Summary

The HMICFRS PEEL inspection recommended City of London Police should develop a strategy for providing neighbourhood policing.

A draft Neighbourhood Policing and Engagement Strategy was presented to Members at the Strategic Planning and Performance Committee (SPPC) on 5 September 2023. Member feedback from SPPC has been noted and the Strategy was reviewed in light of this feedback and this draft is presented for final Board Member comments with a view to a final version being presented at a future PAB.

The strategy covers dedicated ward officers and the partnership and prevention hub. While its focus is on crime prevention and community engagement it is only one element of the force-wide response which seeks to achieve these aims and keep people who live, work and visit the City safe and feeling safe.

The purpose of the strategy is to provide direction to the neighbourhood policing team and provide the public with an overview of what to expect from our neighbourhood policing function. It is consistent with other neighbourhood policing strategies and aligned to the National Police Chiefs' Council Neighbourhood Policing Guidelines.

The latest version is attached at Appendix 1.
