

Committee(s): Epping Forest and the Commons Committee	Date(s): 18 th May 2023
Subject: Executive Directors Report	Public
Which outcomes in the City Corporation's Corporate Plan does this proposal aim to impact directly?	1, 2, 3, 4, 5, 11 & 12
Does this proposal require extra revenue and/or capital spending?	N/A
If so, how much?	N/A
What is the source of Funding?	N/A
Has this Funding Source been agreed with the Chamberlain's Department?	N/A
Report of: Juliemma McLoughlin, Executive Director, Environment	For information
Report author: Juliemma McLoughlin Executive Director Environment	

Summary

This report provides the Committee Members with an update on matters relating to the work of the Natural Environment Division of the Environment Department since the last Committee in February 2023.

Recommendation

Members are asked to:

- Note the contents of the report.
- Provide feedback on the contents of the report

Main Report

Members will be aware that the Epping Forest and Commons Committee held an Awayday on the 17 February. At the Awayday, there was extensive discussion on the developing Natural Environment Strategy which was presented in draft form. In addition, there was a detailed update on the various on-site projects and challenges at Epping Forest and the Commons. The draft NE Strategy is now brought together in an overarching document which will be used as a basis for consultation with key partners.

Charity Review

Members will also be aware, that the Corporate Charities Review (CCR) secured funding from Finance Committee to continue the CCR and additionally to support the

Natural Environment Division in 23/24 with the review of its charities. The Natural Environment Charity Review (NECR) was previously scoped under four broad themes but following a review session with the NECR working group comprising the CCR, the NECR will be rescoped. The scoping exercise, beginning with Epping Forest (232990) and Burnham Beeches & Stoke Common (232987), will focus on each charity in turn to develop charity specific and general recommendations, this approach has been successful with the CCR. A joint CCR/NECR report will be presented to your July Committees.

The initial focus of the NECR was on governance aspects, notably seeking to address the concern over a lack of clarity over the role and remit of the various Committees, which has been a longstanding concern. Following Officer consultation, it is considered these concerns should be incorporated and explored as part of the current scoping exercise. Accordingly, there will be no imminent change to Terms of Reference of the four Natural Environment Committees, though there is to be a name change for the Open Spaces and City Gardens Committee.

Changes to descriptors on the Charity Commission website have now been made, which should provide a clearer understanding of the full range of activities and functions. It is hoped that this will also help in the charities' fundraising efforts.

Key News from our Charities

Hampstead Heath

HMRC has confirmed that the registration of the new account for Hampstead Heath for gift aid has been approved and we are now in the process of setting up a framework that will allow the collection of gift aid for our campaigns, working with Just Giving. We are aiming for the use of Gift aid to be available this spring for North London Open Spaces and that it can be used as a pilot to be extended to our other sites.

As a nationwide initiative created to mark the Platinum Jubilee, the Queen's Green Canopy was extended to the end of the tree planting season, creating a living legacy to honour her Majesty. During the winter, the last of the 33 trees were planted in Hampstead Heath after the 54 trees planted in Epping Forest. Three of our ancient woodlands were also designated as part of the QGC: Ashted Common, Burnham Beeches and Epping Forest

The scoping of the Natural Environment Sport Strategy has started in parallel with the work for the Square Miles sport strategy. Key priorities are to maximise the potential of the facilities, activate our open spaces, celebrate the impact of sport and support local communities. A report is expected to be ready in the summer.

West Ham Park – Former Nursery Site

The commercial agreement with the preferred developer of the former nursery site is not yet finalised and pre-application discussion with LB Newham and relevant statutory agencies is on-going.

Learning

The learning programme has engaged 38,034 participants at Epping Forest, Hampstead Heath and West Ham Park (April 2022 – March 2023).

- 17,868 students participated in our school programme, which reached children in London's most deprived boroughs, including Tower Hamlets, Newham, Hackney, Waltham Forest and Haringey. Schools took part in facilitated workshops that support the National Curriculum and boost fusion skills, wellbeing and connection to nature.
- 19,868 people participated in our play programme at Hampstead Heath, with visitors enjoying activities which promoted social skills, physical fitness, confidence and wellbeing.
- 150 people participated in our community programme, including groups from Ambition Aspire Achieve and Chance UK.
- 90 people participated in our youth programme, including a pre-apprenticeship work experience programme for school students at risk of exclusion, careers events, and long-term programmes for pupil referral units.

The learning team hosted a climate education conference at the Guildhall, bringing together teachers and researchers to develop best practice in climate education. The alliance will work together to change today's education for tomorrow's climate, equipping people with the knowledge and skills to take climate action and protect the environment.

Projects Update

Natural Environment Strategy: Previous strategy work across key themes affecting Natural Environment has been combined in a single draft document. The combined document is being cross-referenced with all open space management plans and informed by current research on natural capital.

Monument: A feasibility study in relation to a Monument Visitor Centre, which could be delivered with a development partner through the Planning process, is underway and is due for completion in April 2023.

Wanstead Park: The Wanstead Park Ponds project is progressing towards Gateway 5, whilst a grant application to the GLA to support a prospective SUDs project at the park was rejected. Alternative funding options are now being explored. The activities

at the Grotto and Landing Stage have been combined into a single project, with new project governance and documentation in place.

Corporate & Strategic Implications

All projects and works delivered by our Charities contribute towards the achievement of the three aims set out in the City of London Corporate Plan 2018-23: Contribute to a flourishing society, Support a thriving economy and Shape outstanding environments.

A key strategic link is the Climate Action Strategy, and we work with the Departmental and Corporate teams to deliver those elements allocated to the Natural Environment Department,
