The contents of this report relate only to the matters which have come to our attention, which we believe need to be reported to you as part of our audit planning process. It is not a comprehensive record of all the relevant matters, which may be subject to change, and in particular we cannot be held responsible to you for reporting all of the risks which may affect the Pension Fund or all weaknesses in your internal controls. This report has been prepared solely for your benefit and should not be quoted in whole or in part without our prior written consent. We do not accept any responsibility for any loss occasioned to any third party acting, or refraining from acting on the basis of the content of this report, as this report was not prepared for, nor intended for, any other purpose.

Grant Thornton UK LLP is a limited liability partnership registered in England and Wales: No.OC307742. Registered office: 30 Finsbury Square, London, EC2A 1AG. A list of members is available from our registered office. Grant Thornton UK LLP is authorised and regulated by the Financial Conduct Authority. Grant Thornton UK LLP is a member firm of Grant Thornton International Ltd (GTIL). GTIL and the member firms are not a worldwide partnership. Services are delivered by the member firms. GTIL and its member firms are not agents of, and do not obligate, one another and are not liable for one another's acts or omissions.

Key matters

Pension Fund developments and National context

In accordance with statutory regulations a Triennial valuation of the Pension Fund was completed by the City's independent consulting actuaries, Barnett Waddingham LLP, as at 31 March 2019 using the projected unit method and the resulting employers' contribution were implemented for the three financial years commencing 1 April 2020. A more recent valuation was undertaken as at 31 March 2022, and found that the Pension Fund's funding position had improved to 98% (from 90% as at 31 March 2019). Employers' contributions are set based on Triennial actuarial funding valuations. Since the last such valuation was at 31 March 2022, employer contribution rates resulting from this exercise will apply from 1 April 2023. For 2022/23, employer contribution rates range from 15.0% to 21.0% of pensionable pay.

The net investments have slightly decreased by £2.9m for the year ending 31 March 2023 with a valuation of £1,366.2m. This was £1,369.1m as at 31 March 2022. The net assets available to fund benefits as at 31 March 2023 have also decreased by £12.7m, to £1,375.4m (£1,388.1m as at 31 March 2022).

For the general population, rising inflation, in particular for critical commodities such as energy, food and fuel, is pushing many households into poverty and financial hardship, including those in employment.

The pressures on household income have raised concerns that members will look at their pension contributions as a way of cutting back on their monthly costs. The cost-of-living crisis is having a detrimental impact on pension savings, with some even dipping into their savings to supplement short-term needs and several members are also requesting early access to their pension after age 55 as a means to financially manage their commitments. The cost of living crisis makes it even more important that lowly paid workers have access to a good quality pension.

In planning our audit, we will take account of this context in designing a local audit procedures which are tailored to your risks, circumstances and also directed by the Triennial valuation report which may lead us to perform more detailed assessment of the data input in the valuation.

Key matters

Our Response

- As a firm, we are absolutely committed to audit quality and financial reporting in the local government sector. Our proposed work and fee, as set out further in our Audit Plan, has been agreed with the Financial Services Director.
- We will continue to provide you and your Audit & Risk Management Committee with sector updates providing our insight on issues from a range of sources and other sector commentators.
- We hold annual financial reporting workshops for our clients to access the latest technical guidance and interpretation, discuss issues with our experts and create networking links with other clients to support consistent and accurate financial reporting across the sector.

Introduction and headlines

Purpose

This document provides an overview of the planned scope and timing of the statutory audit of City of London Pension Fund ('the Pension Fund') for those charged with governance.

Respective responsibilities

The National Audit Office ('the NAO') has issued a document entitled Code of Audit Practice ('the Code'). This summarises where the responsibilities of auditors begin and end and what is expected from the audited body. Our respective responsibilities are also set out in the agreed engagement letter and contract. We draw your attention to both of these documents.

Scope of our audit

The scope of our audit is set in accordance with the Code and International Standards on Auditing (ISAs) (UK). We are responsible for forming and expressing an opinion on the Pension Fund's financial statements that have been prepared by management with the oversight of those charged with governance (the Audit & Risk Management Committee).

The audit of the financial statements does not relieve management or the Audit & Risk Management Committee of your responsibilities. It is the responsibility of the Pension Fund to ensure that proper arrangements are in place for the conduct of its business, and that public money is safeguarded and properly accounted for. We have considered how the Pension Fund is fulfilling these responsibilities.

Our audit approach is based on a thorough understanding of the Pension Fund's business and is risk based.

Introduction and headlines

Significant risks

Those risks requiring special audit consideration and procedures to address the likelihood of a material financial statement error have been identified as:

- Management Override of Controls
- Valuation of Level 3 Investments

We will communicate significant findings on these areas as well as any other significant matters arising from the audit to you in our Audit Findings (ISA 260) Report.

Materiality

We have determined planning materiality as a whole to be £15.8m (PY £13.9m) for the Pension Fund, which equates to 1.2% of your reported draft gross investment assets as at 31 March 2023.

We have also determined fund account - specific planning materiality to be £4.3m, which equates to 7.5% of your reported draft fund gross expenditure as at 31 March 2023.

We are obliged to report uncorrected omissions or misstatements other than those which are 'clearly trivial' to those charged with governance. Clearly trivial has been set at £0.81m (PY £0.69m).

Audit logistics

Our interim visit will take place in July 2023 and our final visit will take place between August and September 2023. Our key deliverables are this Audit Plan, our Audit Findings Report and Auditor's Annual Report.

Our proposed fee for the audit will be £53k (PY 42k) for the Pension Fund, subject to the Pension Fund delivering a good set of financial statements and working papers.

We have complied with the Financial Reporting Council's Ethical Standard (revised 2019) and we as a firm, and each covered person, confirm that we are independent and are able to express an objective opinion on the financial statements.

New Auditing Standards

There are two auditing standards which have been significantly updated this year. These are ISA 315 (Identifying and assessing the risks of material misstatement) and ISA 240 (the auditor's responsibilities relating to fraud in an audit of financial statements). We provide more detail on the work required later in this plan.

Significant risks identified

Significant risks are defined by ISAs (UK) as risks that, in the judgement of the auditor, require special audit consideration. In identifying risks, audit teams consider the nature of the risk, the potential magnitude of misstatement, and its likelihood. Significant risks are those risks that have a higher risk of material misstatement.

Risk	Risk relates to	Reason for risk identification	Key aspects of our proposed response to the risk
Presumed risk of fraud in revenue recognition ISA (UK) 240	Pension Fund	<p>Under ISA (UK) 240, there is a rebuttable presumed risk that revenue may be misstated due to the improper recognition of revenue.</p> <p>This presumption can be rebutted if the auditor concludes that there is no risk material misstatement due to fraud relating to revenue recognition.</p> <p>Having considered the risk factors set out in ISA240 and the nature of the revenue streams at the Fund, we have determined that the risk of fraud arising from revenue recognition can be rebutted, because:</p> <ul style="list-style-type: none"> - there is little incentive to manipulate revenue recognition - opportunities to manipulate revenue recognition are very limited - the culture and ethical frameworks of local authorities, including City of London and Pension Fund, mean that all forms of fraud are seen as unacceptable <p>Therefore, we do not consider this to be a significant risk for City of London Pension Fund.</p>	Significant risk rebutted
Management over-ride of controls	Pension Fund	<p>Under ISA (UK) 240, there is a non-rebuttable presumed risk that the risk of management override of controls is present in all entities. The Pension Fund faces external scrutiny of its spending and its stewardship of its funds, this could potentially place management under undue pressure in terms of how they report performance.</p> <p>We therefore identified management override of control, in particular journals, management estimates, and transactions outside the course of business as a significant risk for the Pension Fund, which was one of the most significant assessed risks of material misstatement.</p>	<p>We will:</p> <ul style="list-style-type: none"> • Evaluate the design effectiveness of management controls over journals. • Analyse the journals listing and determine the criteria for selecting high risk unusual journals. • Test unusual journals recorded during the year and after the draft accounts stage for appropriateness and corroboration. • Gain an understanding of the accounting estimates and critical judgements applied made by management and consider their reasonableness with regard to corroborative evidence. • Evaluate the rationale for any changes in accounting policies, estimates or significant unusual transactions.

Significant risks identified

Risk	Risk relates to	Reason for risk identification	Key aspects of our proposed response to the risk
Valuation of Level 3 investments	Pension Fund	<p>You value your investments on an annual basis with the aim of ensuring that the carrying value of these investments is not materially different from their fair value at the balance sheet date.</p> <p>By their nature, Level 3 investment valuations lack observable inputs. These valuations therefore represent a significant estimate by management in the financial statements due to the size of the numbers involved (PY: £203m) and the sensitivity of this estimate to changes in key assumptions.</p> <p>Under ISA 315, significant risks often relate to significant non-routine transactions and judgemental matters. Level 3 investments by their very nature require a significant degree of judgement to reach an appropriate valuation at year end.</p> <p>Management utilise the services of investment managers as valuation experts to estimate the fair value as at 31 March 2023.</p> <p>We therefore have identified Valuation of Level 3 Investments as a significant risk.</p>	<p>We will:</p> <ul style="list-style-type: none"> • evaluate management's processes for valuing Level 3 investments and gain an understanding over the role of the custodian in the valuation process; • review the nature and basis of estimated values and consider what assurance management has over the year end valuations provided for these types of investments; to ensure that the requirements of the Code are met; • independently request year-end confirmations from investment managers and the custodian; • for a sample of investments, test the valuation by obtaining and reviewing the audited accounts, at the latest date for individual investments and agreeing these to the fund manager reports at that date. Reconcile those values to the values at 31 March 2023 with reference to known movements in the intervening period; • in the absence of available audited accounts, we will evaluate the competence, capabilities and objectivity of the valuation expert; and • review investment manager service auditor report on design and operating effectiveness of internal controls.

'Significant risks often relate to significant non-routine transactions and judgmental matters. Non-routine transactions are transactions that are unusual, due to either size or nature, and that therefore occur infrequently. Judgmental matters may include the development of accounting estimates for which there is significant measurement uncertainty.' (ISA (UK) 315).

Management should expect engagement teams to challenge management in areas that are complex, significant or highly judgmental which may be the case for accounting estimates and similar areas. Management should also expect to provide to engagement teams with sufficient evidence to support their judgments and the approach they have adopted for key accounting policies referenced to accounting standards or changes thereto. Where estimates are used in the preparation of the financial statements management should expect teams to challenge management's assumptions and request evidence to support those assumptions.

Other risks identified

Risk	Risk relates to	Reason for risk identification	Key aspects of our proposed response to the risk
Local Government Pension Scheme triennial valuation	Pension Fund	<p>Regulation 62 of the Local Government Pension Scheme (LGPS) requires pension fund administering authorities to obtain an actuarial valuation of the fund's assets and liabilities every three years. Triennial funding valuation reports as at 31 March 2022 were required to be obtained by 31 March 2023.</p> <p>The LGPS is a complex pension scheme with numerous participants, investment portfolios, and various financial and actuarial assumptions. The valuation process involves assessing the fund's assets and liabilities, projecting future cashflows, and making assumptions about investment returns, inflation rates, life expectancies, and other variables.</p>	<p>We will:</p> <ul style="list-style-type: none"> review the methods used to calculate the estimate, including the models used.; review the actuarial reports and assess the reasonableness of the assumptions made in the reports; perform tests on the accuracy and completeness of the data used in the valuation process. This includes examining source documents and reconciling data to supporting records. evaluate the adequacy and accuracy of the disclosures related to the LGPS triennial valuation within the financial statements.

We will communicate significant findings on these areas as well as any other significant matters arising from the audit to you in our Audit Findings Report.

'In respect of some risks, the auditor may judge that it is not possible or practicable to obtain sufficient appropriate audit evidence only from substantive procedures. Such risks may relate to the inaccurate or incomplete recording of routine and significant classes of transactions or account balances, the characteristics of which often permit highly automated processing with little or no manual intervention. In such cases, the entity's controls over such risks are relevant to the audit and the auditor shall obtain an understanding of them.' (ISA (UK) 315).

Other matters

Other work

The Pension Fund is administered by The City of London Corporation (the 'Authority'), and the Pension Fund's accounts form part of the Authority's financial statements.

Therefore, as well as our general responsibilities under the Code of Practice a number of other audit responsibilities also follow in respect of the Pension Fund, such as:

- We read any other information published alongside the Authority's financial statements to check that it is consistent with the Pension Fund financial statements on which we give an opinion and is consistent with our knowledge of the Authority.
- We consider our other duties under legislation and the Code, as and when required, including:
 - Giving electors the opportunity to raise questions about your 2022/23 financial statements, consider and decide upon any objections received in relation to the 2022/23 financial statements;
 - Issue of a report in the public interest or written recommendations to the Fund under section 24 of the Act, copied to the Secretary of State.
 - Application to the court for a declaration that an item of account is contrary to law under Section 28 or for a judicial review under Section 31 of the Act; or
 - Issuing an advisory notice under Section 29 of the Act.
- We carry out work to satisfy ourselves on the consistency of the pension fund financial statements included in the pension fund annual report with the audited Fund accounts.

Other material balances and transactions

Under International Standards on Auditing, 'irrespective of the assessed risks of material misstatement, the auditor shall design and perform substantive procedures for each material class of transactions, account balance and disclosure'. All other material balances and transaction streams will therefore be audited. However, the procedures will not be as extensive as the procedures adopted for the risks identified in this report.

Our approach to materiality

The concept of materiality is fundamental to the preparation of the financial statements and the audit process and applies not only to the monetary misstatements but also to disclosure requirements and adherence to acceptable accounting practice and applicable law.

Matter	Description	Planned audit procedures
1	<p>Determination</p> <p>We have determined financial statement materiality based on the following:</p> <ul style="list-style-type: none"> Materiality as a whole – planning materiality has been determined as £15.8m (PY £13.9m) for the Pension Fund, which equates to 1.2% of your reported draft gross investment assets as at 31 March 2023. Fund account - specific materiality has been set for transactions within the fund account other than those related to investment activities. Planning materiality has been determined as £4.3m, which equates to 7.5% of your reported draft fund gross expenditure as at 31 March 2023. <p>We have reassessed the materiality levels set for Pension Funds for our public sector audits nationally. This has led to this revised approach of setting two materiality's for the Fund account and another for the remaining balances. This reflects the disparity in value between the Fund Accounts and the Pension Funds asset base. Our view is this will provide a more proportionate level of focus on both aspects of our audit work.</p>	<p>We determine planning materiality in order to:</p> <ul style="list-style-type: none"> establish what level of misstatement could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements; assist in establishing the scope of our audit engagement and audit tests; determine sample sizes and; assist in evaluating the effect of known and likely misstatements in the financial statements.
2	<p>Other factors</p> <p>An item does not necessarily have to be large to be considered to have a material effect on the financial statements.</p>	<p>An item may be considered to be material by nature where it may affect instances when greater precision is required. We have identified transactions in the Fund account (contributions, benefit payments, management expenses) as transactions where we will apply a lower materiality level due to the following:</p> <ul style="list-style-type: none"> paying pensions and collecting contributions are core aspects of what a LGPS fund does; current pensioners and prospective pensioners will want assurance that pension payments are accurate; employers and prospective pensioners will want assurance that contributions are accurate. <p>We have set a materiality of £4.3m for the fund account transactions.</p>

Our approach to materiality

Matter	Description	Planned audit procedures
3	<p>Reassessment of materiality</p> <p>Our assessment of materiality is kept under review throughout the audit process.</p>	<p>We reconsider planning materiality if, during the course of our audit engagement, we become aware of facts and circumstances that would have caused us to make a different determination of planning materiality.</p>
4	<p>Other communications relating to materiality we will report to the Audit and Risk Management Committee</p> <p>Whilst our audit procedures are designed to identify misstatements which are material to our opinion on the financial statements as a whole, we nevertheless report to the Audit Committee any unadjusted misstatements of lesser amounts to the extent that these are identified by our audit work. Under ISA 260 (UK) 'Communication with those charged with governance', we are obliged to report uncorrected omissions or misstatements other than those which are 'clearly trivial' to those charged with governance. ISA 260 (UK) defines 'clearly trivial' as matters that are clearly inconsequential, whether taken individually or in aggregate and whether judged by any quantitative or qualitative criteria.</p>	<p>We report to the Audit and Risk Management Committee any unadjusted misstatements of lesser amounts to the extent that these are identified by our audit work.</p> <p>In the context of the Pension Fund, we propose that an individual difference could normally be considered to be clearly trivial if it is less than £0.81m (PY £0.69m). If management have corrected material misstatements identified during the course of the audit, we will consider whether those corrections should be communicated to the Audit and Risk Management Committee to assist it in fulfilling its governance responsibilities.</p>

IT audit strategy

In accordance with ISA (UK) 315 Revised, we are required to obtain an understanding of the relevant IT and technical infrastructure and details of the processes that operate within the IT environment. We are also required to consider the information captured to identify any audit relevant risks and design appropriate audit procedures in response. As part of this we obtain an understanding of the controls operating over relevant Information Technology (IT) systems i.e., IT general controls (ITGCs). Our audit will include completing an assessment of the design and implementation of relevant ITGCs. We say more about ISA 315 Revised on slide 17.

The following IT systems have been judged to be in scope for our audit and based on the planned financial statement audit approach we will perform the indicated level of assessment:

IT system	Audit area	Planned level IT audit assessment
Oracle E-Business Suite (General ledger)	Financial reporting	The IT Audit Team have carried out a review of the design and implementation of the City of London Corporation's (administering authority) general ledger, Oracle EBS - CBIS (Main ERP system hosted by City of London Corporation, used by the City of London Corporation Pension Fund).
Altair	Pension Administration	We will review the general IT controls in place for Altair.

Audit logistics and team

Paul Dossett, Key Audit Partner

Paul is the Engagement Lead, for the Pension Fund, leads the work performed on the audit. Signs the audit opinion and holds regular meetings with senior officers.

Nick Halliwell, Audit Manager

Nick is responsible for the overall management of the Pension Fund's audit and the quality assurance of audit work and output. Nick will attend Audit and Risk Management Committee, undertake reviews of the team's work and draft reports.

Antoinette Mtembu, Assistant Manager

Antoinette is the key audit contact responsible for the day-to-day management and delivery of the audit work.

Audited Entity responsibilities

Where audited entities do not deliver to the timetable agreed, we need to ensure that this does not impact on audit quality or absorb a disproportionate amount of time, thereby disadvantaging other clients. Where the elapsed time to complete an audit exceeds that agreed due to an entity not meeting its obligations, we will not be able to maintain a team on site. Similarly, where additional resources are needed to complete the audit due to an entity not meeting their obligations, we are not able to guarantee the delivery of the audit to the agreed timescales. In addition, delayed audits will incur additional audit fees.

Our requirements

To minimise the risk of a delayed audit, you need to :

- ensure that you produce draft financial statements of good quality by the deadline you have agreed with us, including all notes;
- ensure that good quality working papers are available at the start of the audit, in accordance with the working paper requirements schedule that we have shared with you;
- ensure that the agreed data reports are available to us at the start of the audit and are reconciled to the values in the accounts, in order to facilitate our selection of samples for testing;
- ensure that all appropriate staff are available on site throughout (or as otherwise agreed) the planned period of the audit;
- respond promptly and adequately to audit queries.

Audit fees and updated Auditing Standards including ISA 315 Revised

In 2022, we were awarded a contract of audit for City of London Pension Fund to begin with effect from 2021/22. The fee agreed in the contract was £35k. Since that time, there have been a number of developments, particularly in relation to the revised Code and ISA's which are relevant for the 2022/23 audit. For details of the changes which impacted on years up to 2021/22 please see our prior year Audit Plan.

The major change impacting on our audit for 2022/23 is the introduction of ISA (UK) 315 (Revised) - Identifying and assessing the risks of material misstatement ('ISA 315'). There are a number of significant changes that will impact the nature and extent of our risk assessment procedures and the work we perform to respond to these identified risks. Key changes include:

- Enhanced requirements around understanding the Pension Fund's IT Infrastructure, IT environment. From this we will then identify any risks arising from the use of IT. We are then required to identify the IT General Controls ('ITGCs') that address those risks and test the design and implementation of ITGCs that address the risks arising from the use of IT.
- Additional documentation of our understanding of the Pension Fund's business model, which may result in us needing to perform additional inquiries to understand the Pension Fund's end-to-end processes over more classes of transactions, balances and disclosures.
- We are required to identify controls within a business process and identify which of those controls are controls relevant to the audit. These include, but are not limited to, controls over significant risks and journal entries. We will need to identify the risks arising from the use of IT and the general IT controls (ITGCs) as part of obtaining an understanding of relevant controls.
- Where we do not test the operating effectiveness of controls, the assessment of risk will be the inherent risk, this means that our sample sizes may be larger than in previous years.

These are significant changes which will require us to increase the scope, nature and extent of our audit documentation, particularly in respect of your business processes, and your IT controls. We will be unable to determine the full fee impact until we have undertaken further work in respect of the above areas. However, for a Pension Fund of your size, we estimate an initial increase of £4,500. We will let you know if our work in respect of business processes and IT controls identifies any issues requiring further audit testing. There is likely to be an ongoing requirement for a fee increase in future years, although we are unable yet to quantify that.

The other major change to Auditing Standards in 2022/23 is in respect of ISA 240 which deals with the auditor's responsibilities relating to fraud in an audit of financial statements. This Standard gives more prominence to the risk of fraud in the audit planning process. We will let you know during the course of the audit should we be required to undertake any additional work in this area which will impact on your fee.

Taking into account the above, our proposed work and fee for 2022/23, as set out below, is detailed overleaf (and has been agreed with the Financial Services Director).

Audit fees

Proposed fee
2022/23

City of London Pension Fund tendered Audit fee	£35,000
Pension Fund Letters requested by other auditors- same as in prior year	£6,000
IAS 19 letters requested by BDO- same as prior year	£1,000
ISA 315	£4,500
Additional IAS 19 letters requested by Crowe	£1,000
Additional file sharing and work requested by Crowe	£1,500
Total audit fees (excluding VAT)	£49,000

- As Auditor of the pension fund, we are required to provide assurance to the auditors of admitted bodies in the of IAS 19 Assurance letters. This is an additional requirement to provide assurance for the pension fund financial statements. As this additional work is to support the IAS 19 for admitted bodies, the Pension Fund will need to determine whether to recharge the cost to these bodies.
- Note that fees for IAS 19 letters for admitted bodies were classed as non-audit fees prior to 2022/23. The National Audit Office have confirmed that the provision of IAS 19 assurances should be considered work undertaken under the Code of Audit Practice for 2022/23 audits onwards.
- Therefore, worth noting that the fee reported last year was £35k and a further £7k of non-audit fees. For comparability reasons have therefore shown this fee with both elements included in the above table.

Assumptions

In setting the above fees, we have assumed that the Pension Fund will:

- prepare a good quality set of accounts, supported by comprehensive and well-presented working papers which are ready at the start of the audit
- provide appropriate analysis, support and evidence to support all critical judgements and significant judgements made during the course of preparing the financial statements
- provide early notice of proposed complex or unusual transactions which could have a material impact on the financial statements.

Relevant professional standards

In preparing our fee estimate, we have had regard to all relevant professional standards, including paragraphs 4.1 and 4.2 of the FRC's [Ethical Standard \(revised 2019\)](#) which stipulate that the Engagement Lead (Key Audit Partner) must set a fee sufficient to enable the resourcing of the audit with partners and staff with appropriate time and skill to deliver an audit to the required professional and Ethical standards.

Independence

Auditor independence

Ethical Standards and ISA (UK) 260 require us to give you timely disclosure of all significant facts and matters that may bear upon the integrity, objectivity and independence of the firm or covered persons, relating to our independence. We encourage you to contact us to discuss these or any other independence issues with us. We will also discuss with you if we make additional significant judgements surrounding independence matters.

We confirm that there are no significant facts or matters that impact on our independence as auditors that we are required or wish to draw to your attention. We have complied with the Financial Reporting Council's Ethical Standard and we as a firm, and each covered person, confirm that we are independent and are able to express an objective opinion on the financial statements.. Further, we have complied with the requirements of the National Audit Office's Auditor Guidance Note 01 issued in May 2020 which sets out supplementary guidance on ethical requirements for auditors of local public bodies.

We confirm that we have implemented policies and procedures to meet the requirements of the Ethical Standard. For the purposes of our audit we have made enquiries of all Grant Thornton UK LLP teams providing services to the Pension Fund.

Communication of audit matters with those charged with governance

Our communication plan

	Audit Plan	Audit Findings
Respective responsibilities of auditor and management/those charged with governance	•	
Overview of the planned scope and timing of the audit, form, timing and expected general content of communications including significant risks and Key Audit Matters	•	
Confirmation of independence and objectivity of the firm, the engagement team members and all other indirectly covered persons	•	•
A statement that we have complied with relevant ethical requirements regarding independence. Relationships and other matters which might be thought to bear on independence. Details of non-audit work performed by Grant Thornton UK LLP and network firms, together with fees charged. Details of safeguards applied to threats to independence	•	•
Significant matters in relation to going concern	•	•
Significant findings from the audit		•
Significant matters and issue arising during the audit and written representations that have been sought		•
Significant difficulties encountered during the audit		•
Significant deficiencies in internal control identified during the audit		•
Significant matters arising in connection with related parties		•
Identification or suspicion of fraud (deliberate manipulation) involving management and/or which results in material misstatement of the financial statements		•
Non-compliance with laws and regulations		•
Unadjusted misstatements and material disclosure omissions		•
Expected modifications to the auditor's report, or emphasis of matter		•

ISA (UK) 260, as well as other ISAs (UK), prescribe matters which we are required to communicate with those charged with governance, and which we set out in the table here.

This document, the Audit Plan, outlines our audit strategy and plan to deliver the audit, while the Audit Findings will be issued prior to approval of the financial statements and will present key issues, findings and other matters arising from the audit, together with an explanation as to how these have been resolved.

We will communicate any adverse or unexpected findings affecting the audit on a timely basis, either informally or via an audit progress memorandum.

Respective responsibilities

As auditor we are responsible for performing the audit in accordance with ISAs (UK), which is directed towards forming and expressing an opinion on the financial statements that have been prepared by management with the oversight of those charged with governance.

The audit of the financial statements does not relieve management or those charged with governance of their responsibilities.
