CVD19 SG PROP 01 Impact on investment portfolio (SUR)	Cause: The spread of COVID 19 has affected business and trade resulting in: . Lack of trade . Lower investment transactions . Lower lettings transactions . Longer development and refurbishment timelines . Impact on valuations Event: The spread of COVID 19 impacts on the City Surveyors business, namely collection of rental income Effects: Through COVID 19 and the lockdown and resultant working from home tenants are not able to pay their rental payments leading to rent arrears or forfeit leases on managed/FR&I tenants, confidence in the City of London Corporation and the City of London is damaged	Impact	16	Turnover rents for 'at risk' tenants was agreed in November 2020 for a one-year period with a five-year period for Leadenhall Market tenants. The moratorium on enforcement action has been extended to March 2022. Thereby making rent collection difficult. For Bridge House Estates properties, decisions are made in the best interests of the charity. 30 Jun 2021	Impact	8	30-Sep- 2021	Constant

CVD19 SG PROP 02 Property Projects (SUR)	Cause: The spread of COVID 19 has continued to escalate affecting the Capital Projects which are currently underway. Event: The restrictions as a result of COVID-19 impacts on the delivery of Capital Projects for the City of London Corporation. Effects: Due to the restrictions as a result of COVID-19 Capital Projects by the Property Project Group will be affected resulting in project delays and financial consequences. (this can include shortages in labour or materials, or slowing of work due to PHE H&S guidance)	Impact	16	PHE continue to update their guidance for contractors and workers on site. The City will continue to monitor these updates for any impact on project delivery. There has been a reduction in the levels of contractors returning tenders. It is uncertain as to the cause of this reduction, and this will be tracked in the coming months. There are isolated incidents with some contractors not adhering to guidance, and this is being dealt with where appropriate. We have been informed by some statutory undertakers that they will only be attending critical projects. If this policy persists this will impact project delivery. The department will monitor implications of the July 19 lockdown easing, and what this means for project delivery. 30 Jun 2021	Impact	12	30-Sep- 2021	Constant

CVD19 SG PROP 03 Property Projects - Site Closure (SUR) 28-May-2020 Ola Obadara	Cause: COVID 19 and current or future PHE guidance. Event: Site cannot comply with current, or potential future PHE guidance and social distancing requirements Effects: Site shutdown until a point where social distancing requirements and PHE guidance allows a return to work.	Likelihood	8	This risk reflects the fact that it will not be possible to recommence work at some sites due to current PHE and HSE guidance – particularly in relation to social distancing. Potential future PHE guidance may also mean further site closures. New guidance is being released by Construction Leadership Council (CLC) which may limited the number of workers onsite. The City is monitoring these updates. As contractors have returned to site, progress is being made across the piece, but some sites may need to shut in the future. Some contractors are undertaking their own risk assessments and instituting site rules above PHE guidance. The department will monitor implications of the July 19 lockdown easing, and what this means for project delivery. 30 Jun 2021	Impact	30-Sep- 2021	Constant

		such risks. Delays caused by COVID-19 impacts may be covered under a force majeure or similar clause of the contract. Contractors will argue that COVID-19 related delays were wholly unforeseeable and outside of the contractor's control, and therefore the contractor should not be held responsible. Under these circumstances, many contracts entitle the contractor to a time extension of the project completion date, and some contracts also allow for the contractor's recovery of increased performance costs. For new contracts, these will account for Covid-19 and these 'contractual risks' will be built into the price and timeframes – although it should be noted that Covid-19 remains a fluid challenge, and future changes to SOPs may result in increased risk.
