RESOLVED-** That the report be noted.

10. **UPDATE ON VIOLENCE AGAINST WOMEN AND GIRLS (VAWG) ACTIVITY**

The Committee received a report of the Commissioner which provided an update on Violence against Women and Girls Activity.

The Chair highlighted that he and the Chair of the Police Authority Board would be attending the operation Reframe the Night operation on the 3<sup>rd</sup> of December.

Following a query from the Chair on the engagement with women and girls from minority groups the Officers explained the work that was being undertaken to especially engage with these groups noting that this had proven to be a difficult issue for many forces. It was agreed that an update on this work would be provided to the Committee when appropriate.

Officers confirmed, in response to the Chair's enquiry it was confirmed that the Year 2 Plan would be presented to the Committee in February 2023.

In response to a Member's concern it was confirmed that the Professional Standards and Integrity Committee would be the appropriate body to consider concerns regarding culture within the Force.

**RESOLVED-** That the report be noted.

11. **QUESTIONS ON MATTERS RELATING TO THE WORK OF THE COMMITTEE**

There were no questions in the public session.

12. **ANY OTHER BUSINESS THAT THE CHAIR CONSIDERS URGENT**

There was no urgent business considered in the public session.

13. **NON-PUBLIC MINUTES**

The Committee considered the draft non-public minutes of the previous meeting of the Strategic Planning and Performance Committee held on the 5<sup>th</sup> of May 2022.

**Resolved-** The non-public minutes of the previous meeting of the Strategic Planning and Performance Committee held on the 5<sup>th</sup> of May 2022 be approved as accurate record.

14. **QUESTIONS ON MATTERS RELATING TO THE WORK OF THE COMMITTEE**

There were no public questions.

15. **ANY OTHER BUSINESS THAT THE CHAIR CONSIDERS URGENT AND WHICH THE COMMITTEE AGREES SHOULD BE CONSIDERED WHILST THE PUBLIC ARE EXCLUDED**

There was no non-public urgent business considered.

**The meeting ended at 11.30 am**

## Summary

This report provides a performance assessment against the measures in the Policing Plan for Q3 2022-23 (1<sup>st</sup> October to 31<sup>st</sup> December 2022). This report is provided to Members in a new format (the Policing Plan performance framework) which includes charts to help visualise the data underpinning each measure or metric and also to help visualise the longer-term trends compared to the current quarter.

Appendix A provides a detailed assessment against each measure, points 6, 7 & 8 are tables that outline the grading assessment criteria. Table 3 is a summary of Appendix A.

## Recommendation

Members are asked to:

- Note the report.

## Main Report

### Background

1. This report presents Force performance against the measures published in the Policing Plan.
2. The Policing Plan 2022-25 has three operational priorities:
  - a. Keep those who live, work and visit the City safe and feeling safe
  - b. Protect the UK from the threat of economic and cybercrime

- c. Put the victim at the heart of everything we do.
3. The Policing Plan has three Organisational priorities:
    - a. Our People
    - b. Our Resources
    - c. Efficiency & Effectiveness
  4. Each of these operational and organisational priorities have several measures and metrics which are set out in this report alongside an assessment of where performance is in Q3.
  5. The data used to compile this report is accurate as of the last day of the quarter – 31 December 2022. The Force is currently building on technological capabilities and systems via the integration of Microsoft PowerBI as a data visualisation tool to display live and up-to-date data. The aim is that, in the future, we will have a centralised understanding of demand in terms of both our national and local responsibilities, in order to be able to effectively project and scenario-plan future demand. In order to do this, the PowerBI project aims to ensure we can use real time data linked up with macroeconomic data (both open source and data collected by the City of London Corporation, e.g. on footfall, licenses, etc.). As power BI is new to the Force, it takes time to build up the technical resource needed, and a prioritised approach is being undertaken to develop reporting against force risk areas.
  6. An overall snapshot of performance assessment by each measure in the Policing Plan is summarised in Table 1 below. The grading assessment used aligns with HMICFRS inspections grading system, this is not to suggest that those gradings would be used by the HMICFRS but gives us a common language when describing performance. It can be described as follows:

Table 1 – Grading Assessment Criteria

| <b>Grade</b>         | <b>Description</b>  |
|----------------------|---|
| OUTSTANDING          | Consistently exceeds in its performance   |
| GOOD                 | Consistently meets performance levels expected  |
| ADEQUATE             | Performance is met most of the time, but it is not consistent, plans are in place to improve and there is good confidence in them |
| REQUIRES IMPROVEMENT | Performance is not met most of the time. Plans are in place to improve but there is less confidence around these plans.           |
| INADEQUATE           | Performance is consistently not met and/or plans to improve are unclear   |
| NO GRADING           | Area under development with the business or not enough data or context to yet determine performance                               |

7. As with HMICFRS, there are a number of factors that go into making a performance assessment which is not always based purely on the data. For example, some performance measures are brand new measures and there is no data beyond Q3

of this year to compare it. Factors that go into the grading system, therefore, are as follows:

Table 2 – Grading Factors

|                  |  |
|------------------|--|
| Data and trends  | Where available, this will help us understand the long-term trends, and whether performance is stable, declining or improving. Statistical Process Control methodology is used to identify early warnings in positive or negative performance trends, as well as statistical exceptions in the data. Data will be looked at over 5 years where possible, to gain a strategic understanding of performance. |
| Benchmarking     | Where benchmarking is available and understood, this will be used to inform the assessment.  |
| Business context | This is qualitative information supplied by the business, which can be supported by data. This information helps to understand if plans are in place and what any mitigation measures are.   |
| Measures         | Some metrics within a performance measure carry more weight than others in the assessment, because they carry more risk or directly relate to the measure.   |

8. The Policing Plan has seen a transition to new performance measures. There has also been a new way of presenting and grading these measures using feedback from the City of London Police Authority. City of London Police are in the process of benchmarking some of these measures and we aim to develop this plan further and ask for patience as this continues to evolve. It should be noted that gradings were made in accordance with the information presented in table 1 and 2. Where there are gaps in data currently, these have been assigned a 'No Grading' rating until performance can be better understood.

## **Crime and ASB Overview**

### 9. Executive Summary

#### All crime

- 19/20 benchmark year comparisons show a -17% (-1154 by volume) decrease compared to the national picture which shows a +6% increase.

#### Violent crime

- 19/20 benchmark year comparisons show a -3% (-34 by volume) decrease. This has significantly improved over the past 6 months and good results were seen over the forecasted higher demand period in this area (Oct – Dec) where the anticipated higher levels in violent crime predicted were not seen.

#### Neighbourhood crime

- Compared to the benchmark year there is a 38% increase (reduced from 70% last reporting quarter). There remains intense policing and partner response activity, which has resulted in a sharp downward trend in volumes between September – December, more in line with volumes seen in the benchmark period.

#### ASB

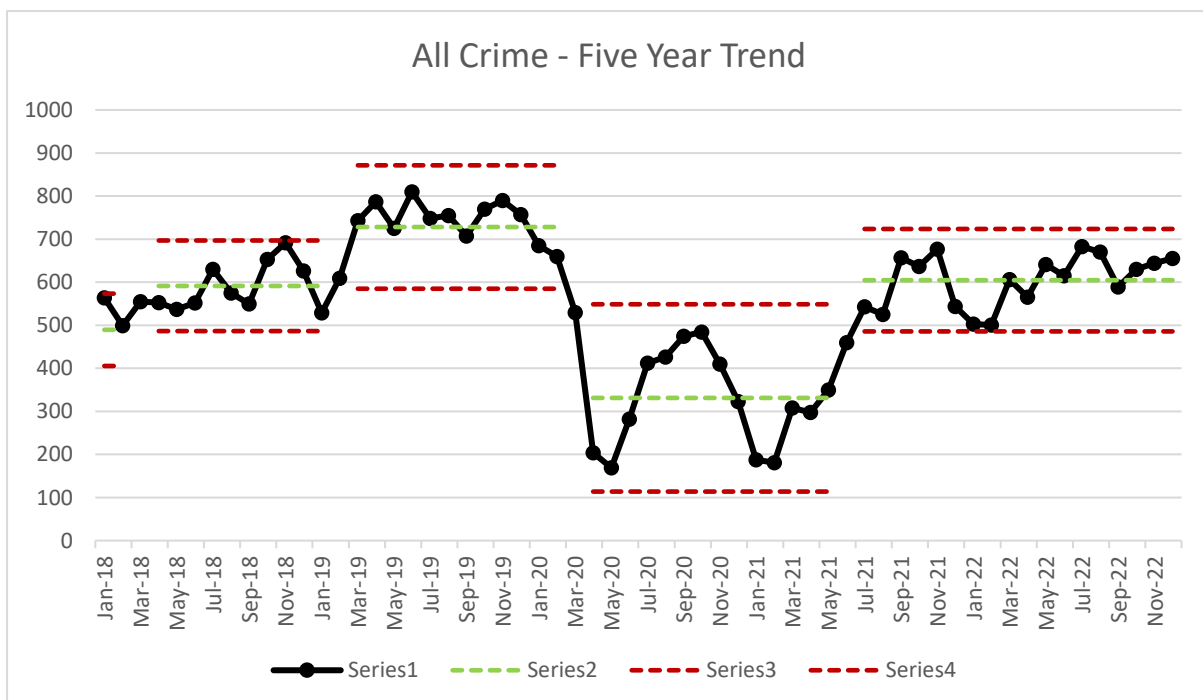

- Compared to the benchmark year, ASB incidents show a -23% (260 by volume) decrease.

#### Positive Outcome rates

- CoLP continue to maintain very high levels of performance for the positive outcome rate, with the highest levels nationally at 17%

10. To set the context of the crime landscape for the City of London Police, an overview of; All Crime, Violent crime and Neighbourhood crime is provided below. This is accompanied by a summary of the picture surrounding positive outcomes. Performance comparisons are made for the current 12 months (Jan 21 – Dec 21 vs Jan 22 – Dec 22) and also to the benchmark year (Q1-Q3 19/20 vs Q1-Q3 22/23). Benchmark comparisons are made because it was decided nationally this would be a better comparison for police forces to understand performance, due to the significant impact on crime levels during the pandemic period. The City of London Police appears to have experienced a much greater impact from Covid, than can be seen in the national picture. This is still reflected in 12 month comparisons, with rates showing as higher than elsewhere, and at this time is not comparable with other forces. Overall, the CoLP are still showing as recording less crime when compared to the 19/20 baseline, whereas the National Picture is showing an increase against the baseline, this is seen as a positive.

Graph 1 – All Crime Trend

11. All Crime is showing a 12-month comparison (Jan 21 – Dec 21 vs Jan 22 – Dec 22) increase of +36% (+1913). The increase looks pronounced as it is compared to key periods of lockdown which saw significantly reduced levels of crime. Therefore comparisons are also made to the benchmark year (2019/20). Benchmark comparisons show a -17% (-1154) decrease. This is seen as a positive and does not follow the national trend where nationally, volumes are higher than the benchmark year by approximately +6%.

12. The current system of performance for all crime starts from July 21 as crime levels returned to pre-pandemic levels. Volumes of crime are expected to fall between 486 – 723 crimes a month with an average of 64. No statistical exceptions have been seen in this system of performance with volumes continuing to fall above and below the average in line with expected variation.

Graph 2 – Violent Crime Trend

13. Violent Crime consists of the following offence types; Homicide, Violence with Injury, Violence without Injury, Stalking and Harassment, Rape and Other Sexual Offences. Violent crime is showing a 12-month comparison (Jan 21 – Dec 21 vs Jan 22 – Dec 22) increase of +25% (+257), with the rate of increase slowing. Levels were forecasted to increase over the months of Oct, November and December, but for the first time in 5 years this trend was not seen for the City of London, reflecting in a lower Q3 period. With more control seen in Violent crime offences, this area has moved back in line with the overall crime trend and is showing a decrease against the baseline year (-3%, -34 offences).

### Operational Activity

CoLP continues to run monthly partnership supported operations (Op Reframe) to make the night time economy hours safe for all. A significant focus has also been on violence against women and girls and safety particularly within the night time economy. Operations have covered areas and training around spiking and the importance of being an active bystander. Going forward CoLP in partnership with Safer Business Network plan to implement a radio link as part of a trial which will be evaluated. This link will see NTE venues connected with CoLP force control and venue to venue. The ambition of this initiative is to create a more cohesive approach to public safety whilst making best use of resources including CCTV.

CoLP have during this reporting period initiated a number of crime prevention roadshow events. These events see CoLP and partners deliver briefings within our business community venues with a focus on both personal safety and safety of property. This will be continued throughout Quarter 4.

During the Christmas Policing Operation (Op Tinsel) CoLP focused on harm reduction in key locations across the City during both the festive and world cup period. This operation saw 227 deployments with 893 people engaged with and offered safety advice. There were 19 arrests made, 31 stop and searches resulting in positive outcomes 22 times. Harm offences were reduced by a total of 52% compared to the same period in 2021. (GBH -83% Serious sexual assaults -60% allegations of drink spiking -36%)

Graph 3 – Neighbourhood Crime Trend

14. Neighbourhood Crime consists of the following offence types; Burglary Residential, Robbery Personal, Vehicle Crime and Theft from the Person. Neighbourhood crime is showing a 12-month comparison (Jan 21 – Dec 21 vs Jan 22 – Dec 22) increase of +80% (+730). Neighbourhood Crime has seen significant increases in pre-pandemic crimes, predominantly for Theft from the Person offences since March 2022 which is what has driven volumes into exception for July 2022, albeit these are showing improved levels over the past quarter, hence the overall lower volumes seen for the past 4 months in Neighbourhood crime. When compared to the benchmark year there is a 38% increase in Neighbourhood crime.

#### Operation Activity

15. CoLP has embedded a prevention hub with support of partners to impact the reduction of neighbourhood and violent crimes. In support of the SARA process a partnership and prevention hub is now a key focal point to crime prevention and/or the development of plans to tackle emerging or current crime types.

Partnership support is drawn from business improvement districts (BID's) safe and secure portfolios. Business Crime Reduction Partnerships (BCRP's) are close working with the security industry to create a cohesive approach to community safety. CoLP have recently implemented a number of platforms that permit the lawful sharing of intelligence and information in support of crime reduction. CoLP have during this reporting period conducted a number of pro-active operations supported by partner forces to address acquisitive crime associated with both the day and night time economies. These operations have yielded circa 20 arrests for acquisitive crime offences and recovered in excess of 120 suspected stolen items, with the majority being mobile phones. In line with national crime prevention and deterrence strategies CoLP have delivered several joint operations with our security industry partners, focused on reducing neighbourhood crimes through visibility and prevention activities. We plan to continue these during Q4 as part of wider safer business actions days supported by various partners including BID's / BCRP and security industry.

Graph 4 – Theft from the Person Offences

16. Theft from the Person crime is showing a 12-month comparison (Jan 21 – Dec 21 vs Jan 22 – Dec 22) increase of +111% (+700). There has been a significant drop for September 22 levels onwards, with the volume returning below the average, and more in line with the benchmark year volumes. When compared to the benchmark year, there is a 59% increase (+412 offences).

## Graph 6 – Vehicle Offences

17. Vehicle crime is made up of the following crime types; Vehicle Interference, Theft from Motor Vehicle and Theft of Motor Vehicle. Vehicle crime is showing a 12-month comparison (Jan 21 – Dec 21 vs Jan 22 – Dec 22) increase of +19% (+32), noting this is comparing against the pandemic period with reduced offending. The majority of crime in this area is Theft from Motor Vehicle Offences with 144 in the current 12 months. When compared to the benchmark period, there is an -11% (-18) reduction in Vehicle crimes.

## Graph 7 – Robbery – Personal Offences

18. Robbery - Personal crime is showing a 12-month comparison (Jan 21 – Dec 21 vs Jan 22 – Dec 22) increase of +13% (+12). These volumes are also lower than the 19/20 benchmark year with 22 less crimes (April 19 – Dec 20 vs Apr 22 – Dec 22). Where there are gaps included on the graph this demonstrates that there were no crimes that were recorded that month for this category.

**Graph 8 – Burglary - Residential Offences**

19. Burglary - Residential crime is showing a 12-month comparison (Jan 21 – Dec 21 vs Jan 22 – Dec 22) decrease of -50% (-11). These volumes are also lower than the 19/20 benchmark year with 9 less crimes (-45%) (April 19 – Dec 20 vs Apr 22 – Dec 22). Where there are gaps included on the graph this demonstrates that there were no crimes that were recorded in that month for this category.

**Graph 9 – ASB incidents**

20. Anti-Social Behaviour incidents are showing a long-term downward trend which is reflected nationally. ASB is showing a 12-month comparison (Jan 21 – Dec 21 vs Jan 22 – Dec 22) decrease of -8% (-104). When compared to the benchmark year ASB incidents are seeing a -23% (-260) decrease. \*Of note ASB incidents can be

reported from the incident system or the crime system, these figures have been provided from the incident system.

### Operational Activity

21. A high percentage of ASB within the force area relates to those within the homeless community. This is often associated with acts of begging and other behaviours deemed anti-social. In order to address this, CoLP make use of Community Protection Warnings (CPW's) and Community Protection Notices (CPN's) as part of Op Luscombe. This delivers a staged approach to offenders responsible for ASB whilst offering support and diversion through various supporting partners. As part of our sector model the CoL ASB co-ordinator is co-located for a % of their time within the partnership and prevention hub. This supports shared awareness and a co-ordinated approach to repeat issues of ASB across the City. CoL have created an ASB Task & Action group following ASB complaints across the City, taking a partnership problem solving approach to tackle ASB.

Graph 10 – 12 month rolling positive outcome rate

22. Positive Outcomes are based on outcome codes 1-4 and 6-8 which include outcomes such as charged/summons, out of court disposals, taken into consideration etc. These are also seen as a sign of proactivity in a police force. The positive outcome rate is calculated based on the amount of crime recorded per month, divided by the number of positive outcomes recorded in that month. Therefore, the rate can be impacted by the rise and fall in crime volumes. This can be seen with the higher positive outcome rate during the pandemic period and falling rate in recent months, with the increase back to higher crime volumes. Overall, the City of London Police have very high levels of performance for the positive outcome rate with the highest levels nationally. This has been consistent

over the longer term and is not expected to have changed recently. In summary the current 12 months is showing a positive outcome rate of 17%.

25. Appendix A breaks down further assessment of the performance measures by metric and provides some accompanying data visualisation and strategic narrative against each line.

## **Corporate & Strategic Implications**

26. Strategic implications – The City of London Police Authority’s Policing Plan is a critical and central strategy document to the work of the entire Force. The performance measures set out in this report are vital in ensuring that the Force is on track to achieve the ambitions set out in the Policing Plan 2022-25, and as part of each Annual Report.

27. Financial implications – none

28. Resource implications – none

29. Legal implications – none

30. Risk implications – The Force’s Risk Register is now in line with the Policing Plan structure showing operational risks associated with operational priorities and organisational risks associated with organisational priorities. Failure to meet performance targets for each area may contribute to an increase in the likelihood score of the Force Risk Register.

31. Equalities implications – Performance measures particularly within the organisational priority of ‘Our People’ contribute positively to ensure the Force complies with the Public Sector Equality Duty 2010 and the Equality Act.

32. Climate implications – Performance measures particularly within the organisational priority of ‘Our Resources’ contribute positively to the City Corporation’s Climate Action Strategy.

33. Security implications – There are no specific security implications to flag in this report but clearly a number of the metrics of the Policing Plan have general security implications.

## **Conclusion**

34. This report sets out performance assessment of the refreshed Policing Plan as of Q3 (1<sup>st</sup> Oct – 31<sup>st</sup> Dec 2022). To help make these assessments, the Force has used new technological capabilities and systems via the integration of Microsoft PowerBI as a data visualisation tool to display live and up-to-date data on some of the areas in the policing plan. Detailed assessments on each metric can be found in Appendix A.

There has been, however, significant increases in disruption claims made against strategic vulnerabilities. Strategic vulnerability claims refer to executive action that is conducted to tackle and infiltrate SOC as a larger spectrum, rather than simply groups defined as OCGs. This includes the deliverance of cease and desist orders against nominals involved in SOC, and cyber training sessions delivered to companies that prevents them from being attacked.  | SPECIALIST OPERATIONS | ADEQUATE    | ADEQUATE    | ADEQUATE    |   |   |                |          |      |      |

Disruption claims against OCGs are not claimed in a consistent manner as not all law enforcement action has a discernible impact on the OCG. Disruptions are not a reflection of efforts made by law enforcement but are a reflection of impact.  |                       |             |             |             |   |   |                |          |      |      |
|   |   | Number of Minor Disruptions  | 1                                  | 0           | 2           |  | Whilst disruption numbers are low, this is due to the definition of this metric in that there are very few OCG City Based groups and that work in this area focuses on risk and strategic vulnerabilities in the wider Serious and Organised spectrum. Overall performance in this area is considered to be good as the wider work meets performance levels expected, performance against City Based OCGs remains adequate but is not reflective of wider work. Proposals in the policing plan are being made to bring this measure in line with strategic focus and reporting for the Policing plan refresh.  |                       |             |             |             |   |   |                |          |      |      |

The reach of attendees increased in number compared to previous quarters due to one online event having 500 attendees as part of the Sainsbury's annual security week. Multiple act operational events were completed alongside bespoke tabletop exercise. Operation tabletop training followed a staged approach from observed suspicious behaviour escalating to a suspicious package and finally a Marauding Terrorist Attack (MTA) with key lessons taken from the exercise. Another exercise focused on familiarisation with security policies and procedures, familiarisation with incident management processes, responding to a major incident, developing business resilience, and identifying any current gaps. CTSA continue to work with venues in developing live testing such as the operations outlines and feedback gathered post these events to the team to continue to improve. | SPECIALIST OPERATIONS | GOOD        | GOOD        | GOOD        |   |   |                |          |      |      |

The NPST is made up of officers and staff from CoLP, therefore an assessor from Avon and Somerset Constabulary, Police Scotland, Metropolitan Police and Ministry of Defence were part of this process to provide an objective view of CoLP's performance. A self-assessment questionnaire was completed by force coordinator prior to the visit, and the answers were discussed on the day. The assessors reviewed CoLP's Deployment Information Plans (DIPs) and the Hostile Activity Projections (HAPs), and observed four deployments. They made use of 'friendly hostiles' – trained Disruptive Effects Officers who replicated hostile activity to help assess the effectiveness of the deployments.  | LOCAL POLICING        | GOOD        | GOOD        | GOOD        |   |   |                |          |      |      |

The force has reduced its Project Servator capability over the past year, and currently have two full-time teams. Having two teams ensures there are daily Project Servator deployments and that there is capacity for collaborative working opportunities with other police forces. Deployments are predominantly carried out by officers in the full time role on the two teams who are self-sufficient in managing their deployments. CoLP is extremely well-positioned, in terms of resources, to deliver Project Servator and DE effectively. Officers from all ranks have visited CoLP to see how the tactic is deployed. This approach ensures the continued sharing of information and skills and benefits the ongoing development of the team.  |                       |             |             |             |   |   |                |          |      |      |

This is in line with the results shown from the Telephone Crime Survey for England and Wales (TCSEW). A high % of ASB within the force area is connected with those within the homeless community. This is often associated with acts of begging and other behaviours deemed anti-social. In order to address, CoLP make use of CPW's and CPN's as part of Op Luscombe. This delivers a staged approach to offenders responsible for ASB whilst offering support / diversion through various supporting partners. As part of our sector model the CoLP ASB co-ordinator is co-located for a % of their time within the partnership and prevention hub. This supports shared awareness and a co-ordinated approach to repeat issues of ASB across the City. Col have created an ASB Task & Action group following ASB complaints across the City, taking a partnership problem solving approach to tackle ASB. | LOCAL POLICING | ADEQUATE | GOOD | GOOD |

The CoLP crime levels appear to have been more impacted than the overall national picture, therefore the rate of increase when comparing to the pandemic period will be much greater than anywhere else. A baseline of 19/20 was set for all forces to help inform more meaningful performance comparisons. The CoLP are showing a 38% increase on the 19/20 baseline. However Q3 volumes for 22/23 are the lowest in the 22/23 reporting period and starting to show a sustained improvement for managing volumes within Neighbourhood crime types. CoLP has embedded a prevention with support of partners approach to the reduction of neighbourhood and violent crimes. In support of the SARA process a partnership and prevention hub is now a key focal point to crime prevention and/or the development of plans to tackle emerging or current crime types. Partnership support is drawn from business improvement districts (BID's) safe and secure portfolios. Business Crime Reduction Partnerships (BCRP's) and close working with the security industry to create a cohesive approach to community safety. CoLP have recently implemented a number of platforms that permit the lawful sharing of intel and information in support of crime reduction. CoLP have during this reporting period conducted a number of pro-active operations supported by partner forces to address acquisitive crime associated with both the day and night time economies. These operations have yielded circa 20 arrests for acquisitive crime offences and recovered in excess of 120 suspected stolen items, with the majority being mobile phones. In line with national crime prevention and deterrence strategies CoLP have delivered a number of joint operations with our security industry partners, focused on reducing neighbourhood crimes through visibility and prevention activities. We plan to continue these during Q4 as part of wider safer business actions days supported by various partners including BID's / BCRP and security industry.   | LOCAL POLICING        | REQUIRES IMPROVEMENT | REQUIRES IMPROVEMENT | ADEQUATE    |

This is positive news because the City forecasts and expects higher volumes over Q3 and this hasn't been seen for 22/23 as has been in all previous years. This suggests that there has been a positive impact on violence during the Q3 period. Compared to the 19/20 benchmark year, there is a 4% decrease in violence crimes. Offences in this category predominantly come from violence without injury offences, which are the lower harm offences. CoLP continues to run monthly partnership supported operations (Op Reframe) to make the night time economy hours safe for all. Significant focus has also been on violence against women and girls and safety within the night time economy. Operations have covered areas of spiking and the importance of being an active bystander. Going forward CoLP in partnership with Safer Business Network plan to implement a radio link as part of a trial. This link will see NTE venues connected with CoLP force control and venue to venue. The ambitions of this initiative is to create a more cohesive approach to safety whilst making best use of resources including CCTV. CoLP have during this reporting period initiated a number of crime prevention roadshow events. These events see CoLP and partners deliver briefings within our business community venues with a focus on both personal safety and safety of property and these are planned to continue during Q4. CoLP during the Christmas Policing Operation (Op Tinsel) focused on harm reduction in key locations across the City during the festive and world cup period. This operation saw 227 deployments with 893 people engaged with and offered safety advice. 19 arrests made, 31 stop and searches resulting in positive outcomes 22 times. Harm offences were reduced by a total of 52% compared to the same period in 2021. In some reporting periods there can be more outcomes than offences due to volumes being counted on 'created dates' and outcomes counted on 'outcome date'. This is in line with national reporting standards.<br><br>There has been a long-term declining trend for the volume of drug related intel reports, however this has improved for Q2 and Q3 and shows a higher overall % of intel reports are now drug related. Due to the campaign activity, Action Fraud social media accounts received double the amount of engagement in December with profile visits seeing a rise of up to 146%. As part of the campaign the NCSC also paid for advertisement on social media sites, providing a targeted message to males aged 19-25, who are most likely to fall victim to this crime. Respondents can provide an answer ranging between 1 = very satisfied and 5 = very dissatisfied. Those that have replied with a score of 1 or 2 represent those who replied with a satisfied response.</p> <p>Victims Satisfaction surveys were sent out for Q2 at the end of the quarter (Set 22). This means there is always a delay in reporting to allow for responses and time to analyse the data, therefore reporting will always be a quarter behind. This does not mean there is no data for this area as it is currently being collected from victims. The response rate for Q2 (38 responses) is not statistically robust and is not representative of victims who have experienced crime in the City of London. Due to the low response rate, 1 or 2 responses could negatively or positively skew data in any direction and no insights can currently be gained from the results. The surveying approach has not been robust since its inception in October 2020 and therefore the City of London police has a gap in understanding its victims in relation to this method. The procurement and implementation of the force surveying system, Uplands Software, should help to mitigate this gap, once it is up and running. This will also allow victims to be surveyed in 'real time' meaning feedback is captured in the moment.</p> <p>It is of relevance to note that the Home Office have also put forward proposals to undertake a National Victim Satisfaction Survey, which will feed into the national measures reporting dashboard for all forces. The timeline is for forces to have already signed the contract/DPA with a pilot running in March and roll out of the national solution in April 23. This project has funding within the Home Office for two years. However there are still a number of concerns that have not yet been addressed. It is important to note that this will cause a duplication with the local approach and there is a risk that victims could be surveyed twice which will need to be controlled. The success of the National Survey will be monitored to understand the future impact to the local survey. It is noted that Uplands Software provides a wider surveying solution for the force above victim satisfaction, and also gives the force more autonomy in how it can manage and use its data.</p> | SPECIALIST OPERATIONS | NO GRADING           | NO GRADING  | NO GRADING |

This is reflective of training to help improve the identification of children at risk, however it also shows the higher volumes of children at risk that are identified. As volumes have been increasing, the timeliness where referrals are made have been reducing, with 1 in 4 children at risk PPN reviews outside of the specified time. Not every child and adult PPN results in a multi-agency meeting. The CoLP have a very thorough process where a PS reviews every PPN and since December this is a dedicated resource. Police attend multiagency meetings to develop a multiagency strategy for the safeguarding of the individual if this is required following assessment, these are predominately for children. It is rare for an adult meeting to take place.  | SPECIALIST OPERATIONS | NO GRADING  | REQUIRES IMPROVEMENT | REQUIRES IMPROVEMENT |

Unlike the force trend which saw a reduction in violence offences for Q3 compared to Q2, this was not seen for Violence against Women and Girls which has seen an increase from Q1 and Q2 in 22/23. As part of the work in this area, the force is continuing with the DA Matters training and raising awareness amongst staff of the vulnerability factors associated with domestic abuse. PPU has doubled in size over the last three months to provide specialist officers to investigate PPU offences and give victims specialist support. Op Reframe continues to be run monthly which is an overt operation to raise awareness around female safety within the City and the issues surrounding spiking and being vulnerable on a night out. In the last quarter, PPU has identified two serial offenders who were charged and remanded and therefore removed the threat towards women. This illustrates the way in which the City address VAWG and have a zero tolerance approach to this.   |                       |             |                      |                      |

It is important to note that outcomes for City of London Police have been higher than the national rate for several years, this means the force have one of the highest positive outcome rates in the Country for all Crime. The national positive outcome rate at the end of Oct was 11%. The CoLP are performing above this at 17% (Dec 22), however this gap is closing as volumes of positive outcome rates are fluctuating more for the CoLP whereas the national rate appears to show more stability. Q1 and Q2 are more indicative of the outcome rate for VAWG offences, at around 17%. Positively, there is a real improvement with significantly less victims withdrawing over time with a long-term improving trend in this area.   |                       |             |                      |                      |

This is reflective of improved training; however, it does show that there are greater volumes of individuals at risk that are now being identified. This is a significant increase in demand for this area of business. The PPU have introduced a new QA system to assess the quality of PPN's and feedback underperformance to improve the quality of PPN referrals. This is expected to be monitored through the next Crime Scrutiny Group. This is a pilot process with a dedicated resource running until the end of March. The current results reveal a 60% failure rate where PPNs are not up to standard. To improve quality the PPU have attended musters to brief officers on requirements, provided advice on completion via emails and conducted 1-2-1 with officers to increase their knowledge around the process. Good work is highlighted to supervisors in the case of good quality PPNs.   | SPECIALIST OPERATIONS | NO GRADING  | ADEQUATE             | REQUIRES IMPROVEMENT |

The force have partnered with a Company call Any-3 who have experience supporting other police forces and government organisations with their staff surveys. As part of the word, detailed results analysis down to team level will be provided. The force will be working with Any-3 over the next three years to ensure an annual survey is delivered and analysed. The survey closed on the 27th October 22.<br><br>City of London Police had an engagement score of 66% which is calculated using the 5 engagement questions outlined. It essentially measures how happy staff are when they are completing the survey. This is considered to be a strong result when looking at other forces. Currently there is no data or figures for comparison, but this measure will be used consistently throughout the next few years to monitor engagement. In addition to the engagement score the response rate was 64% which is considered to be outstanding. This is a strong response rate and ensures that the survey is representative.   | CORPORATE SERVICES    | NO GRADING  | NO GRADING           | NO GRADING           |

This programme has been created to develop and retain officers and police staff from under-represented groups. The force's Learning &amp; Organisational Development Team will continue to implement new developmental programmes for all under-represented groups, and these are being developed with the support of Staff Support Networks and specialist advisors.</p> | CORPORATE SERVICES      | REQUIRES IMPROVEMENT | REQUIRES IMPROVEMENT | REQUIRES IMPROVEMENT |

This could include part time, flexible working and job share adverts as we know more female officers apply for this than male ones. Increasing targeted advertising on popular female social media platforms.</li><li>- Including statements in job adverts to encourage applications from under-represented groups, such as 'we welcome female applicants'</li></ul>  |                         |                      |                      |                      |

The last survey was carried out in 2020 which showed a positive shift from the 2017 survey. The force have partnered with a Company call Any-3 who have experience supporting other police forces and government organisations with their staff surveys. As part of the work being undertaken by Any-3 they will provide a detailed results analysis down to team level. The force will be working with Any-3 over the next three years to ensure an annual survey is delivered and analysed. The survey closed 27th October 22. Since the survey closed, the dashboards have been made available to the force and high level analysis has been undertaken. At C.Insp level or equivalent, those responsible for area of the business will be responsible for reviewing their results and ensuring there are appropriate plans in place and implemented for any identified areas of concerns. In addition to this, focus groups are being planned to delve further into the detail. Currently there is no comparison data for this survey, but this is one of the lower satisfied areas and a quick review has revealed perceptions of poor IT and a lack of fleet.</p>   | CORPORATE SERVICES      | NO GRADING           | NO GRADING           | NO GRADING           |

It has been identified that 814 roles are eligible for the training across all role types. Further modules have been uploaded and again are mandatory to complete. At this time the data for Q3 has not been finalised against the 'eligible' roles. However, training on the College Learn system is being monitored and it is believed completion rates are improving, being driven by directorate heads and supervisors. An all force messaging system has been used to enable staff to confirm; that they have completed the training, or to get assistance with any technical barriers to completion of the training, or to commit to the completion of the training within a defined timeframe.</p>  | PROFESSIONALISM & TRUST | NO GRADING           | REQUIRES IMPROVEMENT | NO GRADING           |

The police force responsible for law enforcement in the rest of London is the Metropolitan Police Service - a separate organisation. Thinking about if you were to have contact with the CoLP, how much do you agree or disagree with the following statement? "The City of London Police provide an effective service". The results of this questions showed that 29% of respondents strongly agreed and 31.5% tended to agree, providing an overall score of 61% of respondents agreeing to a varying extent that the City of London provides an effective service. As this was a new measure there is currently no historical data to compare to. Work is currently ongoing regarding surveying conducted by the CoLP to bring multiple surveying elements into one place through the software and company Uplands Software. This means currently there is no recent information on this measure and there are some risks in collecting and analysing the data within the timeframes required to support and inform intended workstreams.</p> <p>There is currently a national YouGov live survey asking the question "generally speaking do you think the police are doing a good or bad job" with each wave attracting up to 1820 responses. This has been tracking since July 2019 and shows a long term declining trend in those who think the police are doing a good job from 70% to 52% (Jan 23).</p>  | CORPORATE SERVICES      | NO GRADING           | NO GRADING           | NO GRADING           |

| 6.3.2 Average number of working days to finalise complaint cases - Under Schedule 3 (inc suspension)     | 79   | 72   |             | We have seen a substantial jump from 21/22 to Q2 22/23 in the time taken to resolve complaints outside schedule 3 due to the demand. We have seen also a smaller increase in Schedule 3 complaint resolution times, also due to demand. For Q2 22/23 there has been a small improvement in time to resolve Schedule 3 compared with the previous quarter, while non-Schedule 3 resolution times have effectively remained flat. Overall, we are currently above the National average for non-Schedule 3 resolution times but remain well below the National average for those complaints formally recorded. To generally improve complaint resolution times the intent is to have a Complaint Resolution Team (CRT) in place during 2023 to deal with non-Schedule 3 complaints and Schedule 3 complaints other than by investigation (OTBI,) and to expand the Complaints and Misconduct Investigation team (who also have seen an increase in demand for Misconduct investigations, for which they are also responsible), for complaints under Schedule 3 that are required to be investigated. <i>* Please note Q1 data is still provisional.</i> |  |  |  |                      |             |             |                       |    |  |    |                                   |    |  |     |                                       |    |  |     |  |       |      |             |          |                       |    |   |  |    |                                   |    |    |  |     |                                       |    |    |  |     |   |                      |            |      |          |

CADs will be counted if the review shows that a crime within the VAP category, or a victim-based PO offence (s.4 or 4A Public Order, or the Racially/Religiously based equivalents) is required. Results are based on the number of these crimes recorded as a percentage of the number required under Home Office Counting Rules criteria.</p> <p>For quarter 1, there is a compliance rate of 87.3%. Q2 shows an improved compliance rate of 89.9% which has improved to 90.9% for Q3. A rating of 90% is likely to receive a grade of Adequate or Requires Improvement in a CDI inspection, however the grading would be worse if the assessment is that the missed crimes relate to serious offences. As positive improvement is being made in this area and the most recent audit findings are in line with the aspiration of achieving 90%, this area has been graded as adequate. Sustained performance would see this grading move into good.</p> | CORPORATE SERVICES   | REQUIRES IMPROVEMENT | ADEQUATE    | ADEQUATE    |                       |    |  |    |                                   |    |  |     |                                       |    |  |     |  |       |      |             |          |                       |    |   |  |    |                                   |    |    |  |     |                                       |    |    |  |     |   |                      |            |      |          |

## Summary

This report sets out proposals for performance measures linked to the Policing Plan priorities for 2023/24. The measures provide a strategic overview of how effectively City of London Police is delivering against Policing Plan priorities in way that is clear and transparent to Members and the public. Where appropriate the measures align with other national frameworks such as national policing performance measures set by government. Police Authority Board will continue to undertake detailed scrutiny of specific aspects of the Policing Plan through its assurance framework led by its four committees, and a programme of deep dives on priority areas.

## Recommendation

Members are asked to note /discuss the proposed measures in this report.

## Main Report

### BACKGROUND

1. The Policing Plan published in 2022 set out three operational priorities and three organisational priorities underpinned by values of professionalism, integrity and compassion.
  - a. Operational priorities:
    - i. Keep those who live, work, and visit the city safe and feeling safe
    - ii. Protect the UK from the threat of economic and cybercrime
    - iii. Put the victim at the heart of everything we do
  - b. Organisational priorities:
    - i. Our people
    - ii. Our resources
    - iii. Efficiency and effectiveness

2. The Policing Plan 2022 contained 32 performance measures and 91 performance metrics. It was agreed at Strategic Planning & Performance Committee in November 2022 that these should be rationalised as part of the Policing Plan 2023 with a greater focus on strategic outcomes.

## CURRENT POSITION

3. The Policing Plan is currently being refreshed for 2023-24 and Members have been involved in that process. The proposed performance measures are set out below. The measures are linked to the Plan's strategic priorities and national policing performance measures set by government.

| Measure   | Policing Plan priorities  |
|---|---|
| Reduce neighbourhood crime (neighbourhood crime consists of; burglary residential, robbery personal, vehicle crime and theft from the person offences)* | Keep those who live, work, and visit the city safe and feeling safe   |
| Reduce violent crime (violent crime consists of; homicide, violence offences, stalking and harassment and sexual offences)*                             | Keep those who live, work, and visit the city safe and feeling safe   |
| City of London Police positive outcome rate is higher than the national average (charge, caution, community resolution)                                 | Keep those who live, work, and visit the city safe and feeling safe<br><br>Protect the UK from the threat of economic and cyber-crime |
| National positive outcomes for economic and cyber crime are increased (charge, caution, community resolution)   | Protect the UK from the threat of economic and cyber-crime  |
| Capabilities to tackle economic and cyber crime are developed through training and accreditation  | Protect the UK from the threat of economic and cyber-crime  |
| Action Fraud victim satisfaction levels are maintained  | Put the victim at the heart of everything we do   |
| City of London Police victim satisfaction levels are improved   | Put the victim at the heart of everything we do   |
| City of London Police is a psychologically and emotionally healthy place to work (bi-annual measure)  | Our people  |
| City of London Police workforce engagement levels are increased (annual measure)  | Our people  |

---

\* National Policing Performance Measure

| Measure   | Policing Plan priorities     |
|---|------------------------------|
| City of London Police recruitment activity is improving how well its workforce reflects the communities it serves | Our people                   |
| Financial outturn is within 1% of forecast (bi-annual measure)  | Our resources                |
| Staff agree they are well equipped to do their job (annual measure)   | Our resources                |
| The public feel safe  | Efficiency and effectiveness |
| The public have confidence in City of London Police   | Efficiency and effectiveness |

4. It is proposed that assessments of each measure will continue to be undertaken, using the outlined methodology (summarised below). The grading assessment aligns with HMICFRS inspection grading system. (This is not to suggest that those gradings would be used by the HMICFRS but provides a common language when describing performance). It can be described as follows:

Table 1 – Grading Assessment Criteria

| Grade                | Description   |
|----------------------|---|
| OUTSTANDING          | Consistently exceeds in its performance   |
| GOOD                 | Consistently meets performance levels expected  |
| ADEQUATE             | Performance is met most of the time, but it is not consistent, plans are in place to improve and there is good confidence in them |
| REQUIRES IMPROVEMENT | Performance is not met most of the time. Plans are in place to improve but there is less confidence around these plans.           |
| INADEQUATE           | Performance is consistently not met and/or plans to improve are unclear   |
| NO GRADING           | Area under development with the business or not enough data or context to yet determine performance                               |

5. As with HMICFRS, there are a number of factors that go into making an assessment which is not always based purely on the data. Factors that go into the grading system are as follows:

Table 2 – Grading Factors

|                 |   |
|-----------------|---|
| Data and trends | Where available, this will help us understand the long-term trends, and whether performance is stable, declining or improving. Statistical Process Control methodology is used to identify early warnings in positive or negative performance trends, as well as statistical exceptions in the data. This allows us to monitor if the data is within the expected control limits. Data will be looked at over 5 years where possible, to gain a strategic understanding of performance. |
|-----------------|---|

|                  |  |
|------------------|--|
| Benchmarking     | Where benchmarking is available and understood, this will be used to inform the assessment.  |
| Business context | This is qualitative information supplied by the business, which can be supported by data. This information helps to understand if plans are in place and what any mitigation measures are. |

6. City of London Police will continue to monitor many of the metrics reported in 2022/23 through its internal performance and management processes. In addition to the above measures, it is recommended the Strategic Planning & Performance Committee establishes a programme of deep dives for 2023/24 that will enable detailed scrutiny of performance relating to other key areas of focus within the Policing Plan (subject to other emerging issues):

- a. How effectively is City of London Police working with stakeholders to improve counter terrorism security?
- b. How effectively is City of London Police identifying, supporting and safeguarding vulnerable people?
- c. How effectively is City of London Police tackling serious and organised crime including disruption of drugs supplies and county lines\*?
- d. How effectively is City of London Police supporting victims including through the criminal justice system, with a particular focus on domestic abuse\*?

7. Police Authority Board governance structures already enable detailed scrutiny of other areas of performance linked to Policing Plan priorities and values including:

| Committee                                    | Scrutinises   | Policing Plan priorities                                   |
|--|---|--|
| Resource Risk & Estates Committee            | Alignment between financial and workforce planning  | Efficiency and effectiveness                               |
|  | Delivery of the accommodation programme and other capital projects  | Our resources  |
| Economic & Cyber Crime Committee             | Performance of national lead force for fraud and implementation of national strategies and plans to tackle economic and cyber crime | Protect the UK from the threat of economic and cyber-crime |
| Professional Standards & Integrity Committee | Workforce representation and culture  | Our people and values                                      |
|  | Proportionality in use of powers including stop and search and strip search   | Values (and public trust)                                  |

| Committee | Scrutinises   | Policing Plan priorities                 |
|-----------|---|--|
|           | Local implementation of national strategies linked to equality, diversity and inclusion including race and violence against women and girls plans | Our people and values (and public trust) |

## CONCLUSION

8. The proposed performance measures will enable Police Authority Board to monitor how effectively City of London Police is delivering against the priorities in the Policing Plan 2023. The rationalisation of the measures will make City of London Police performance more transparent and clear to the public and more in line with the national approach of government and police and crime commissioners.

## Summary

The purpose of this report is to provide an update for Members of the Strategic Planning and Performance Committee (SPPC), Police Authority Board (PAB) and Professional Standards and Integrity Committee (PSIC) on strategic progress made by the City of London Police (CoLP) in relation to Violence Against Women and Girls<sup>1</sup>. Additionally, it provides some examples of work completed, and also areas for development over the coming months.

The report details current work at National, Regional and Local level and includes work ongoing with partners including the City of London Corporation.

## Recommendation(s)

Members are asked to note the report.

---

<sup>1</sup> This document uses the following Home Office definition of VIOLENCE AGAINST WOMEN AND GIRLS: "The term 'violence against women and girls' refers to acts of violence or abuse that we know disproportionately affect women and girls. Crimes and behaviour covered by this term include rape and other sexual offences, domestic abuse, stalking, 'honour'-based abuse (including female genital mutilation, forced marriage, and 'honour' killings), as well as many others, including offences committed online."

## **Main Report**

### **Background**

1. Members will be aware of the national and local focus on Violence Against Women and Girls, detail of the background to this report was fully described in the previous quarterly reports to your Committees.

### **Current Position**

#### Key Milestones (Quarter 4)

- **Performance Measures:**  
As the violence against women and girls Action Plan approaches its first year of implementation, a review of performance measures and success against those will be an ongoing piece of work. Already, the CoLP has a dedicated violence against women and girls 'Power BI' dashboard which provides real-time information to show the locations of our violence against women and girls hot-spots and repeat perpetrators. This is used to inform deployments, such as Operation Reframe, to provide a proactive problem-solving approach to tackle violence against women and girls.
- **Professional Standards Department (PSD) – Strategic Reporting and Governance:**  
In the last year, PSD has conducted a significant number of Strategic Reviews on behalf of the force. These were completed following national requirements, or as a response to nationally significant events, or reports relating to other forces. All reviews have had Strategic oversight from the force Chief Officer Team as well as the PSIC and PAB. The reviews include:
  - Force review of juvenile strip searches following the Child Q report publication;
  - Historical review of police perpetrated domestic abuse and sexual misconduct cases, with responses to the Police Perpetrated Domestic Abuse Super Complaint;
  - Force response to Operation Hotton; and
  - National HMICFRS recommendations relating to Vetting and Counter Corruption.

Recommendations and actions arising from these reviews now have a clear process to ensure strategic oversight of their progress. This includes six monthly reviews at PSIC, oversight through the force's internal Renewing and Rebuilding Trust and Confidence Board, and oversight by the Organisational Learning Forum (OLF). A role has been created to provide senior management oversight of such

recommendations in the future, this role is currently coordinating the force response to the HMICFRS recommendations.

To note, the first meeting of the newly refreshed OLF was held in October 2022. Chaired at Commander level, this has now provided a dedicated space for these recommendations to be monitored and ensure progress is made.

## **National**

In October 2022, a NPCC (National Police Chief's Council) event was held for forces to gain an overview of collective progress. A key theme being that the focus of the NPCC violence against women and girls taskforce should remain on professionalism, trust and confidence. The three pillars of activity (cited in this report as NPCC objectives) will continue to drive bespoke activity to combat violence against women and girls. Further work is also being reviewed to ensure that the violence against women and girls Strategy aligns with the National Race Strategy, in particular regarding how policing engages with black and minoritised women, and how we improve trust and confidence amongst those communities.

Following on from this, the CoLP Professionalism & Trust team has met separately with DCC Maggie Blyth (NPCC violence against women and girls lead) in December 2022 to confirm areas of force focus for 2023, which will be set by the NPCC as follows:

- Domestic Abuse performance – specifically to review our overall response to reports of police and non-police perpetrated abuse. This will include the 'voice of the victim' within the case management, case file standards and case attrition rates.
- Improving Criminal Justice outcomes for Domestic Abuse, Rape, Serious Sexual Offences and, Stalking and Harassment – specifically case file standards and improving our support to victims throughout the criminal justice process.

The CoLP will ensure that these areas of focus are reflected upon in our refresh of our violence against women and girls Strategic Delivery Plan as we enter Year 2 in April 2023.

## **Regional**

2. The CoLP remains in a working group with the British Transport Police and Metropolitan Police. A violence against women and girls conference is being arranged by the Crime Prevention Association (CPA) to take place at the Guildhall on Monday 27<sup>th</sup> February with guest speakers from BTP (Chief Constable Lucy D'Orsi) and Met Pol (tbc). CoLP will also be providing representation and have a speaking slot to update attendees on our current work and future plans. Guests are being invited predominantly from the private sector, across a variety of industries. The aim of this conference is to improve awareness, showcase a collective pan-London

response to violence against women and girls and identify opportunities for future collaboration.

### **Local**

3. Since our most recent update to members in November 2022, the CoLP has continued to develop work to tackle violence against women and girls by delivering sustainable change, as outlined in the key milestones. A deep dive of our internal violence against women and girls Action Plan was completed in December 2022, to ensure that operational progress is maintaining pace.

The following local updates highlight work currently in development:

### **NPCC Objective 1-Improve Trust and Confidence in Policing**

This area focuses on our commitment to improve internal and external trust and confidence. Our new Policing Plan outlines our operational priority to keep those who live, work, and visit the City safe and feel safe. Consequently, we know that we must do more to earn the trust and confidence of our communities, in particular that of women and girls. To achieve this, we must ensure that our officers and staff uphold the highest professional standards.

- HeForShe<sup>2</sup>: This has now been launched internally and registration has begun for male employees to become HeForShe Allies. A HeForShe workshop has been arranged for Allies on the 31<sup>st</sup> January 2023 which will be launched by Assistant Commissioner Betts with the National HeForShe lead facilitating the event.
- Listening Circles: Our programme of Listening Circles remains well attended. The next Listening Circle is scheduled for the 23<sup>rd</sup> January 2023, following this a quarterly report of themes raised and action taken in response, will be presented to the Renewing and Rebuilding Trust and Confidence Board. The programme has now been recognised as a 'Good Practice' example in the annual report for 'Gender Equality in UK Policing' (Appendix A: Listening Circles – A Good Practice example).
- Leadership and Culture: The 'Our People' Inclusivity Programme has now commenced with sessions delivered across November and December. The sessions planned for January are currently being rearranged due to the national rail strikes. These events have been extremely well attended with overwhelmingly positive feedback. There remains a continuous internal advertisement campaign to promote these events and informing how they complement not only the new 'Our People' development framework, but also our wider work to improve trust and confidence (Appendix B: Professionalism and Trust activity poster).

## **NPCC Objective 2- Relentlessly Pursue Perpetrators**

This area focuses on our ongoing commitment to bring more perpetrators of violence against women and girls to justice, working with partner agencies as a “whole system” response. This also includes work to reduce case attrition and to address the concerns and experiences of the victims.

- **Police-Perpetrated Domestic Abuse (PPDA):** A new area of focus for Policing nationally has stemmed from the super-complaint into PPDA. In response to IOPC and HMICFRS recommendations, PSD have worked closely with our Public Protection Unit to develop process maps to ensure that both conduct matters, and any criminal investigation are jointly co-ordinated. This also now includes memorandums of understanding with external forces who could be managing future criminal investigations for our employees. This aligns to national recommendations and has also been presented to PSIC.
- The Government has released the first report from Operation Soteria, a unique Police and CPS programme to develop new operating models for the investigation and prosecution of rape by June 2023. These findings will be adopted by forces to improve their response to rape and other sexual offences. The CoLP has begun to engage in national working groups to ensure that we adopt and implement these recommendations at the earliest opportunity. This work will also complement our current focus of rolling out mandatory Domestic Abuse Matters training and Vulnerability training across the force, in addition to the 100% resourcing uplift in our Public Protection Unit which has already taken place to improve standards of initial response, investigation, supporting victims and bringing offenders to justice.

## **NPCC Objective 3- Create Safer Spaces**

This area focuses on protecting women and girls in public spaces, at home and online. We will continue to work closely with our partners and in particular the City of London Corporation (CoLC) to protect women from victimisation in these spaces.

- **Operational activity against Gender-Based Violence:**

A dedicated communications campaign to highlight this work was promoted internally and externally in which the Commissioner outlined the activity we will be taking, which included:

**White Ribbon Day:** On the 25<sup>th</sup> November, CoLP promoted its commitment to help eliminate Violence Against Women, also known as the national ‘White Ribbon Day’. This involved a specific briefing to explain the importance of the day for all front-line officers being asked to wear a white ribbon by the Professionalism and Trust team.

The force’s Christmas campaign ‘Operation Tinsel’ also began on the 21<sup>st</sup> November and ran until the 23<sup>rd</sup> December to encompass our

policing response to both the festive period and the World Cup. Officers from across the force provided a highly visible policing presence in the Square Mile day, night and day, to reassure the public and deter offenders. The focus was aligned to crime types which impact upon residents, communities and stakeholders at that time of year, in particular violence against women and girls, alcohol-related violence, inappropriate sexual behaviour, anti-social behaviour and acquisitive crime.

The headline results from Operation Tinsel are:

- *227 deployments from CoLP officers, 893 people engaged with and offered safety advice.*
- *19 arrests made.*
- *31 stop and searches resulting in 22 positive outcomes.*
- *High Harm offences were reduced by a total of 52% compared to the same period in 2021 (GBH -83%, Serious sexual assaults -60%, and allegations of drink spiking -36%)*

Following White Ribbon Day, CoLP supported the UN Campaign to mark 16 days of Activism against Gender-Based Violence, this included three key activities:

- (i) Paternoster Square Security event:  
In December 2022, members of the Professionalism and Trust team presented at the Paternoster Square security forum. This enabled the team to meet security managers and business stakeholders and update them on the work which CoLP is delivering on to combat violence against women and girls. It also provided an opportunity to brief attendees on the NPCC drink spiking campaign, Ask for Angela and practical steps which security and venue employees can use to keep women and girls safe in the City.
- (ii) Paternoster Square Engagement event:  
In December, the Professionalism and Trust team hosted an engagement event at Paternoster Square with the support of our Sector Policing officers. This provided an excellent opportunity for our teams to engage with businesses and members of the public to update them on the work that CoLP is doing not only to prevent Violence Against Women and Girls, but also to rebuild trust and confidence amongst our communities. A number of personal safety alarms were given to women, and engagement with businesses around the Ask for Angela campaign and drink spiking, provided reassurance to employees about what action they could take in keeping women and girls safe using their venues.

(iii) Operation Reframe:

The 3<sup>rd</sup> December saw the CoLP, and partners run its monthly event to keep women and girls safe in the night-time economy. Deputy Chief Constable and NPCC violence against women and girls lead, Maggie Blyth, joined to see the initiative first-hand. A video of the operation has been filmed and promoted externally to demonstrate our commitment to improving the safety of women and girls in the City at night. The video can be viewed using the following link (<https://twitter.com/citypolice/status/1603797102127038464?lang=en>).

The event was extremely well attended and enabled significant preventative work to be completed, including:

- Ask for Angela: 7 venues tested with 6 passing (re-training has been arranged for the failed venue).
- Interventions:
  - St John Ambulance dealt with 3 incidents which negated the need for ambulance and police deployments.
  - 4 arrests made.
  - 24 welfare tent interactions, including 3 females being helped to get home safely.
  - 22 drinks tested across 2 venues for drugs, all which proved negative for drink spiking.
  - 32 licensed venues visited as a multi-agency approach.

To assist in evaluating the impact of Operation Reframe, a trust and confidence survey was completed with members of the public. The results provided positive feedback around the visibility of police and linked feelings of safety:

*“79% of people surveyed said they strongly agreed or tended to agree, that seeing a police officer in uniform made them feel safer*

*86% of people surveyed said that they strongly agreed or tended to agree that they would be confident to approach and speak to a uniformed officer.*

*86% of people surveyed said they strongly agreed or tended to agree that they would be confident in approaching a guardian volunteer.”*

## **Governance**

4. The COLP's strategic and tactical delivery on violence against women and girls is being scrutinised at a national and local level, as advised in previous committee reports.

## **Conclusion**

5. The CoLP continues to work in partnership with the City of London Corporation to enhance the City of London's response to violence against women and girls. This report has highlighted some of the initiatives which have taken place to support this partnership and also our wider delivery of the NPCC violence against women and girls strategy.

All the work noted in this report contributes to our new Policing Plan, in particular our Operational Priorities to 'Keep those who live, work, and visit the City safe and feeling safe' and to 'Put the victim at the heart of everything we do'.

## City of London Police

### Good practice example

Listening Circles for female colleagues will take place throughout this year aiming to deliver real change for women working for the City of London Police. This forms part of the force's overarching commitment to tackling Violence against Women and Girls (VAWG).

The Listening Circles initiative follows on from City of London Police Commissioner's forums, which were introduced to understand the feelings of the female workforce and act where concerns were raised. These forums were successful, not only in that they were well attended but that they also provided opportunities for the City of London Police to review historic incidents and support employees raising concerns.

Moving forward, female officers and staff of all ranks and grades within the City of London Police can take part in one of the in-person or virtual Listening Circle sessions. These sessions are a safe space for colleagues to share experiences and concerns and collectively find solutions to issues. They will be chaired by a member of the Professionalism and Trust and everything discussed will be confidential, with only key themes to be taken to the Trust and Confidence Board for awareness and support.

Following on from the Commissioner's forums there have already been two introductory listening circles held by the force, where the 25 women from across the force who signed up to participate, agreed: the purpose of holding Listening Circles; how these will run in force; and aspirations for future sessions.

- Performance has been extremely positive in Q3. After a challenging Q2, Cyber Griffin has recovered lost ground and is now, if this level of delivery continues, on track to meet its local and national targets for the financial year. October marked Cyber Griffin’s strongest month for delivery since the programme’s start. In that month more than 2,000 people were trained, and 44 services delivered.
- A combination of factors are believed to have driven this increase. They include: the team being at full strength, October being Cyber Security Awareness Month and a greater emphasis being placed on Cyber Griffin’s media exposure both online and at multiple expos which were also supported by Sector Policing engagements with the community detailing Cyber Griffin’s services.

- Cyber Griffin has matured into an extremely successful programme regarded as one of the leading police Protect teams in the UK. Stemming from this, discussions have been had regarding an extension of the programme’s services into the national Protect space. A briefing paper describing two options has been reviewed and supported by senior officers.
- Below is a comparison of monthly end users trained and services conducted across FY 20/21, 21/22 and 22/23. The graphs are correct up to the end of Q3/FY 22/23.

**City-wide Residents Meeting**

Two residents meetings were held at the Artizan Street Library, supported by colleagues across CoLP and CoLC. For the first session, engagement was focused mainly on Barbican and Golden Lane (allaying concerns around licensing and ASB). The second session focused on the proposed Eastern base (accommodation Programme) with residents not content with consultation to date (CoLC action).

**Crime Prevention Roadshows**

Sector, working in partnership with business partners, have offered a crime prevention roadshow to premises via security managers. DWOs and PCSOs provide crime prevention advice dependent upon local priorities and emerging issues/crime trends. To date, CT, phone snatch, TFLP and bike theft have been covered – this has included property marking, leaflet distribution and giveaways.

**Cluster Panels**

Cluster Panels continued during Q3 with DWOs providing residents, SMEs, and business reps with crime/ASB data, local policing updates, and planned activity in their respective areas. There are plans to increase attendance and consistency, whilst following the same ethos, that is: panels made up of local people who meet to discuss local community issues and concerns, and to set local policing priorities, to ensure they are part of the conversation about, and solution to, the policing issues raised.

**YIASG**

The P&P Hub are still progressing, with the inaugural meeting/launch planned for this Q4. A visit to Gloucestershire Police is scheduled to understand best practice around recruitment campaigns, awareness raising, and management, in order to finalise CoLP plans.

**Life-Skills Schools Programme**

The joint Schools Programme with Lifeskills is progressing at pace, with a launch planned for Q4 in all City Schools. The programme will seek to equip young people with a range of knowledge and skills which they can use as the transition to secondary and beyond. The course materials and content will be supplied by Life-Skills, with Sector officers trained to deliver the programme during the PHSE timetables. As well as a structured learning programme, it is hoped that having officers in schools will foster better engagement/intelligence/trust with young people.

**Neighbourhood Policing Week (23/01/23 – 29/01/23)**

Organised by the College of Policing and National Police Chiefs' Council (NPCC), the Neighbourhood Policing Week of action is a chance to celebrate local, community and neighbourhood policing. During this week forces across England and Wales will be organising events and activities. CoLP (Sector) will be participating in the week, with a tailored programme of events including Engagement Hubs, Estate Patrols, Op Luscombe, and supporting Op Reframe activity.

## Summary

This report provides Members with an overview of activity related to HM Inspectorate of Constabulary and Fire & Rescue Services (HMICFRS) undertaken since the last meeting of the Strategic Planning and Performance Committee in November 2022.

Members may recall that the HMICFRS were physically in Force from Monday 7 November 2022, interviewing a cross-section of officers and staff over the course of a month (up until 6 December), as part of the inspectorate's routine police efficiency, effectiveness and legitimacy (PEEL) programme, which assesses all 43 police Forces against these national standards. This inspection was completed, and the draft report is expected in Force w/c 30<sup>th</sup> January 2023, which will allow the Force to check for factual accuracy only. Then the final report is expected from the w/c 6<sup>th</sup> of March 2023.

### HMICFRS Inspections

Since the last meeting on 17 November 2022, the Force was subject to inspections, which required an interdepartmental response which the Force completed without issue. As per the last report, Chief Superintendent Steve Heatley was posted to provide support to the Head of Strategic Development and Team on Inspections and Improvement.

Since December 2022 Brett McKenna has joined the Force as Interim Head of Strategic Development to cover support for the HMICFRS inspections and action plans as part of the portfolio. The Force action plans have been continuously reviewed and there has been a thorough handover of the roles.

The City of London Police has been inspected as follows: (Update Valid as of January 2023)

### HMICFRS Recommendations Overview

This report's appendix details progress against the recommendations from all live inspection action plans.

### HMICFRS Publications

In addition, this report sets out an overview of proposed HMICFRS publications including:

- City of London Police's Custody Re-Inspection

- Thematic national inspection on vetting, misconduct and misogyny in the police.

### **Recommendation**

Members are asked to:

- Note the report and appendix.

### **Main Report**

#### **Background**

1. This report provides Members with an overview of activity related to HM Inspectorate of Constabulary and Fire & Rescue Services (HMICFRS) undertaken since the last meeting of the Strategic Planning and Performance Committee in November 2022.

#### **Current Position**

##### PEEL Inspection, 7 November – 6 December (Review) & Custody Inspection

2. The Force is continuing with delivery of the existing recommendations of the HMICFRS action plans that were subject to the previous PEEL inspection. A meeting with the HMICFRS Force Liaison Lead (FLL) Tom Keaton is to be scheduled at the beginning of February with Chief Superintendent Steve Heatley. An informal meeting with the interim Head of Strategic Development, Brett McKenna has been scheduled for the 30<sup>th</sup> of January 2023.
3. The Force has been informed that a draft copy of the PEEL Inspection Effectiveness and Legitimacy report will be made available to the Force w/c 30<sup>th</sup> January 2023, this will allow the Force to check for accuracy and challenge any findings that do not align with evidence and information provided in the inspection process.
4. The expected publication date of the Force's PEEL inspection is due to take place w/c 6<sup>th</sup> March 2023. A full review will then commence by the Force on the findings and recommendations in the report with a response strategy, which will be made available to this Committee.
5. The Force has been informed that a PEEL inspection of the custody provision of the Force will be subject to an inspection, this is likely to commence in early March 2023. The inspection period of two weeks has been stated in line with standard practice. The inspection will review, leadership, pre-custody, custody safeguarding, custody operations, custody expectations, welfare and release.
6. The Force has been preparing for this inspection with regular directorate meetings led by Superintendent Criminal Justice, with an internal HMICFRS framework developed to meet the requirements of this inspections. This internal framework has not identified any potential 'inadequate' gradings of concern. The strategic development team in addition to providing to support to the custody dept, will also

be reviewing best national practice to identify any areas of crossover and to further troubleshoot any areas of weakness in the City's custody provision.

### Current Status of HMICFRS Recommendations

7. A detailed overview of the progress on each of the live (open) HMICFRS recommendations can be found in Appendix A of this report.
8. The process for capturing HMICFRS recommendations has been revised and is now in a digitised format to enable the Force to:
  - a. create shared awareness and collaboration between business leads across all business areas and, where applicable, to work in collaboration with external partners.
  - b. enhance the previous process for monitoring and reviewing progress against deadlines in a more proactive manner to ensure these are completed; and
  - c. through internal governance and scrutiny, provide regular updates and prioritise action against recommendations based on risk for, for example through the Audit and Assurance meetings, dip sampling activities, etc.
9. A total of 11 HMICFRS reports have been managed by the Force in the last period since November 2022.
10. Current recommendation status as of January 2023
  - 0 red recommendations
  - 17 amber recommendations detailed in the table at Appendix A.
  - 31 green recommendations (pending HMICFRS sign off).

### Previous Position:

- 0 red recommendations
- 26 amber recommendations detailed in the table at Appendix A.
- 25 green recommendations (pending HMICFRS sign off).

### **Corporate & Strategic Implications**

11. There are no strategic, financial, resource, legal, risk, equalities, climate or security implications and no proposals in the report. This report is just intended to update Members on recent and upcoming activity.

### **Conclusion**

12. This report sets out details of activity in the last quarter around HMICFRS inspection activity and preparations the Force is making for the upcoming thematic custody inspection.

### **Appendices**

## Summary

At the Strategic Planning and Performance Committee in November 2022, Members requested a 'Deep Dive' report on Child Protection to come to a future meeting. This report is to update Members on the current child protection services delivered by the City of London Police (CoLP) supported by local authority, regional and National partners.

Child protection is the safeguarding of children from violence, exploitation, abuse and neglect. It is a responsibility that must be shared between all those who work with, care for, educate and support children of all ages. Police are often considered as the frontline response to social problems including child protection. This requires professional judgement to decide whether a child is at risk of significant harm and whether to use the powers of protection, conferred on them by the Children Act 1989.

Child protection spans many aspects of policing response and is a key victim priority. Any child protection case is referred to the CoLP Public Protection Unit (PPU) which works closely with Children's Social Care (CSC), working to defined processes to deliver effective safeguarding outcomes. This report will summarise the police response in the following areas:

- Referral
- Investigation
- Monitoring

The report will also provide oversight of strategic governance, independent scrutiny, the resource available to the CoLP and a summary of current demand.

## Recommendation(s)

Members are asked to note the report.

## Main Report

### Governance & Local Monitoring

1. Child protection is an area central to the CoLP priorities that:

- Keep those who live, work, and visit the City safe and feeling safe
- Put the victim at the heart of everything we do

Strategic governance for this area is delivered by the Commander of Security and Operations with local oversight coordinated at the Strategic Vulnerability Board (SVB) with local authority representation and specialist support. The SVB reports in to the CoLP Performance Group and in turn to the Strategic Planning and Performance Committee and Police Authority Board.

The CoLP is also a partner of the City of London and Hackney Safeguarding Children Partnership (CHSCP), established in accordance with the Children Act 2004 (as amended by the Children and Social Work Act 2017) and the statutory guidance issued within Working Together to Safeguard Children 2018.

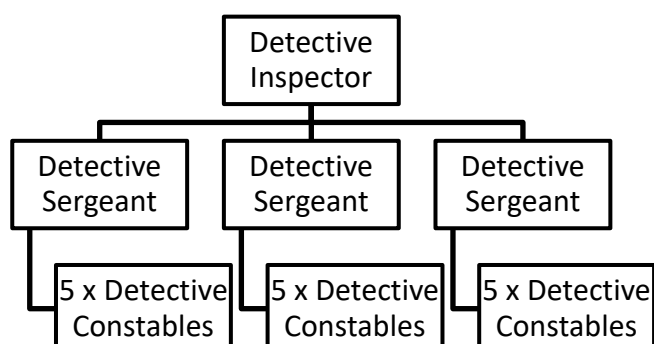

[chscp | City & Hackney Safeguarding Children Partnership](#)

The CHSCP's safeguarding arrangements define how safeguarding partners, relevant agencies and other organisations work together to coordinate their safeguarding services. They include details about how safeguarding partners identify and respond to the needs of children, commission and publish local child safeguarding practice reviews and provide for independent leadership and scrutiny.

In addition, CoLP also engage regionally and nationally with National Police Chief Council's (NPCC) public protection working groups (strategic and tactical) to share best practice and maximise opportunities for service improvements.

### Service Delivery Provider - Police

2. The Public Protection Unit (PPU) within the Investigation Services Command of the Specialist Operations Directorate is the team that manages all referrals of child protection matters. The establishment of the team is:

## Demand

- Every police employee who believes that a child is in need of support services or is suffering, likely to suffer or has suffered significant harm must bring the matter to the attention of the PPU who will assess what action needs to take place.

In situations where there is no immediate risk to the child the referral should be made using a Public Protection Notice (PPN) which will be sent to the COLP PPU for assessment and dissemination.

The following chart summarises the volume of PPNs submitted to the PPU.

The volume of Child PPNs has increased for 22/23, with all three months above the average. This is largely reflective of local training delivered (Voice of the Child and Vulnerability training to ALL frontline officers) to help improve the identification of children at risk.

- The management of PPNs is conducted by one of the PPU Detective Sergeants (supported by others in the Unit when demand spikes) alongside their operational role, supervising a breadth of vulnerability linked crime. This assures an assessment of the risk and an appropriate response is defined and acted upon.

As mentioned, matters with immediate risk are managed by the responding officers with access to specialist support around the clock as required. The preceding chart articulates that the completion rate has dropped. All PPNs are assessed within the relevant time but with the volume of PPNs rising there has been a trend of reduced data quality. This has led to the PPU having to return PPNs for more information before they are able to complete. The assessment is that newly trained frontline officers are submitting more PPNs demonstrating that they are alive to the issues of child protection but the attention to detail requires improvement. An improvement plan is underway to address this that also considers potential system process issues that may require change and are being considered with our Niche/Pronto RMS Admin Team.

5. The following tables summarise the volume of crime/incident trends over time for Child Abuse and Child Sexual Exploitation.

Child abuse is when anyone under the age of eighteen is either harmed or not properly looked after, categorised as physical abuse, sexual abuse, emotional abuse and neglect.

Child sexual exploitation involves either inducements, violence (or threats of), coercion and intimidation towards children under eighteen to engage in sexual activities or have them performed on them.

6. The number of **CSA crimes** (section '7' below) for 2022/23 is 15 of the total 29. Of these, 5 are linked to one live operation of non-recent child abuse. The allegations involve rape and sexual assault.

The other 10 crimes include the following offence types:

- Sexual exposure to children at a school
- Possession/Distribution of indecent images
- Blackmail linked to sharing of nude images of a child
- Administer poison to a child (spiking)

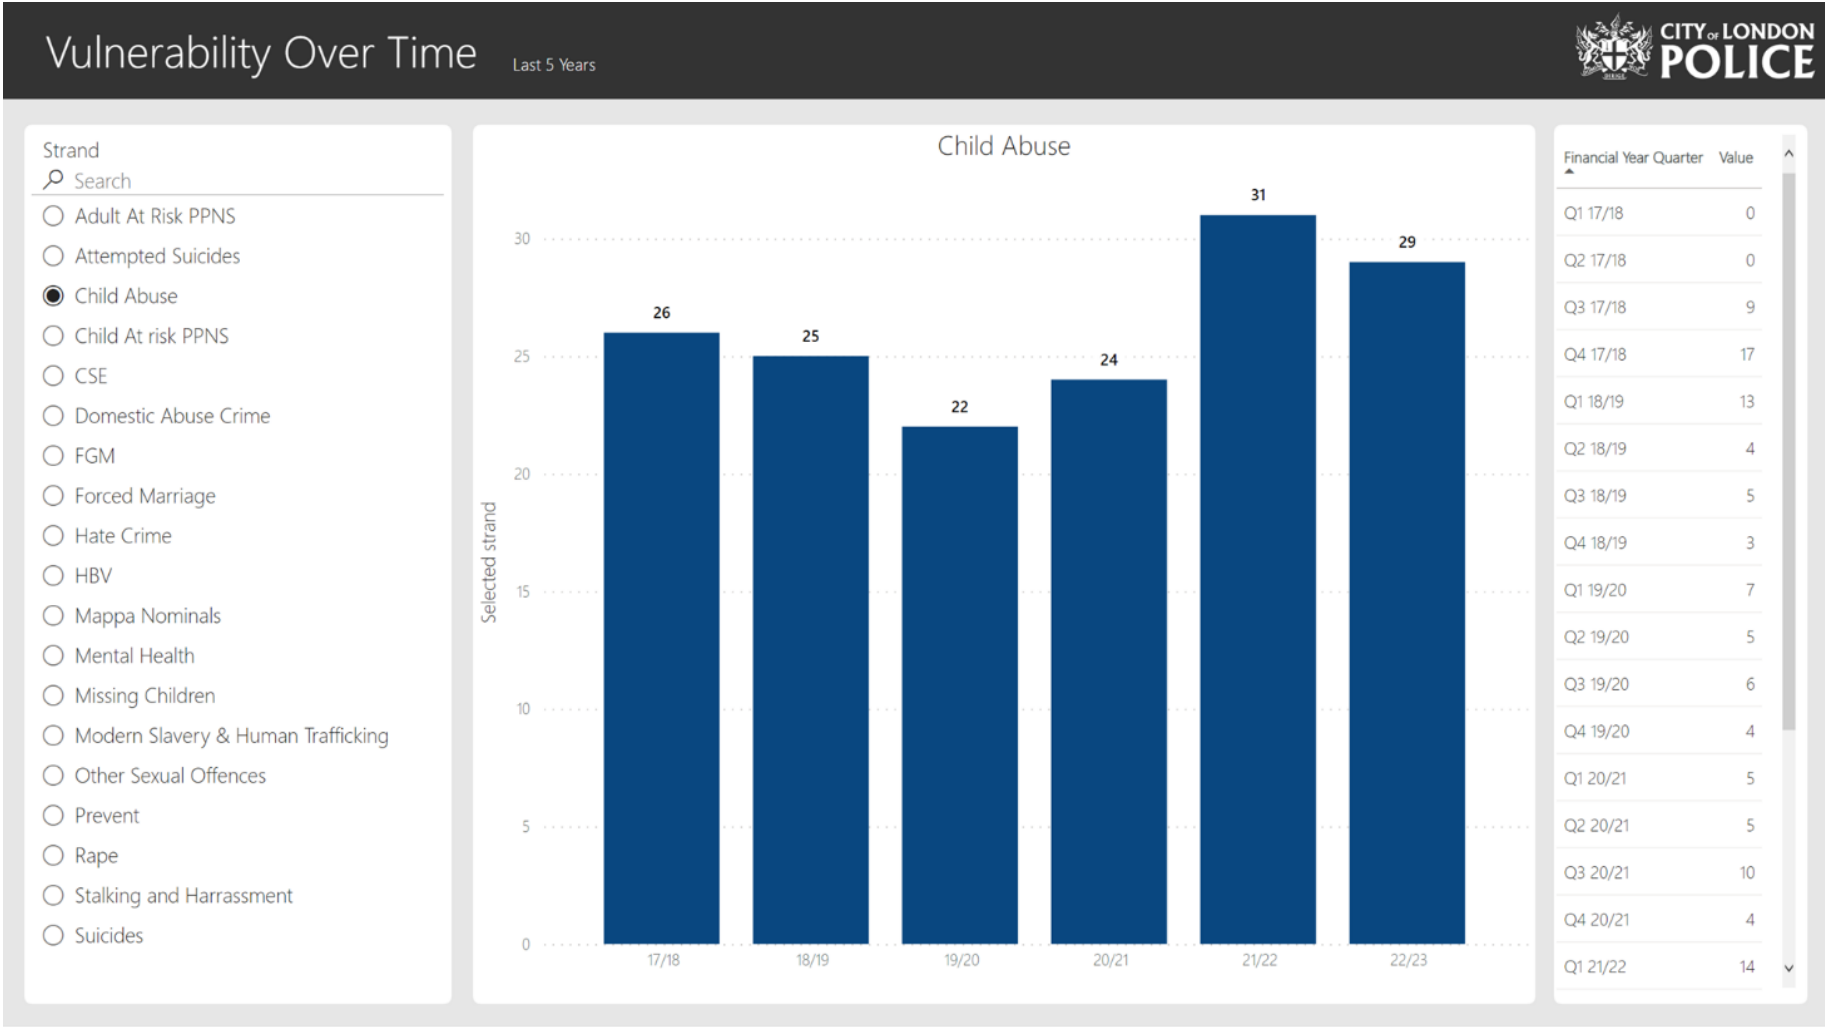

12 of the 15 investigations are live.

The non-crime incidents recorded fall into the category of concern for safety with occurrence types of:

- Drunk and disorderly
- Mental health
- Anti-social behaviour
- Unable to get home late at night

All incidents have been resolved.

7. Child Abuse (Crimes and Incidents)

8. Child Sexual Exploitation (Crimes & Incidents)

9. The number of **Child Sexual Exploitation (CSE) crimes** for 2022/23 is 8 of the total 20. Of these, 3 are linked to the live operation of non-recent child abuse mentioned in section '6' above.

The other 5 crimes include the following offence types:

- Rape
- Blackmail
- Administer poison to a child (spiking)
- Indecent video imagery of child under 13

All crimes are live investigations.

The non-crime incidents recorded all fall into the category of concern for safety that have been resolved or have been linked to above crimes.

### **Referral**

10. In situations where a child may be in need of emergency protection or urgent action is required by one of the agencies, City and Hackney Children Services provide an out of hours response. Non-emergency child referrals are made to the City of London Corporation Children's Social Care Team Manager.

The majority of referrals received involve children who reside outside of the City and in these instances the PPN is referred to the relevant Police Control Room. For urgent response, the local Safeguarding Teams relevant to that area will be contacted to carry out their own assessment and inform their local social care team as they deem this appropriate.

11. Referrals can also be made to the Local Authority Designated Officer (LADO) in response to allegations against professionals who work with children in the City of London. The criteria for making referrals to the LADO will be when any person who works with children, in connection with their employment or voluntary activity has:

- Behaved in a way that has harmed a child, or may have harmed a child
- Possibly committed a criminal offence against a child
- Behaved towards a child or children in a way that indicates they are unsuitable to work with children.

In respect of jurisdiction, allegations will be dealt with by the City of London Corporation LADO where the alleged incident took place within the City of London, or where the allegation is made against an adult in their personal life and they work with children in the City of London.

If the incident has occurred in the City, but the adult in question works with children or has children out of the City area then the City of London LADO will make the referrals to the corresponding LADO covering the relevant area.

12. Cases in the following categories are brought to the immediate attention of the Detective Superintendent, Specialist Operations:

- The death of a child
- Incidents of multiple or organised abuse
- Incidents involving significant professionals (inc. CoLP employees, Social workers, Health or Education staff)
- Cases meeting the criteria for a serious case review
- Cases involving persons of public prominence or institutions (including non-recent cases)
- Cases that may attract significant media interest.

### **Investigation**

13. The PPU has responsibility for the investigation of all child protection cases. PPU monitor all submissions of PPNs., including any children taken into Police Protection. Development of PPU Officers who investigate child protection matters is delivered by the Specialist Child Abuse Investigators Development Programme (SCAIDP) established by the College of Policing. The SCAIDP also requires officers to complete twenty hours continual professional development per year as part of their accreditation that is assessed by the College of Policing.

14. All child protection investigations are carried out in accordance with Authorised Professional Practice and London Safeguarding Children Procedures.

#### [London Safeguarding Children Procedures](#)

Effective collaboration and information sharing is essential to risk identification and management. A key component of achieving this are strategy meetings. Whenever it becomes apparent that a child has suffered, is suffering, or is likely to suffer significant harm, the Team Manager from Children's Social Care will be responsible for convening a Strategy Meeting/Discussion. The meeting will include Children's Social Care, Police/PPU, the professional referrer and any other agency as appropriate (e.g. Health, Education). If there is any likelihood that the child may require a medical examination - especially where sexual abuse is suspected, the appropriate senior paediatrician must be included to advise the strategy group.

15. The PPU also investigate non-recent allegations of child abuse, although the Detective Superintendent, Specialist Operations will give consideration to the Major Crime Team investigating should one or more of the following factors exist:

- Multiple victims
- Multiple suspects (organised crime group, paedophile ring)
- Offence involved person of public prominence (PPP)
- Offence involves an institution.

Should an investigation be allocated to the Major Crime Team, SCAIDP trained officers from the PPU will assist in the investigation as appropriate.

16. Operation Hydrant is a coordination hub established in June 2014 to deliver the national policing response, oversight, and coordination of non-recent child sexual abuse investigations concerning persons of public prominence, or in relation to those offences which took place within institutional settings.

Operation Hydrant was set up when it became apparent that forces around the country were investigating a significant number of non-recent allegations of child sexual abuse involving persons of public prominence or within institutions. There was a risk that investigators were looking at the same individuals and institutions and it was also clear that officers dealing with these complex cases required support and guidance.

Operation Hydrant is informed by individual forces of investigations meeting the criteria, and then coordinates the information among forces to prevent duplication. It does not carry out individual investigations – this is done by individual Forces.

The CoLP engages as appropriate with the Hydrant Team in line with all nationally agreed process and procedures.

17. The PPU investigate offences involving the indecent images of children and paedophile material held on a computer. This work is conducted with the support of the CoLP Forensic Services and in particular, the High Tech Crime Unit. Regional and National support is also provided by the Metropolitan Police Service (MPS) and National Crime Agency (NCA) respectively. Local developments are well advanced to improve our local digital response, supported by the CoLP Digital Exploitation Service (DES). Developments include staff training in digital capabilities and the deployment of a Digital Media Investigator (DMI) in the PPU. The DMI is a tactical adviser operating in support of live incidents, investigations, gathering intelligence and conducting proactive/reactive investigations where digital technology and data acquisition opportunities exist.

18. Technology improvements also continue with the imminent deployment of the Child Abuse Image Database (CAID) that:

- Helps identify and safeguard victims
- Makes investigating Child Sexual Exploitation and Abuse faster and more effective
- Supports international efforts to remove images from the Internet

CAID uses the latest technology to transform how we deal with images of Child Sexual Exploitation and Abuse. It brings together all the images that the Police and NCA encounter. Forces then use the images' unique identifiers – called hashes - and metadata to improve how they investigate these crimes and protect children.

## External Monitoring

19. Her Majesty's Inspectorate of Constabulary and Fire & Rescue Services (HMICFRS) inspect how well CoLP keeps children safe. Their last inspection was in 2019 with an inspection review in December 2021. Their full findings are published and accessible via the following links:

### **2021 Inspection Review**

<https://www.justiceinspectorates.gov.uk/hmicfrs/publications/city-of-london-national-child-protection-inspection-post-inspection-review/>

20. Summary of findings reported in 2020:

- The force was highly committed to protecting vulnerable people, including children.
- Senior officers held regular governance and oversight meetings.
- The PPU had a good working relationship with the other agencies that formed the City of London safeguarding partnership and understood the challenges of working with agencies across the Greater London area.
- The force's response to reports of missing children was excellent and frontline staff in all roles responded to these incidents as priorities.
- Recognising when children were at risk was also reflected in the way staff dealt with children when they were in custody. We saw some highly effective practice and support being provided to these children by the custody staff, and prompt referrals being made to organise support for vulnerable children.
- Throughout the inspection, we encountered highly motivated staff and managers working to help vulnerable children.
- We found that staff often lacked experience or weren't fully trained to recognise the importance of 'capturing the voice of the child' or seeing wider risks for children beyond the incident at hand.
- Even in the specialist PPU, vulnerability and risk weren't recognised consistently.
- The force was doing little to identify, pursue or disrupt online offenders involved in the downloading or distributing of indecent images of children in its area.
- Its management of registered sex offenders wasn't robust enough.
- Specific areas for improvement included: •
  - speaking to children, recording their behaviour and demeanour, and making sure their concerns and views are heard and inform decisions for their welfare;
  - considering the wider risks posed to children when they are found in high-risk situations and they may be criminally exploited;
  - ensuring that flags and markers are used effectively on force systems to alert the workforce to risk and vulnerability;

- providing meaningful and timely supervision of investigations, so that opportunities are pursued, and cases aren't unnecessarily delayed;
- reducing delays in holding strategy discussions or multi-agency management meetings, particularly those to safeguard children living outside the City area;
- making sure there is timely support from appropriate adults for children in police detention;
- effectively supervising offenders in the community;
- providing a robust and consistent approach to dealing with intelligence about online offending and those who distribute indecent images of children.
- We made six recommendations intended to help the force improve its response to safeguarding children.

21. The following is a summary from the 2021 post-inspection review. In December 2021 and notated alongside are improvements we have made to address the issues/areas for improvement raised:

- The force is training its workforce to recognise vulnerability and to speak to children. Although this was delayed by COVID-19, training programmes are now underway and are well attended.

***Voice of the Child training now complete for all frontline staff. The impact of this has been seen in the volume of engagement with PPU and referrals made using PPNs***

- The force has improved the way it manages registered sex offenders (RSO). Officers carry out assessments and record them on the appropriate systems. The assessments are well supervised. But officers still need to improve their risk management plans for sexual and violent offenders.

***Training for assessing officers provided and now RSOs are being managed by a dedicated Lifetime Offender Management Unit.***

- Healthcare professionals see every child held in police detention.
- Custody staff refer detained children to children's social care (CSC) services. But we saw delays in appropriate adults arriving to support detained children.

***This was due to service provider not meeting SLA with the CoLP. Backup provider now in place to ensure timely response whilst SLA failures of primary provider are addressed.***

- PPU staff investigate child protection cases effectively. The investigations take place within a reasonable time, are well planned, and include evidence from body-worn cameras.
- PPU supervisors make timely referrals and hold strategy discussions to keep up the progress of investigations.
- We found the staff and supervisors in the PPU to be highly motivated and dedicated to their work. But staffing levels are low, particularly in specialist supervisory roles.

***Establishment of PPU was increased to the level articulated earlier in the report to meet the demand and diversity of responsibility. It is also in the process of moving to a 7-day week operation cognisant of a demand profile that links to a threat demographic spanning the core night time economy period of Thursday to Sunday.***

- Although City of London Police has low volumes of reported child abuse and vulnerability crime, the PPU has very wide terms of reference. It is responsible for almost all types of crime against children and vulnerable adults, including serious sexual offences and management of sexual offenders, as well as exploitation, modern slavery and missing persons. Many of these crimes are complex and technical and take longer to investigate, with high demand for victim support. The PPU also helps colleagues who want advice on safeguarding and handles all referrals to other safeguarding agencies. A review of the PPU's terms of reference might help force leaders to achieve a better balance between the unit's capability and the risks and demands it faces.  
***Review of remit informed the establishment growth for the PPU as mentioned above to address this diversity of demand.***
- The force hasn't changed its control room systems enough to make sure warning markers alert officers quickly when children are at risk. This is partly because some of these systems are due to be updated and replaced. One system – computer aided despatch (CAD)  
***The CAD replacement project is still underway (MPS led) that will provide long term solutions to this. Special schemes are exploited within the capability of current systems to place system alerts.***
- The approach to online child abuse hasn't improved. The force needs to improve its systems and processes for tackling online child abuse.  
***CAID delivery, digital capability improvements and DMI deployment are nearing (as referenced earlier in this report) completion and will improve service in this space.***

**HMICFRS concluded:** We are encouraged to see City of London Police has acted to address most of the recommendations from our 2019 inspection. The force has improved the way officers investigate child abuse, how they manage sex offenders and how they treat children in detention. Supervision is effective and access to multi-agency support for children is well co-ordinated and prompt. The force is working to improve the quality of its performance management information. This will help leaders to understand how effective the service is in responding to vulnerable people and children

22. Serious Case Reviews (SCRs) were established under the Children Act (2004) to review cases where a child has died and abuse or neglect is known or suspected. SCRs could additionally be carried out where a child has not died, but has come to serious harm as a result of abuse or neglect. They aim to establish learning for agencies and professionals to improve the way that they work together to safeguard children. A local safeguarding children board (LSCB) can commission a review for any case where it suspects anything can be learned to improve local practice.

23. A serious child safeguarding case is one in which:

- abuse or neglect of a child is known or suspected
- the child has died or been seriously harmed

Whilst no City child protections matters have necessitated a SCR, the partnerships we maintain facilitate our access to them and the learning they provide to enable continuous improvement.

24. Working Together to Safeguard Children (Department for Education, 2018) changed the structure of these reviews, now known as Child Safeguarding Practice Reviews (SPRs). Responsibility for learning lessons lies with a new national panel – the Child Safeguarding Practice Review Panel (the Panel) – and with local safeguarding partners.

The Panel and local partners help to identify serious child safeguarding cases that may raise issues of national importance. They commission a review that involves all practitioners who may be relevant or have information that will help to provide learning for future practice.

For Designated Safeguarding Leads and others with responsibility for safeguarding in schools, learning from reviews is important to improve the way that children and young people are protected.

Under Working Together to Safeguard Children's new arrangements, the education sector is seen as a 'relevant agency' but not a statutory partner. It is therefore important for schools to inform the process of learning and think strategically about any possible cases that may help to inform and drive practice in education – advocating for this view with safeguarding partners to inform the commissioning of SPRs.

25. **Future Developments;** Vulnerability, including child protection matters spans the following thematic areas:

- Mental Health
- Adults at Risk
- Child Abuse and Neglect
- Female Genital Mutilation
- Honour Based Abuse
- Child Sexual Exploitation
- Modern Slavery and Human Trafficking
- Managing Offenders
- Prostitution
- Sexual Offences
- Missing Persons
- Gangs
- Knife Crime
- County Lines

Demand in many of these areas is increasing and as such is requiring improvements to be made to the way we monitor, measure and manage these areas, coordinating the police response. Specialist Operations and Local Policing are working together to design a CoLP Multi-Agency Safeguarding Hub (MASH).

The aim for the MASH is to improve how we bring together all the agencies involved in safeguarding of vulnerable adults and children linked to the above thematic areas. Bespoke to City requirements this will build on existing partnerships (local

authority, health and well-being partners) ensuring that when any related abuses are reported to any of the agencies involved, all the agencies can become aware of them as quickly as possible and use the full range of powers and options available to all of them to put the best possible solutions in place to help the victims.

## **Conclusion**

26. Volume of demand linked to child protection in the City of London is low, but the associated harm can be high. Considerate to the potential risks associated with the harm is why this is an area of high focus and continuous improvement. The importance of cross-sector ownership cannot be understated and building on the strong relationship we already have with our CoLC colleagues and Pan-London/National partners, further improvements will be delivered to strengthen the service we deliver to victims. This will further the legitimacy of our service and increase public confidence to engage as we have already seen e.g. in the way victims of non-recent abuse are coming forward.
