Main Report

Background

1. Departmental Business Plans are now an integral element of the City's enhanced performance management system and are part of a more clearly defined annual planning cycle, which has been devised to improve the links between service and financial planning and drive service improvement.
2. The purpose of the Open Spaces Business Plan is to enable the Department to show how its activities support the City's strategic aims and policy priorities and demonstrate how it can improve its performance. The Plan Shows:
 - How the Department's activities contribute to the City Together Strategy and the Corporate Plan and therefore how the City's policies will be implemented,
 - Performance targets for the current year,
 - Resource and learning and development requirements, and
 - The programme of action required to achieve the targets

3. A summary of the previous Business Plan for 2012 – 2015 was presented to the Port Health and Environmental Services Committee in May 2012.

Current Position

4. The new Business Plan for 2013 – 2016 was presented to the Open Spaces, City Gardens and West Ham Park Committee on 15 April 2013. It has been compiled in line with corporate guidelines and incorporates comments from the Town Clerk's Performance and Development Team. The overall Plan provides a review of the Open Spaces Department's performance in the past year and looks ahead to future plans in light of available resources.
5. Members of the Port Health and Environmental Services Committee are invited to comment on key sections in the new Plan and the projects that relate to the Cemetery and Crematorium before the Plan is finalised. A summary of the relevant sections in the Plan is therefore attached to this report and includes:
 - Introduction from the Director of Open Spaces
 - Summary of services provided by the Open Spaces Department
 - Organisational Structure
 - Open Spaces Vision, and Strategic Aims and Objectives
 - Key Performance Indicators
 - Key Projects for the Cemetery and Crematorium
 - Key Achievements in 2012/13
 - Staffing position
 - Financial summary
 - Risk Register (eleven of the fourteen departmental risks are relevant to the Cemetery)

A copy of the full Plan will be available in the Members' Reading Room and from the Open Spaces home page on the intranet.

Corporate and Strategic Implications

6. The Business Plan details how the Open Spaces Department's activities and key projects for the next three years support and link to the themes in the City Together Strategy and the City's Corporate Plan.

Conclusion

7. Formal monitoring arrangements are in place to ensure that performance is reviewed regularly at the appropriate level. During the coming year progress on implementing the Business Plan will be monitored with the Superintendents at monthly departmental management team meetings. Members will be kept informed of progress on key projects and the budget position for the Cemetery and Crematorium in four monthly reports to this Committee during 2013/14, which will review progress on achieving the performance indicators and highlight any significant deviation from the Plan.
