CV19 SG PROP 02i	Material and components	It is the contractor's responsibility for managing materials on site. There has been an issue with regards to the availability of materials and components when projects are on-site – particularly related to long lead items and those from abroad. This has been due to factory shut downs / slow downs, reduction in port activity, and workers returning to countries of origin over the lockdown period. Property Project Group is monitoring for impact, although this appears to be easing currently.	Ola Obadara	17-Aug- 2021	31-Dec- 2021

PROP 03a		construction contracts and appropriately allocated to the party in the best position to mitigate such risks. Delays caused by COVID-19 impacts may be covered under a force majeure or similar clause of the contract. Contractors will argue that COVID-19 related delays were wholly unforeseeable and outside of the contractor's control, and therefore the contractor should not be held responsible. Under these circumstances, many contracts entitle the contractor to a time extension of the project completion date, and some contracts also allow for the contractor's recovery of increased performance costs. For new contracts, these will account for Covid-19 and these 'contractual risks' will be built into the price and timeframes – although it should be noted that Covid-19 remains a fluid challenge, and future changes to SOPs may result in increased risk.
