Subject: Chicago Business School - alcohol license
Date: 23 November 2022 12:12:01

THIS IS AN EXTERNAL EMAIL

Dear Sirs/Madam

The Chicago Business School in Bartholomew Close has applied for a 7 day a week all day 3am alcohol license and all day eating. This is not acceptable on the following grounds:

This is a residential area with over 230 flats in the Barts development plus another couple of hundred flats in the near vicinity. The buildings here reflect noise very well therefore there will be significant disturbance late at night. This would also set a precedent.

No other licensed establishment in the area has such a late license 7 days a week.

If approved, this would be a hit on local pubs, bars and cafes who are struggling to recover from Covid and lack of footfall. One of the reasons why this office block and business school was approved in the first place was the positive benefit it would have on local hospitality businesses. Several hundred students per day, 7 days a week is a lot of potential business for local eating establishments.

Thanks
Veran
