CHB LGPS 009a McCloud Remedy	<p>Cause: Implementation of the proposed remedy following new pension legislation and scheme specific regulations for the removal of age discrimination from the LGPS due to the McCloud judgement.</p> <p>Event: The impact of scheme amendments upon scheme members, Pensions Office and scheme employers due to implementation of the proposed remedy for McCloud.</p> <p>Effect: The Pensions Office is unable to adequately comply with legislative and regulatory amendments arising from the proposed McCloud remedy.</p>	<p>Likelihood</p> <p>Impact</p>	16	<p>In 2014 the LGPS was reformed. These reforms included an ‘Underpin protection’, for people closer to retirement. In December 2018, the Court of Appeal ruled that this directly discriminated against some younger pension scheme members – this is now referred to as the McCloud Judgement or McCloud.</p> <p>On 15 July 2019 the government confirmed that the difference in treatment would be remedied in the LGPS.</p> <p>On 16 July 2020 the government published a consultation document that set out options for how the government proposed to remove the discrimination.</p>	<p>Likelihood</p> <p>Impact</p>	4	April 2023	

			<p><u>On 4 February 2021 HM Treasury published its response to the consultation document and set out its preferred remedy choice.</u></p> <p><u>DLUHC have produced a document that gives general details as to how the remedy proposal would work for the LGPS.</u></p> <p><u>Further legislative changes are required before the remedy can be implemented, however, due to the complexity of the proposed remedy pension administrators and pension systems providers have commenced development of systems and processes based on current understandings to enable the remedy to be implemented.</u></p>

CHB LGPS 009d	System Development calculation/revaluation	<p>Software provider currently developing calculations and recalculations of deferred benefits and those already in receipt of pension to identify incorrect values and any over/underpayments.</p> <p>Development should include bulk calculations and calculations for individuals, include revised pension amounts, arrears payable/collectible (benefits and contributions) plus interest payable if applicable.</p>	Matt Mott	<u>29-Sept-2021</u>	<u>1-Apr - 2022</u>
CHB LGPS 009e	Working in conjunction with LGA to prepare communications and standard responses (FAQs) to be sent to affected scheme members.	<p>It will be essential for communications to be regular and clear. Further detail about the proposed remedy and delivery of it, including scheme members who may be affected, must be known prior to any specific remedy communications.</p> <p>The Pensions Office website carries current information from various sources including DLUHC. Further communications will be added when they are released.</p> <p>The Annual Benefit Statements (ABS) contain a statement on McCloud provided by the LGA</p> <p>The ABS will need to be amended following implementation of the amended regulations as it is anticipated McCloud data will need to be included for each scheme member.</p> <p>Scheme members who may be affected will need a final communication confirming if benefit values have been amended and if so by how much, including value of arrears and interest if applicable.</p>	Matt Mott	<u>29-Sept-2021</u>	<u>1-Apr - 2022</u>

CHB LGPS 001 Insufficient assets	<p>Cause: The asset allocation of the Pension Fund is unable to fund long term liabilities</p> <p>Event: There are insufficient assets to meet liabilities</p> <p>Effect: Reduced income or lower than anticipated growth. Participating employers are required to provide further funding through increased contributions to finance liabilities.</p>	 <p>Likelihood</p> <p>Impact</p>	8	<p>The Pension Fund's absolute return target has been set at 5.2% annually from 1st April 2020 by the Financial Investment Board (which is consistent with the strategy for funding the Fund's liabilities). <u>The Fund's investment assets have continued to perform strongly during this financial year (2021/22). As at 31 July 2021, the Fund is exceeding its absolute return target over all time horizons (the last quarter, one year, three years and five years). The Fund trails its asset allocation benchmark over the past quarter and the past five years but has outperformed this benchmark over the last one and three years. The score for this risk has been maintained to reflect the judgement that the likelihood of this risk materialising is "unlikely".</u></p>	 <p>Likelihood</p> <p>Impact</p>	8	31-Mar-2022	■

CHB LGPS 001a	The Investment strategy of the Pension Fund is reviewed at least every three years by the Financial Investment Board with proper advice from the Investment Consultant.	Following shortly after the completion of the 2019 triennial valuation of the Fund's liabilities, the Financial Investment Board reviewed the Pension Fund investment strategy at its meetings in June and July 2020. This ensured that the investment strategy remained appropriate in the context of the Fund's updated liabilities valuation and the current investment environment.	Caroline Al-Beyerty; Kate Limna	29-Sept-2021	31-Mar-2023

CHB LGPS 001b	The investment performance of the Pension Fund is measured against absolute return targets required to meet long term objectives. This is reported to the Financial Investment Board throughout the year and is supplemented by market insight from the Corporation's Investment Consultant who will assist any strategic decisions required in between the three-year formal strategy reviews.	Individual Fund investment performance is brought to each Financial Investment Board for consideration.			Kate Limna; Matt Mott	29-Sept-2021	31-Mar-2022

CHB LGPS 002d	Checking for errors or inconsistencies in valuation extract report before submission to the Actuary	Officers review data quality prior to submission to the actuary. Additionally, member data is submitted separately from employer level cash flow data, which are held on two distinct management information systems. As a result, errors are more easily identified during the valuation process itself. For example, if the member data demonstrates that a given number of members belonging to a single employer retired during the valuation period then this should also be evident from the benefit payments reported in the cash flow data.
