I am writing to object to the application to vary the licence for these premises.

You may recall my objecting to the original application, and asking that the the hours for sale of alcohol be less than those requested or, indeed, those granted.

Since the unit has remained empty since that time, it hasn't been possible to monitor the effect of the licence granted. For a unit so embedded in residential units, however, I think the variation to extend would create. public nuisance to residents in terms of late night noise.

Many thanks
