SUR MKT WM 001 MCP disruption / cancellation necessitating the Markets remaining in end-of-life/deteriorating market infrastructure. 17-Mar-2020 Ben Milligan	Cause: The Markets Co-location Project (MCP) team are leading a project to move the City's Wholesale Markets to a single site in Barking & Dagenham. This proposed move may influence decisions on maintenance at the existing markets to ensure resources are not invested in works whose life will exceed the anticipated occupation of the respective market site. However, should the City of London Corporation be unable to, or decide not to, complete the MCP or determines an alternative use for the Barking site, the markets may not move and this could have an injurious effect on the continued operation of the markets on their existing sites. Event: The City's three wholesale food markets, New Spitalfields, Smithfield and Billingsgate are unable relocate to the Barking site and find themselves with seriously dilapidated infrastructure due to the investment decisions taken in anticipation of the proposed move to the Barking site. Effect: This could result in a major programme of works at the existing markets sites to catch up with the deferred	 Likelihood Impact	24	Following a review, the risk and likelihood have been adjusted to reflect the impact of the ongoing review of options and the scale of potential liability if the markets co-location programme is not progressed. 25 Apr 2024	 Likelihood Impact	4	31-Dec-2026	 Constant

<p>maintenance in order to ensure the markets are fit for purpose. This could require significant additional capital investment.</p> <p>Relationships with tenants may be adversely affected due to the impact on normal operation of the refurbishment works, which could result in adverse publicity, possibly leading to reputational damage to the City and tenant claims against City of London Corporation for loss of earnings and other incurred costs</p> <p>Should the capital investment required be cost prohibitive, or the impact of the refurbishment cause severe disruption to tenants' businesses, this could trigger a decline in the markets, possibly to the point where they are irrecoverable.</p>

SUR-MKT-WM 001a	Keep risk under regular review	Following a review, the risk and likelihood have been adjusted to reflect the impact of the ongoing review of options and the scale of potential liability if the markets co-location programme is not progressed.	Ben Milligan	25-Apr-2024	31-Dec-2026
SUR-MKT-WM 001b	Agree and implement a maintenance strategy to ensure there are appropriate levels of maintenance such that the markets will not be forced to close due to failing infrastructure.	The interim maintenance strategy will ensure that appropriate levels of maintenance continue to be carried out until there is more certainty about the markets' move. This will address the risk that the markets cannot operate due to failing infrastructure in the short to medium term. Bow-wave funding (£2.5m) has been approved that will address the most significant works needed at Smithfield. Billingsgate Action Plan works (Racking and Cold store roof) are complete, and so are the remedial works on Spitalfields roof.	Ben Milligan	27-Jun-2024	31-Dec-2026

SUR MKT BG 009 Billingsgate Transport Risk 10-Feb-2023 Stephen Dolamore	Cause: A lack of sufficient training and adequate management controls in relation to vehicle movements at Billingsgate Market. Event: There is a risk of a life changing injury to a pedestrian if vehicle movement including forklift trucks are not appropriately managed and controlled. Effect. An accident involving a pedestrian and a vehicle which resulted in a serious or life changing injury could result in prosecution, a fine, reputational damage for the City.		12	Creating a traffic management plan and safe system of work addressing the most intensively used areas of site that all market users will be required to adhere to. Further pedestrian restrictions and segregation measures introduced. 18 Oct 2023		8	28-Feb-2025	 Constant

SUR MKT WM 004 Health & Safety Risk 28-Apr-2023 Ben Milligan	Causes: The operation of three large, semi-industrial sites with extensive traffic movements and accessible by large numbers of pedestrians carries a range of potential health and safety implications for members of the public, staff, and contractors. Event: Incident or accident with health and safety implications. Impact: Potential life changing injury to a member of the public, staff and contractor.	 Likelihood Impact	12 Due to the nature of our Markets and the types of activities carried out, many of the risks have potential health & safety impacts, for example, vehicle movements, loading and unloading goods, waste collection, repair and maintenance of buildings. There are also ongoing health and safety risks associated with contractors adopting safe working practices and members of the public disregarding safety advice. This consolidated, cross-departmental risk has been assessed and scored as 12 due to the wide range of health and safety related risks across the Markets. Whilst some factors are beyond our direct control, for example, behaviour of members of the public and adjacent/surrounding busy highways, each site has appropriate actions in place to mitigate health and safety impacts of their risks as far as reasonably practicable. Work is underway to build a safety culture. The Markets health&safety policy is being embedded across all three markets and developing an assurance framework programme to ensure safety standards are met is commencing. SUR-MKT-SM 004f Replace pipework	There are works being arranged by the projects team to replace the pipework to the cooling condenser. An update will be added once these works are scheduled and again when completed. These works should further eliminate the risk of a cooling water failure.	Pipework replacement complete on the East Market. Funding being sourced for replacement of pipework on the West Market. If seeking of funds is successful, the project may take place in the financial years 24/5. The Superintendent is in discussions with City Surveyor colleagues on the priority of CWP works allocated to the Market as this item is a high priority	Mark Sherlock	02-Jul-2024	31-Mar-2025
SUR-MKT-SM 004g Risk review	Risk will be regularly reviewed.	The risk has been increased as the system has suffered increased fine particle debris intake as a direct result of the Museum of London demolition works in the adjacent building in recent months. This has affected the service to traders resulting in the tripping of refrigeration equipment and a rise in temperatures.	Mark Sherlock	01-Jul-2024	30-Sep-2024
SUR-MKT-SM 004h Additional Mitigation Measures Required		Additional inspections and preventative measures are being undertaken. This involves increased frequency by the local maintenance team to daily checks of the tower stream filters, plantroom basket strainers and plantroom stream filters with replacement of filter socks as necessary. The FM service provider Socotec is attending and cleaning all cooling tower screens, this has now increased to weekly. Trader refrigeration contractors are cleaning in-line pre-filters and are chemically flushing refrigeration equipment if required. The City has also recently engaged with CityGen to ascertain the viability of a temporary additional chilled water supply to assist with the current on-going issues. The Market is also increasing it's holding of critical spares.	Mark Sherlock	28-Jun-2024	31-Aug-2024
