THIS IS AN EXTERNAL EMAIL

As a resident of Bart's Square I wish to object to the Broad entertainment licence application made in relation to the above premises in Bart's Square. Bart's square is a mixed use development with a concentration of residential premises including young families. The terms of the UOC application are excessively broad and the proposed hours excessive and not conducive with a residential area. There are many amenities and entertainment venues available in the City and a seat of learning does not require such extensive entertainment licensing. Any bar license should be restricted to normal public house opening hours. Any entertainment licenses should be sought ad hoc and be reviewed by the Corporation taking account of frequency of events applied for and likely impact on quiet enjoyment and security of residents.
