Summary

The Academic Board is established under the *Instrument & Articles of Government* and reports to the Board of Governors.

The report of the Board contributes to the Board's assurances on the student experience from admission to graduation, assurances around academic standards, and the School's commitment to continuous improvement. In light of requests that academic risks are more prominently highlighted in School committees, in this report an experimental way of tagging these risks has been introduced (all these risks are already linked to the existing risk register).

The Academic Assurance Working Group will consider this report and related documentation when it undertakes its annual review of academic assurances.

Recommendations:

- To note the contents of Academic Board annual report for 2019/20, in particular the action plan.
