

Appendix 1 - Analysis of the number of fraud cases investigated during 2021/22 vs 2020/21.

1. The table below provides a detailed analysis of the number of completed investigations during the 2021/22 reporting year showing all fraud and investigation types along with the value of investigated cases, including where these can be quantified, the value of corporate and whistleblowing investigations. It also provides the previous reporting year's data for comparative purposes

2. The nature of the concerns raised under the City's whistleblowing channels mean that not all investigations completed under this discipline result in a financial value, as other outcomes such as disciplinary action, or control environment recommendations result from our whistleblowing investigations.
