- The Prevent team attended events including the London Prevent Network, a staff training event at the Guildhall School of Music and Drama and numerous pop up Prevent/Community Policing events aimed at City residents taking place at City libraries and St Bartholomew’s Hospital.
- In person presentations with City businesses have continued with events in Aldersgate, Threadneedle St and Bartholomew Close. Prevent officers continue to support various police and local networks to ensure an understanding of Prevent and the knowledge and confidence to come forward with any concerns they may have.
- The Prevent team deliver a training package to identify signs of radicalisation and what to do when this occurs. Prevent training sessions are being held internally on a monthly basis for new recruits and transferees.
- The Prevent team is continuing to work with the Prevent teams from around the country looking at the best ways for improving professional and best practice. Our CT Local Profile (CTLP) for the City of London is now complete and has been shared with trusted partners.
- The Prevent team has recently engaged with all City Schools and the City of London Police Cadets with a view to providing Prevent related workshops for all our children around the subject of Fake News, Conspiracy Theories and Truth.

- In the past year training has been delivered to all of the uniform groups, PPU and new starters/transferees and will be repeated from October 2022.
- Approximately 60 participants have attended these training sessions. External sessions for Mental Health nurses have also been provided along with holding stalls to raise awareness in conjunction with Sector Policing. This month the Prevent team have implemented training for all Control room staff at the CoLP.

Key Engagements in this quarter	Deliverables (if applicable)
<ul style="list-style-type: none"> Op Reframe continues and the most recent activity took place on the 30th September focusing on spiking and ‘Ask for Angela’. Officers, including our licensing team attended a number of bars and pubs ensuring that the staff were aware of the ‘Ask for Angela’ campaign and handing out covers for members of the public’s drinks, to ensure that if ever their drink is left unattended, they could return to it knowing it was safe. Educational programmes under the ‘Keeping Children Safe within Education’ banner is progressing. The ambition is to address Child Sexual Exploitation (CSE) and Child Criminal Exploitation (CCE), Hate Crime and Radicalisation within a educational programme which will be delivered to all five schools within the City. The aim is to help children understand what Indecent Images of Children (IIOC) are, along with grooming and memes that get sent out over Facebook and YouTube. Encouraging children to be able to speak out should they fall victim to any of these circumstances is key. This will need funding by both police and the educational boards and discussions have commenced to facilitate this. 	<ul style="list-style-type: none"> Op Makesafe is commencing on the 5th November. Op Makesafe is a way to measure how well City hotels understand Child Sexual Exploitation (CSE) and Child Criminal Exploitation (CCE). The operation consists of police cadets attending a hotel accompanied by an adult asking to book a double room. Due to the training, this should automatically raise suspicion and should contact police quoting ‘Op Makesafe’. This is an effective way to raise awareness of the current issues faced within the City and to also test the training given to hotels. Feedback will be given to the hotel staff and training will be offered should they look to book a room without raising suspicion or concerns. . The Enhanced Victims Survey (EVS) has re-commenced which allows feedback to the police regarding the ways in which they can improve their services to vulnerable victims of crime. This survey is completed by the Vulnerable Victim Advocate and feeds back into a data analyst who collates the information and passes this back with recommendations and adjustments which can be made to improve our service. PPU assisted in a hotel conference whereby inputs on Modern Slavery, Domestic Abuse, Child Exploitation and high harm offences were delivered. This increased the further awareness of ‘Ask for Angela’ and gave hotel staff the opportunity to engage in WAVE training.

- Q2 of FY 22/23 was challenging due to a high demand on policing in several different areas, all coming at a time in the calendar year which is historically lower with regards to a demand of cyber security engagements. Positively, there was a very strong finish to the quarter which ended with 1,687 users trained, 39 new organisations partnered with and 56 services conducted.
- Earlier in the year, Cyber Griffin observed a shift in business focus towards incident response training and security maturity assessments which appeared to be the result of global events driving a shift in security focus. Approaching Q3, focus has begun to swing back towards security awareness. This is significant for Cyber Griffin as awareness-based training is a more scalable service the team can deliver at greater capacity and to a larger audience.

- Cyber Griffin continues to develop a new Incident Response Exercise in partnership with Bristol University. The prototype for this work is now complete. The next phase of work will be testing after which Cyber Griffin will be adding another service to its current offering.
- Below is a comparison of monthly end users trained and services conducted across FY 20/21, 21/22 and 22/23. The graphs are correct up to the end of Q2/FY 22/23. For more details of Cyber Griffin services, please visit the Cyber Griffin website: www.cybergriffin.police.uk

Key Engagements in this quarter

- #ReportThePhish social media campaign (please see social media assets attached) this campaign launched on 11 July 2022 to raise awareness of how members of the public can report suspicious emails and texts, as well as what happens with those reports.
- The unified Cyber Protect advice reached an audience of over 8 million and was supported by 40 police forces. There was a 27% increase in reports to Suspicious Email Reporting Service (SERS) in the week following the campaign and a 16% increase in the following week, when compared to the week of the campaign launch that shows the impact the campaign made.
- A full update on EC and Cyber engagements is reported to the Economic and Cyber Crime Committee.

Deliverables (if applicable)

- Protect - Since April 2022, a new team have began providing protect advice to organisations whose cybercrime report has been reclassified as a cyber enabled fraud, and therefore does not get disseminated to other forces under RMLD. During Q2, the team provided advice to 318 organisations.

Key Engagements in this quarter	Deliverables (if applicable)
---------------------------------	------------------------------

- As part of this year’s **ASB Awareness Week**, the City of London Police worked in partnership with the City of London Corporation and partners to mark the UK’s second official ASB Awareness Week, which ran from 18-24 July. This year’s ASB awareness week focused on the impact of ASB on young people and the importance engaging with the wider public about their vital role in tackling ASB. Throughout the week, the City of London Police and partners engaged with residents, workers and visitors in the Square Mile about how they can report concerns and what the police and partners can do to tackle ASB.
- **Youth Engagement Workshops** - CoLP and the Metropolitan Police supported by partners ran a workshop with to build trust and confidence between the young people and police by working with a design team on a series of concepts that would support a positive future relationship. The event was supported by various partners and attended by fifty 16-24 years olds. The workshop gave the students a chance to explore future careers in the design and technology and Policing. The young people met with mentors, employers, business and government leaders and other students, helping to develop their communication, teamwork, creativity and networking skills..

- Following the **Youth Engagement Workshops**, further workshops are planned with the young people to develop their innovative ideas and their business and personal skills. Next steps will see workshops set up to explore bringing the ideas and suggestions to life

Data

Analysis

ASB Incidents

Anti-Social Behaviour incidents are showing a long-term downward trend which is reflected nationally. ASB is showing a 12-month comparison (Oct 20 – Sep 21 vs Oct 21 – Sep 22) decrease of -9.9% (-126). When compared to the benchmark year ASB incidents are seeing a -23% (-170) decrease. *Of note ASB incidents can be reported from the incident system or the crime system, these figures have been provided from the incident system.

Operational Activity

- City of London Police worked in partnership with City of London Corporation and partners to mark UK's second official ASB awareness week. The week focused on the impact of ASB on young people.
- Op Rocotto- This Operation ran on Wednesday 19th October, where for the entire day resources from across the force, the partnership and security industry were undertaking numerous activity across the city. This focused on ASB reduction schools outreach, , outreach with homeless / begging, bike marking, traffic stops, work to target phone snatch offences and in the evening was focused on night time economy proactive work which ran from 1800hrs to 0000hrs and focused on licensed premises check, crime prevention in respect of thefts and vulnerability.

Significant Results

- Dedicated Ward Officer's tasked with continued effort under Op Luscombe to support homeless persons to reduce begging and associated ASB and to ensure the continued recording and response to homelessness in the City, offering relevant support/referrals where appropriate. Last operation was conducted on the 25th October 2022.
- Dedicated Ward Officers tasked with addressing poor road-user behaviour (namely cyclists and e scooter riders on pavements and breaching pedestrian crossing signals), as this has been raised by residents as a concern. Drink spiking testing and education piece with drink toppers and new posters to prevent offences on Op Reframe on 30th September.

Future Plans

- Continued partnership work with City of London Corporation
- Welfare zone within NTE hours to provide safe spaces
- NTE police and City of London Corporation joint patrols

Data

Top 3 ASB Categories - Last 12 Months

Analysis

- The main point from the graph is the increase in begging/vagrancy which is the highest it has been since July 21. Inconsiderate behaviour is showing similar levels to the previous quarter and operational activity in this area is detailed on the previous slide.
- In the current period Inconsiderate Behaviour (n=99) is the most reported category of. The next most common are Begging/Vagrancy (n=60) which has really increased since last quarter, particularly for September 22. This is followed by Drunken Behaviour (n=38). Levels of noise nuisance complaints have decreased significantly from their peak in 2020 with just 18 reports this quarter.
- After reviewing records classified as 'Inconsiderate Behaviour' some records could have been recorded in other categories in table as they have referred to specific behaviours such as drunkenness, noise nuisance, vehicle nuisance, shouting and swearing etc.
- Categorisation is based on the recording officer's interpretation and where some incidents refer to multiple categories they may have been recorded against inconsiderate behaviour as a catch-all. This could explain why it is always the most prevalent category in data returns.
- NB: the categories are defined by the Home Office and so must be recorded in this way.
