5. **ANY OTHER BUSINESS THAT THE CHAIRMAN CONSIDERS URGENT**  
**Pension Reform**

At the request of the Chairman the Chamberlain briefed the Board on emerging proposals for the reform of local authority pensions. He noted that the Minister had recently written an article querying whether or not too many local authority pension schemes existed, with too much associated administration. The Chamberlain explained that he had done some work for London Councils on developing an approach which concentrated around the concept of a Collective Investment Vehicle (CIV). He told the Board that there was time for the Corporation to make a formal response to the government consultation, but that he would welcome a decision from the Board at the meeting on whether or not they were content in principle with the CIV. If so, the Chamberlain explained that each local authority would commit up to £25,000 to the design scheme, although he observed that as some London local authorities had already signed up, the figure should be less to the scheme. He said that he was happy with the idea in principle and with the requirement to commit the monies. He concluded by informing the Board it may be likely that either the Corporation or Wandsworth may be requested to act as the lead authority in establishing the CIV.

The Board proceeded to discuss the proposal:

- A member queried the capacity of other London local authorities to participate in the scheme and the administrative burden of a London-wide scheme. He expressed the concern that in the event of the Corporation acting as lead authority, it would quickly become tied down and lose its freedom of action.
- A member said that he was pleased that central government was against a pooled Local Government Pension Scheme as this meant a lack of control.
- A member concurred, welcoming the greater control offered by a CIV.
- The Chairman noted his support for the Chamberlain's recommendations.
- The Chamberlain informed the Board that he had been nominated to the shadow joint local authority-central government board that was due to monitor the new scheme.
- Noting the possibility that the Corporation may be asked to be the lead authority in the new scheme, two members observed that it would be best if the Corporation was seen to be proactive in putting itself forward for the role as this would likely mean the Corporation would have early sight of emerging proposals.
- The Chairman concluded discussion by noting the matter was also before the Policy and Resources Committee.

6. **EXCLUSION OF THE PUBLIC**

**RESOLVED** - That under Section 100(A) of the Local Government Act 1972, the public be excluded from the meeting for the following items on the grounds that they involve the likely disclosure of exempt information as defined in Part I of the Schedule 12A of the Local Government Act.

The Corporate Treasurer reported that the City's external tax advisers had concurred that the three City Funds are legally separate entities, but that City Cash and City Fund could be used for group transfers. However the third fund – Bridge House Estate – had to be treated as a charity, and that the Pension Fund as part of the Local Government Pension Scheme was again a separate legal entity.

The Corporate Treasurer introduced the Update on Current Issues and provided summaries on some of the issues arising on the agenda.

The Board considered the report of Aon Hewitt introducing real yield risk within the context of the pension fund. It was agreed that further consideration should be given to protecting the City against interest rate and inflation risk and a further review of the strategic asset allocation of the pension fund be undertaken following consideration of the results of the March 2013 actuarial review towards the end of the year.
