Yes please so it's the usual CCTV condition including showing us and you on demand and someone on site during opening hours that can work the system also the wording as a condition that requires a staff member to monitor the alcohol area and authorise each sale (which they should also be doing for any other age restricted items but that's for trading standards)

Hi Paul,

I have that other agreed condition (attached) which will be in the pack that goes to committee. I have also taken the whole back and forth as a representation to the other application (Blomfield Street) – is that correct? Last date for reps on that one not until 3rd June.

Thanks, Rob

You may be correct Robert he was going back wards and forwards so much see below. I also requested that a condition be included that a designated person be assigned to authorise sales and make age verifications. I will send you that e mail as well so you have the picture. It was very difficult because you can imagine him dealing with Amazon and getting decisions...

Hi Paul,

That is not my understanding but I have asked the question so I have this correct and will come back to you.

Kind regards

David

David, are you saying that staff at the premises are unable to show recent cctv images to officers on site?

Hi,

I am not sure we discussed it on either of these sites and was asked to ask for that flexibility in the wording of the condition. Is that possible?

Kind regards

David

Certainly for us to obtain a copy or for images to be uploaded to us in terms of a crime 48 hours would be acceptable in both cases however the request to view an incident which has potentially just occurred would need to be on instantly on site. This is fairly standard procedure. I thought the CCTV condition had been agreed

Hello Paul,

I write further to your email of last Thursday and apologise that I have not been back further on that. I had to speak with my client.

I had discussed with them the amendment to show that both licences should refer to a dedicated member of staff being present to supervise the alcohol area identified on the plan, we have not discussed the question of CCTV.

The client will have CCTV in the premises and whilst they expressed in the application a preference for 30 days storage happy to increase that to 31 days. There will be staff members conversant with

the operation of the system but the client would ask if a longer period of time could be given as a condition to provide images from the CCTV.

The system they employ involves linking in with the loss prevention team who would provide copies of the CCTV. The requests made can be accommodated but it would place an additional pressure on these individuals and so my client would ask if the condition could be softened, as it is in the model conditions linked to the Council policy and as was offered in the application to have a condition requirement to make images available within 48 hours?

If it was possible to agree that then my client would be grateful.

I look forward to hearing from you once you have had a chance to consider this.

Kind regards,

David
