CHB COLP PSB 03 Pension Scheme Administration (Personnel)	Cause: (i) Ineffective succession planning. (ii) Inadequately trained staff. (iii) Absences/ Increased Staff turnover. (iv) Data Accuracy. Event: The failure of administrators to accurately calculate and pay the correct levels of benefits. Effect:(i) Inaccurate benefits paid or delayed. (ii) Increased costs of inefficiencies. (iii) Financial penalties/ sanctions	 Likelihood  Impact	4	The Regulations of the Police Pension Scheme set out how police pensions should be calculated; the procedures to be followed in certain circumstances (i.e. normal retirement and ill health retirement); the timeframes/deadlines to be adhered to; and the notifications to be provided to Scheme members. In addition, other bodies such as the Pensions Regulator, HM Revenue & Customs, the Office of National Statistics and the Financial Conduct Authority impose rules that work alongside the Scheme Regulations or may even supersede them. <u>The pensions administration software is designed to do the majority of the calculations that are performed, but in some cases manual calculations are required – this may be because the software has not caught up with regulatory changes or simply that the software cannot do what is asked of it. Manual calculations require greater knowledge and ability on behalf of the staff required to perform them; are often significantly more time consuming; and introduce a greater risk of human error.</u> If the members of the Pensions Office that are responsible for administration of the Police Pension Scheme lack the necessary knowledge and skills	 Likelihood  Impact	4	31-Mar-2021	

8-Oct-2019 Chamberlain				payment of benefits may be delayed and may be inaccurate. This may lead to financial penalties and sanctions being imposed by the governing industry bodies such as the Pensions Regulator. 21-Jan-2021				Constant
