- In response to a query, the Chief Operating and Finance Officer noted that a deep dive on non-pay items had been conducted and a summary could be provided outside of the meeting (7/2020/P).
- A Member noted that the Performance and Resource Management Committee had been able to scrutinise the pay items in the budget to an appropriate degree – the Committee would at its future meetings conduct a similar exercise on non-pay items.

- The Commissioner noted that the Chief Operating and Finance Officer, took the post when the 2019-20 budget had already been built and some of the legacy issues were as a result of how that budget was built., However, the Chief Operating and Finance Officer had built the budget for 2020/21 which would provide Members with greater assurance and oversight of pay and non-pay items. He asked Members to bear in mind that the Force had at points over the past financial year been carrying up to 100 vacancies.
- A Member welcomed the spending rate analysis set out within the report.
- A Member expressed concern that the vacancy rate was highest in crime and uniform policing – key areas in the City of London Policing Plan.
- In response to a question regarding re-payment of policing costs for the XR protests in 2019-20, the Commissioner replied that the Force would not be reimbursed by the Home Office for any cost items above 1% of the Force’s budget. He agreed to clarify outside of the meeting whether this was per policing event, or an aggregate figure for the financial year (8/2020/P).
- A Member commented that an issue such as this – Home Office reimbursement – was one to be factored into the Force and Authority’s emerging corporate engagement.

- In response to a question, the Chief Operating and Financial Officer noted that the savings tracker was subject to monthly review by an officer-level working party, with a quarterly update provided to Members.
- A Member suggested that savings should be phased on a monthly basis to assist in identifying what saving lines were at risk in a timely fashion.

- The Commissioner assured Members that the bottom line of savings would be achieved by the Force.
- Members discussed to what extent they should direct what savings should be made by the Force to achieve its bottom line. The Deputy Chief Executive noted that, ultimately, the budget was approved by both the Finance Committee and the Court of Common Council. The Treasurer added that the City of London Corporation was seeking to integrate its business plans and budgets more effectively, which would have implications for the Force and the Board.

**14. QUESTIONS ON MATTERS RELATING TO THE WORK OF THE BOARD
Electric Scooters**

In response to a question from a Member regarding education and enforcement activity for the riders of electric scooters, the Commander (Operations and Security) acknowledged the growing popularity of electric scooters and noted that there were current debates to legalise their use as a climate friendly mode of transport. Since July 2019 the City of London Police had taken part in a pan-

London approach to the issue. In summary, a warning is issued to an electric scooter user on the first occasion (of which 119 had been issued in the City since July 2019). If the same rider came to notice again the scooter would be seized. There had to date been 3 such seizures to date.

Additional Funding for Police Forces

In response to a question regarding how the Force would be held accountable for reduction in crime, particularly in light of the fact that economic crime constituted 50% of all crime but attracted only 1% of funding, the Commissioner replied that it was likely issues such as violent crime would be high on the government's agenda. Nevertheless, it was his impression in the wake of the Mackey/Savill Review that there was a growing awareness that combating fraud was a responsibility of all 43 Forces in England and Wales.

Business Continuity and COVID-19

In response to a question regarding the Force's planning ahead of a possible COVID-19 epidemic, the Commander (Operations and Security) noted that he was chairing the Gold Group for the Force's response. He noted that the Force was putting measures in place both as a responder, and an employer and working with partners including the City of London Corporation and other emergency service providers as part of London Resilience. Moreover the Force was making enquiries among its contractors to establish what measures they were putting in place to mitigate the impact of COVID-19 on delivery of contracts and supply chains.
