Summary

In July 2020 details of the proposed Cyclical Works Programme (CWP) bid list for 21/22 were presented to this committee. The report detailed the proposed bid for the properties within your Committee's remit. Since that report was presented and considering the Covid-19 pandemic a review has been undertaken of the CWP bid for 21/22 and it has been reduced. Only Health & Safety related projects will now be undertaken in 21/22 which has reduced the overall CWP bid list down from £12m to £4m, this reduction allows for the City to make savings to help its immediate financial pressures and for the project delivery team to catch up after a period of non-activity at the start of the Covid-19 pandemic and lockdown.

This report sets out the details of projects which will now be undertaken in 21/22 and details of the projects that will be delivered within that year which form part of the previous year's programmes.

In addition, the Chairman of Corporate Asset Sub Committee requested that Officers review the current CWP approach and whether it requires updating after 4 years in operation. This exercise has been undertaken and the findings presented to Corporate Asset Sub Committee on the 15th September 2020, these proposals were approved and therefore this report also sets out the main changes to how the CWP will operate and be delivered in year 22/23 onwards.

Main Report

Current Position

1. At Corporate Asset Sub Committee on the 15th September 2020 they approved a reduced CWP bid for 21/22 to allow for works delayed due to Covid-19 to be brought back on schedule and for the new CWP approach to be implemented for year 22/23.
2. Since then Officers in City Surveyor's and Open Spaces have been working to identify any further projects which need to take place in 21/22 and cannot be deferred. The details below highlight the projects that will now proceed across the Open Spaces portfolio.
3. The headlines for all Open Spaces are:

4. As a result, the following works for Open Spaces will be undertaken in 21/22:

5. The overall provisional CWP 21/22 bid for Open Spaces was £1,596,800 this is therefore a significant reduction in this amount.
6. Only projects with the highest health and safety score have been put forward in the bid list for 21/22 and it is expected that they will be delivered within that year.
7. Appendix A includes a list of all projects put forward for the original 21/22 bid and are now deferred.
8. Any projects not funded will be moved to the bid list for 22/23 and with the new CWP approach approved by Member's there is commitment to fund and deliver all projects within the bid list which is put forward.
9. Whilst only a reduced bid is agreed for 21/22, there are already c.265 projects to Open Spaces which have already received funding with a combined value of c.£4.2million. These will be delivered through the usual CWP process over the next 3-4 years. The delivery of all CWP programmes is being smoothed

over 4 years rather than the traditional 3 years, this is to assist in the overall financial forecasts of the City.

10. Since the initial writing of this report the UK has moved back into a 3rd National Lockdown on the 4th January 2021. Therefore, the City owned Open Spaces are seeing a significant increase in footfall and usage of the sites. This has raised concerns about the reduced level of CWP funding in 21/22, therefore after discussions held at a Special Budgetary Meeting of the Hampstead Heath Management Committee on the 7th January 2021, the Superintendent is working with the City Surveyor's Department to develop a list of projects that have now become a Health and Safety risk and require funding either through the 21/22 bid or submitting a bid for the money from the existing savings achieved through currently funded CWP projects. The first project of which for gully repairs at a value of £28,000 has been approved on the 25th January 2021.

Moving Forward - New Approach

11. The following at the key changes to the CWP which were approved at Committee on the 15th September 2020:
- Moving to a condition-based maintenance approach through the new Computer Aided Facilities Management (CAFM) system currently being procured and due to be implemented Autumn 2021
 - Focus the programme delivery into a single financial year
 - Removal of smaller value projects under £10,000 by uplifting the City Surveyor's, DBE's or Barbican's local risk budget respectively (using funds previously earmarked for the CWP) to allow project delivery to focus on the larger scale projects
 - Altering the project prioritisation matrix to make it more fit for purpose and a fairer system for all properties
 - Smoothing of the already agreed CWP programme to create a '4th' year

- Introduction of 3-5 yearly building condition surveys funded from funds previously earmarked for the CWP

Corporate & Strategic Implications

12. Cyclical Works Programmes set out to deliver three of the key objectives in the Corporate Property Asset Management Strategy.

- SO.1 – Operational assets remain in a good, safe and statutory compliant condition.
- SO.2 – Operational assets are fit for purpose and meet service delivery needs.
- SO.3 – Capital and supplementary revenue programmes are affordable, sustainable and prudent and that the limited available resources are directed to the highest corporate priorities.

Conclusion

13. This report is to update Members on the reduced CWP 21/22 bid for Open Spaces and explain the new approach for the CWP which will be adopted from year 22/23 onwards which has been approved by the Corporate Asset Sub Committee.
