Summary

The HMICFRS PEEL inspection recommended City of London Police should develop a strategy for providing neighbourhood policing.

The neighbourhood policing and engagement strategy covers dedicated ward officers and the partnership and prevention hub. While its focus is on crime prevention and community engagement it is only one element of the force-wide response which seeks to achieve these aims and keep people who live, work and visit the City safe and feeling safe.

The purpose of the strategy is to provide direction to the neighbourhood policing team and provide the public with an overview of what to expect from our neighbourhood policing function. It is consistent with other neighbourhood policing strategies and aligned to the National Police Chiefs' Council Neighbourhood Policing Guidelines.

The strategy is currently in draft form and City of London Police has sought feedback from stakeholders, including HMICFRS, which will be incorporated into the final version and submitted to Police Authority Board in September for information.
