Subject: Objection to variation of licence for 60 Bartholomew Close

Hello Licensing

I would like to object to the request for a variation of the licence for 60 Bartholomew Close. The outside tables are very close to Middlesex Passage and I don't think alcohol should be served in an area which is surrounded by residential properties above as well as to the left and right. The risk of noise pollution and general nuisance from late night diners/drinkers is considerable. I understand Stem and Glory is an award winning restaurant focused on food rather than alcohol sales. In that respect, it is different in focus from Lino as well as geographically directly located to residential properties unlike Lino which is surrounded by commercial space.

Your faithfully
