1. Introduction

The Lord Chancellor's Code of Practice on the Management of Records under the Freedom of Information Act 2000, states:

"A school should have in place an overall policy statement, endorsed by top management and made readily available to staff at all levels of the organisation, on how it manages its records, including electronic records."

2. Contents of policy

Like all organisations, schools need to have records which document the full range of their activities. The law and ISI/Ofsted standards require that a comprehensive~~large number of~~ records are maintained and kept by schools covering a range of issues relating to staff and pupils, including:

- An Admissions Register (the School Roll) containing the prescribed information about each pupil
- An Attendance Register that is maintained in accordance with the regulations
- A record of sanctions for serious disciplinary offences, and exclusions
- All incidents of bullying
- Pupil progress and attainment records
- Single Central Register maintained in accordance with the regulations
- Pupils' health records
- Records of complaints and their outcomes

This policy sets out guidelines for recording, managing, storing and disposing of this data, whether it is held on paper or electronically. It sits alongside the school's Parent & Pupil Data Protection Policy and the City of London Employee Data Protection Policy.

3. Record keeping policy

Records are the life blood of any school. The school needs to create and maintain accurate records in order for it to function. The policy for managing records at City of London School for Girls has been drawn up in conformity with legislation and regulations affecting schools.

4. Current pupils

An electronic file is kept for each pupil. The file holds the registration and acceptance form; (the parent contract), and the academic record of a pupil as she progresses through the school. It will also include reports of all conversations between parents and members of staff about significant academic or pastoral issues, school reports, references from previous schools and references

prepared for universities and other information held on the school's portal covers: the pupil's name, address, form, and emergency contact details, academic performance, subjects studied and daily attendance. Confidentiality of personal information is protected.

Information about pupils is also temporarily stored from time to time in confidential working files kept by teachers in pursuance of their duties, such as 6th form university application information used by the Head of Careers, subject related information kept by Heads of Departments and notes related to ongoing concerns that have not reached a conclusion kept by pastoral staff.

Information is also stored on secure and encrypted cloud-based systems. The main example of this is the School's use of MyConcern which is a website especially designed for schools to record and manage data relating to safeguarding concerns. Teachers are also permitted to use online mark books to record students' academic progress. In all cases, the processing of personal data, including its online storage, must comply with the current and relevant data protection legislation.

5. Pupils with special educational, welfare of medical needs

The names of pupils with special educational, welfare or medical needs are recorded and any details of special provision to be made for individual pupils are made available to those staff with a need to know that information.

6. Medical records

A confidential medical record for each pupil is kept securely by the School Nurse. The medical record contains: the medical questionnaire that the parents completed when their child joined the school, and records of all treatment and immunisations that a pupil receives during her time at the school, including records of all accidents and injuries to the child. They include any significant known drug reactions, major allergies and notable medical conditions. This information is available to staff likely to administer medication or treatment. The Catering Manager holds details of pupils with food allergies.

The School Nurse will provide a list of the names of current pupils with medical conditions that may be of relevance to staff in their dealings with pupils, for example, when arranging trips and visits, so that the teaching staff will know that they should consult the School Nurse about a particular individual when arranging an activity.

In ~~addition~~addition, the school's counsellors maintain confidential files about students who see them through the confidential counselling system, to which no one else in the school has access.

7. Financial records

The Bursar and finance team holds financial records in relation to all pupils throughout their career at the school. These cover: a record of the deposit, the acceptance form, bills for tuition fees and extras throughout a pupil's time at the school. If a pupil receives a bursary or scholarship, this will form part of the record, along with records of annual assessments and awards.

8. Access by staff

All teaching and office staff are able to access password protected information as needed and authorised. Teaching staff may consult the pupil records held in the School Office.

Access to medical records is restricted to the School Nurse. Access to financial records is restricted to the Headmistress and the Bursar and their staff.

9. Data protection

Parents accept a place for their child at the school in the knowledge that data about pupils and their parents will be collected periodically and stored and processed in order to allow for the efficient operation of the school.

Parents who accept a place for their child at the school agree to the school using photographs of their child (without naming them) and information relating to her achievements for promotional purposes, which may be published in the prospectus or on the website.

The City's notification to the Information Commissioner's Officer includes explicit reference to the processing of personal information for the provision of education, and the use of biometric technology.

10. Access by parents and pupils

The School and City of London Data Protection policies describe our duties and obligations under the current/relevant Data Protection legislation, including parents' rights and the rights of pupils aged 12 or over to have access to their personal data. It also covers the circumstances under which data would be disclosed to a third party.

11. Privacy Notice~~Fair processing notice~~

The school will comply with ~~Fair Processing Notices~~Privacy Notice(s) issued by it or another data controller, and is subject to the same legal constraints regarding the specified purpose(s) for the processing of the personal data, to which the ~~Fair Processing Notice~~Privacy Notice(s) applies.

12. Staff induction

All new teaching and office staff will be given training in accessing and managing school records, as part of their induction.

13. Records of past pupils

We currently keep all records of past pupils indefinitely following legal advice while we await the final recommendations of the Independent Inquiry into Child Sexual Abuse. At that point, we will review our procedures to reflect any mandatory requirements. Where records are to be disposed of we will securely destroy: all disciplinary, medical and financial records. We retain records of results in public examination, lists of school prizes and other significant achievements, together with information relating to former pupils' subsequent academic achievements. Records relating to former pupils (name, years they attended CLSG) are stored electronically in the Marketing office electronic database.

14. Complaints

Following DfE advice (September 2020) records of complaints are kept for a minimum of 7 years.
