DCCS HS 005 Major works programme  07-Jan-2020 Gregory Wade	Cause: Shortfall in funding/increase in costs of current major works programme  Event: Inability of the City of London to fund current and planned major works improvements and fire safety works  Effect: Detrimental to property conditions and living standards, reputational damage.	Impact 8	Completion of the current Major Works Programme has been delayed due to financial and external factors such as labour and material shortages and the complexity of the buildings. Due to increase in labour and material costs we are seeing the cost of many projects increase by more than 30%. The Capital Review has added a further six month delay to some projects. The resultant significant increase in capital funding from the HRA major repairs reserve for the effected projects will mean other planned projects may need to be delayed or stopped in order to compensate.
