## 2022/23 Annual Bids - Initial Assessment Amber

Project Name	City Fund £'m	City's Cash £'m	BHE £'m	Total Funding Allocation £'m	Commentary /why is this Amber
<b>Critical end of life replacement:</b>					
Central Criminal Court - Lighting to South Wing Courts	2.000	-	-	2.000	This was rated as amber in 2021/22 bid round -no significant change since last year. Replacement lighting will be LED - information regarding possible climate action benefits are not currently available.
Barbican Centre - Repairs to roof, expansion joint repairs and drainage and water systems	5.000	-	-	5.000	A holistic approach is required to resolve the long-standing issues with the highwalks, Barbican Centre and Guildhall School. Query re exclusion from Barbican Renewal scope.
Barbican and Golden Lane Healthy Streets and Zero Emissions Zone	2.000	-	-	2.000	The aim is to extend the benefits of the Beech Street air quality etc improvements to the surrounding area encompassing the wider Barbican and Golden Lane area. Need to see the Beech Street benefits delivered before committing additional central funding.
Guildhall Humidification Plant replacement - remaining areas	0.470	0.490	0.020	0.980	The essential areas of the Guildhall are covered by the PSDS grant - the remaining areas were deemed non-essential. Need clarity on Guildhall Masterplan before progression.
DCCS - Library Management System	0.050	-	-	0.050	This bid includes £30k of existing staff costs which results in a net bid for £20k of central funding. Such a sum should be accommodated within existing local risk budgets.
<b>High Priority Policy:</b>					
Walbrook Wharf Feasibility Study - 2027 & beyond	0.350	-	-	0.350	Essential need to start this exercise now is not clear.
IT - Robotic automation: funding to undertake scoping exercise to drive process design to support Robotics and automation	0.032	0.015	0.004	0.050	Whilst this bid appears complementary to the ERP project the essential need is not clear.
IT - Data Repository/Warehouse	0.192	0.087	0.021	0.300	The aim is to fulfil an organisation need for infrastructure to clean and contain data that can be easily accessed and used to make better decisions and may offer opportunities to commercialise data. Amber as the essential need unclear.
Guildhall Complex Post Covid New Ways of Working - Stage 2 works and furniture	1.008	1.050	0.042	2.100	Whilst new ways of working are a high priority, the model has yet to be agreed alongside the Guildhall Masterplan and therefore this bid appears premature.
St Paul's Gyratory	16.320	-	-	16.320	Whilst there are considerable benefits to this scheme (road safety, air quality etc), the extent of the central funding requirement is overstated in this bid as significant external developer contributions are envisaged. Consideration of a minimal allocation to fund the investigations to inform the central funding requirement may be appropriate at this stage.
<b>Other:</b>					
IT - Application rationalisation funding to undertake scoping exercise to eliminate duplicate software applications	0.032	0.015	0.004	0.050	Whilst this is a sensible forward thinking suggestion, it is not a good fit with the current essential prioritisation criteria. The request is for funding to consider the art of the possible.
IT - CRM development for Markets	0.032	0.015	0.004	0.050	Business need for a cross-market customer relationship management system to manage stakeholder/customer contacts, with the potential to generate income from the product with other wholesale markets in the UK. Not a good fit with current essential prioritisation criteria .

## 2022/23 Annual Bids - Initial Assessment Red

Project Name	City Fund £'m	City's Cash £'m	BHE £'m	Total Funding Allocation £'m	Commentary /why is this Red
<b>Critical End of Life Replacement</b>					
Heating Replacement – Mayors and City of London Court	-	1.350	-	1.350	This court is due to move to the new court at Fleet Street and a capital receipt is included in the Salisbury Square funding Strategy. We need to develop the disposal strategy in order to determine whether a new heating system represents sound VFM.
Walbrook Wharf Full Replacement of Phase 2 Heating & Cooling System	0.735	-	-	0.735	An appropriate asset management strategy needs to be in place which depends on plans for the future of Walbrook Wharf.
IT - Libraries IT Refresh ( top-up bid)	0.280	-	-	0.280	This is a request for top-up on the £220k agreed in principle as part of the 2021/22 bids. Feedback is that the increases in scope/cost are in the nature of 'nice to haves' rather than essentials.
Barbican Centre - Replace live streaming infrastructure	0.700	-	-	0.700	There is a strong likelihood of securing external funding for this work, negating the essential need for central funding.
<b>Health and Safety</b>					
65 Basinghall - Switch Room - Asbestos and Live Electrical Equipment Removal, and Water Ingress Solution	0.612	0.637	0.025	1.274	These works were proposed to unused areas in 65 Basinghall Street on the assumption that it is required for the JCCR - this has not been confirmed. Options for the Guildhall Masterplan may overtake the need to undertake these works in isolation.
Hampstead Heath Pergola Oak Structures repair and replacement	-	1.500	-	1.500	This scheme is to be used as a pilot for raising external funding to deliver improvements on the Open Spaces, negating the need for central funding.
<b>Other</b>					
St Paul's Cathedral Re-Lighting	1.500	-	-	1.500	Since 1966, there has been an informal arrangement whereby the maintenance of the external lighting system and running costs are the responsibility of the Corporation. The annual running costs of £25k would reduce to £10k if implemented (a 100 year payback on the proposed City investment of £1.5m). Efforts to continue to raise additional external funding (including from the Church) in accordance with the previously agreed external funding strategy should be pursued to support the existing pledge of £500k. There is also a possibility to secure developer funding through S106 obligations on future developments in the vicinity.
Healthy Streets Minor Schemes Programme	1.000	-	-	1.000	This request is for a general provision to undertake numerous ad-hoc minor improvements (<£50k) on-street, to address road safety etc issues, many of which previously would have been funded through TfL programmes or local risk. Should be looking to external funding (S278 etc) and local risk budgets for such minor schemes.
